Parties and Power in Modern Argentina 1930-1946 Alberto Ciria, 1974-01-01 An analysis of the immediate causes of Peronism in its formative stages is included in this study of the emergence of powerful pressure groups and the decay of traditional political parties in Argentina during the period 1930-1946. A detailed well documented description of Argentine politics through four administrations. Presidential Power in Latin America Dan Berbecl, 2021-12-23 What explains variance in presidential power between countries? In *Presidential Power in Latin America* Dan Berbecl provides a general systematic theory for explaining presidential power in practice as opposed to presidential power in theory. Using expert survey data from *Varieties of Democracy V-Dem* alongside interviews with high level figures in politics, the judiciary, the public administration, NGOs and academia in Argentina and Chile, Berbecl argues that constitutional presidential power, formal power, is a very poor predictor of presidential power in practice, informal power. Given the poor predictive value of formal rules, he provides an explanation why hyperpresidentialism emerges in some countries but not in others. Berbecl attributes the root causes of hyperpresidentialism to three independent variables: the strength of state institutions, the size of the president's party in congress, and whether or not the country has a history of economic crises, which together determine how likely it is that a president will be able to concentrate power. *Presidential Power in Latin America* will be of key interest to scholars and students of executive politics, Latin American politics, and more broadly comparative politics. **Modern democracies** James Bryce Bryce, 1921 *Modern Democracies* James Bryce Bryce (Viscount), 1921 Modern Democracies James Bryce, 2008-01-01 Philip King of Macedon was wont to boast that he could take any city into which he could drive an ass laden with gold. Many statesmen from Philip's time down to our own have spoken to the like effect. So long as private property exists, there will be rich men ready to corrupt and other men, rich as well as poor, ready to be corrupted for the love of money is the root of all evil. This has been so under all forms of government alike. The House of Commons in the days when Walpole looked round its benches observed, 'All these men have their price; was no worse than were most of the Jacobin leaders among the French revolutionaries.' s from Chapter LXIX *The Money Power in Politics*. This 1921 study of democracy in action, presented in two volumes, is not only an important examination of the state of the free world in the late 19th and early 20th centuries; it's a vital reminder as democracy continues to struggle to fruition around the globe of history as an ongoing story. Volume II covers the decline of legislatures, the executive in a democracy, democracy and foreign policy, the judiciary, the relation of central to local government, the money power in politics, democracