## **Parties Candidates And Constituency Campaigns In Canadian Elections:**

*Parties, Candidates, and Constituency Campaigns in Canadian Elections* Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level. With its unique micro level focus *Parties Candidates and Constituency Campaigns in Canadian Elections* provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada. By taking a detailed look at campaigns in seven B.C. ridings during the 1988 free trade election the last under the old three party system Anthony Sayers develops a typology of candidates and campaigns. The dynamics of local associations, nominations and campaigns including those of former prime minister Kim Campbell and New Democrat Svend Robinson as well as key strategic events and the role of the media are reconstructed from interviews with candidates, campaign managers, party strategists, volunteers and journalists. The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system. This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian polity, its underlying social basis and the factors that determine successful election campaigns. As such *Parties Candidates and Constituency Campaigns in Canadian Elections* will intrigue not only political scientists and students of Canadian politics but also election candidates and party strategists. *A History of the Vote in Canada* Elections Canada, Canada. Public Works and Government Services Canada, 1997 This volume documents the 200 year process by which Canadians overcame exclusions from the franchise and barriers to voting to achieve a universal constitutionally entrenched right to vote. The evolution of the vote is examined chronologically focusing on the expansion of the right in Canada and on the development of mechanisms to ensure or facilitate exercise of the right. The historical process is traced against the social and political background of the period highlighting the events and changes shaping the environment in which the vote evolved. Chapter 1 examines the vote from the beginnings of responsible government in the colonial period. Chapter 2 covers 1867-1920 a period of several shifts in control of the federal franchise between federal and provincial governments. The final chapter examines changes from the beginning of the modern era in electoral law in 1920 to the present. *Parties, Elections, and the Future of Canadian Politics* Amanda Bittner, Royce Koop, 2013-03-01 On 2 May 2011 Canadians watched as the Stephen Harper Conservatives won their first majority government. Jack Layton led the NDP to its best performance in history and Michael Ignatieff and the federal Liberals had their worst showing to date. For most casual observers this election marked a major shift in Canadian politics. In reality the country's political landscape and national party system had been changing for quite some time. *Parties Elections and the Future of Canadian Politics* offers the first comprehensive account of political change in Canada over the past two decades. It explores developments in the political landscape from both historical and contemporary perspectives and speculates on the future of the national party system. By documenting how parties and voters responded to new challenges between 1993 and

2011 this volume enhances our understanding of one of the most tumultuous periods in Canadian political history

Assessing Justin Trudeau's Liberal Government Collectif Collectif, 2019-07-16T00:00:00-04:00 Twenty renowned academics investigate the fate of the 353 liberal campaign promises Foreword by Thomas Mulcair **Canadian Parties in Transition, Fifth Edition** Alain-G Gagnon, Brian Tanguay, 2024-10-01 The fifth edition of *Canadian Parties in Transition* continues and enriches the work of earlier editions in bringing together a highly respected group of scholars to offer a comprehensive account of the development of party politics in Canada The book addresses the origin and the evolution of the Canadian party system and discusses how that system has been impacted by regionalism brokerage politics and political marketing It focuses on the competing ideological currents that occupy the political stage while also paying attention to the role of third parties in federal politics Contributors address the representation and democracy through an exploration of voting systems direct democracy the role occupied by constituencies gender politics and the distinct Quebec dynamics in the federal party system Finally the book analyses topical issues such as electoral participation social movements right wing populist parties political campaigning and digital party politics This new edition has been thoroughly revised and updated to reflect ongoing transformations and includes nineteen new contributing authors and coverage of seven new topics *Canadian Parties in Transition* presents a multi faceted image of party dynamics electoral behaviour political marketing and representative democracy *Interest Groups and Elections in Canada* F. Leslie Seidle, 1991-01-01 The two studies in *Interest Groups and Elections in Canada* explore the nature and influence of special interest groups They consider different aspects of the question In the context of the Canadian Charter of Rights and Freedoms how can the laws intended to secure a fair electoral process be reconciled with freedom of expression Janet Hiebert reviews the limits on interest groups adopted in 1974 and amended in 1983 profiles the groups involved in the 1988 federal election and discusses relevant legislation and jurisprudence in the provinces and abroad She concludes that spending limits for parties and candidates will only be effective if there are also restrictions on independent expenditures during elections by groups and individuals Brian Tanguay and Barry Kay assess the influence attributed to locally oriented interest groups including by members of Parliament and conclude that these organizations have less influence on the political process than is the popular view The authors conclude that dissatisfaction is a key variable explaining the role of these interest groups and their activities during elections

**Political Leaders and Democratic Elections** Kees Aarts, André Blais, Hermann Schmitt, 2011-03-10 Outcomes of legislative elections are typically reported in terms of party support how many votes and seats were obtained by each party But in fact voters are faced with three choices which must be folded into one They must decide which party they prefer but in so doing they must take account of the policies advocated by these parties and the leaders who will eventually have to enact them This simple fact raises question about the relative weight of these considerations and especially the importance granted to the leaders This issue has been largely neglected in the vast literature on voting behaviour The dominant traditions in the

study of voting behaviour focus on political parties and party identification and on political issues and ideology respectively This volume uses election surveys over the past 50 years to systematically assesses the impact of political leaders on voting decisions in nine democracies Australia Britain Canada Germany the Netherlands Norway Spain Sweden and the United States It analyses issues such as the changes in political communication particularly the rise of televised politics and the relative importance accorded to political leaders in different types of political systems It demonstrates how electoral systems and other political institutions have a discernible effect on the importance voters accord to actual political leaders Contrary to popular wisdom Political Leaders and Democratic Elections shows how unimportant the characteristics of political leaders parties and indeed the voters themselves actually are on voting patterns The volume shows that voters tend to let themselves be guided by the leaders they like rather than being pushed away from those they dislike Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The Comparative Politics series is edited by Professor David M Farrell School of Politics and International Relations University College Dublin Kenneth Carty Professor of Political Science University of British Columbia and Professor Dirk Berg Schlosser Institute of Political Science Philipps University Marburg

**Parties, Elections, and the Future of Canadian Politics** Amanda Bittner, Royce Koop, 2013-03-01 On May 2 2011 as Canadians watched the federal election results roll in and Stephen Harper's Conservatives achieve a majority it appeared that we were witnessing a major shift in the political landscape In reality Canadian politics had been changing for quite some time This volume provides the first account of the political upheavals of the past two decades and speculates on the future of the country's national party system By documenting how parties and voters responded to new challenges between 1993 and 2011 this book sheds light on one of the most tumultuous periods in Canadian political history

**Democratizing Candidate Selection** Guillermo Cordero, Xavier

Coller,2018-06-30 This book studies the challenges to conventional politics posed by new ways of selecting candidates for legislative elections The recent economic crisis had profound political consequences on politics generating an upsurge in the demand for more participative ways of decision making in politics channelled through social movements and individuals in different countries Some parties have reacted by introducing changes in their internal organization via intra party democracy particularly related to the selection of candidates for public office This volume explores the trends and challenges of these new methods of selection analyses how the internet is increasingly being used as a selection tool and evaluates some of the relevant consequences related to political representation party cohesion and party centralization among others *Political Parties in Advanced Industrial Democracies* Paul Webb,David Farrell,Ian Holliday,2002-09-26 How relevant and vital are political parties in contemporary democracies Do they fulfill the functions that any stable and effective democracy might expect of them or are they little more than moribund anachronisms relics of a past age of political life now superseded by other mechanisms of linkage between state and society These are the central questions which this book aims to address through a rigorous comparative analysis of political parties operating in the world s advanced industrial democracies Drawing on the expertise of an impressive team of internationally known specialists the book engages systematically with the evidence to show that while a degree of popular cynicism towards them is often chronic though rarely acute parties have adapted and survived as organizations remodelling themselves to the needs of an era in which patterns of linkage and communication with social groups have been transformed This has enabled them to remain central to democratic systems especially in respect of the political functions of governance recruitment and albeit more problematically interest aggregation On the other hand the challenges they face in respect of interest articulation communication and participation have pushed parties into more marginal roles within Western political systems The implications of these findings for democracy depend on the observer s normative and theoretical perspectives Those who understand democracy primarily in terms of popular choice and control in public affairs will probably see parties as continuing to play a central role while those who place greater store by the more demanding criteria of optimizing interests and instilling civic orientations among citizens are far more likely to be fundamentally critical Comparative Politics is a series for students and teachers of political science that deals with contemporary issues in comparative government and politics The General Editors are Max Kaase Vice President and Dean of Humanities and Social Sciences International University Bremen and Kenneth Newton Professor of Government at Southampton University The series is published in association with the European Consortium for Political Research **Routledge Handbook of Primary Elections** Robert G. Boatright,2018-02-15 Primary elections have been used for the past century for most U S elective offices and their popularity is growing in other nations as well In some circumstances primaries ensure that citizens have a say in elections and test the skills of candidates before they get to the general election Yet primaries are often criticized for increasing the cost of elections for producing ideologically extreme

candidates and for denying voters the opportunity to choose candidates whose appeal transcends partisanship Few such arguments have however been rigorously tested This innovative Handbook evaluates many of the claims positive and negative that have been made about primaries It is organized into six sections covering the origins of primary elections primary voters US presidential primaries US subpresidential primaries primaries in other parts of the world and reform proposals The Routledge Handbook of Primary Elections is an important research tool for scholars a resource guide for students and a source of ideas for those who seek to modify the electoral process      **Just One Vote** Ian Stewart, 2009-04-30 On January 12 1986 Jim Walding was nominated as the New Democratic Party candidate for the Manitoba constituency of St Vital Although Walding had been an MLA for fifteen years he had fallen out of favour with key elements in his party and won the nomination by only a single vote Walding went on in turn to bring down his own government by a single vote marking the only time in the history of Canadian politics that a majority government was brought down from within Combining data drawn from archives interviews and the media Just One Vote is a vivid and exceptionally detailed study of the nomination process Ian Stewart outlines the geographic social and political backdrop behind Walding's contested party nomination the unusual chain of events triggered by the contestation including the fall of the Pawley government and the NDP's defeat in the 1988 provincial election and examines the fallout from these events on Manitobans and Canadians      *Stalled* Linda Trimble, Jane Arscott, Manon Tremblay, 2013-05-31 Following significant increases in women's electoral representation in the 1980s and 90s progress has stalled Despite some high profile successes at the provincial level there are now only a few more women in Canada's parliament and legislatures than a decade ago What has happened to the representational gains for women and why does gender parity remain so elusive To answer these questions Stalled provides a provides a detailed roadmap of women's political representation as candidates office holders cabinet ministers party leaders and as representatives of the Crown at all levels of government across Canada Prospects for gender parity in political office are assessed in each jurisdiction and institution Explanations are re-examined and analyzed using data from across the country The representation of women in elected and appointed offices is an important indicator of both gender equality and the overall health of democratic governance By this measure Canada continues to fall short      *Grassroots Liberals* Royce Koop, 2011-05-01 The Liberal Party has fallen on hard times since 2006 Once Canada's natural governing party but now confined to the opposition benches it struggles to renew itself presumably without the support of the provincial level Liberal parties Drawing on interviews and personal observations in cross country ridings Royce Koop reveals that although the Liberal Party like other parties disassociated itself from its provincial cousins to rebuild itself in the mid twentieth century grassroots Liberals and other partisans continue to build bridges between the national party and the provinces This insider's view of Liberal party politics not only challenges the idea that Canada has two distinct political spheres the provincial and the national it suggests that national parties can overcome the challenges of multi level politics strengthen their ties to provincial

politics and deepen their legitimacy by tapping the activism energy and support of constituency associations and local campaigns
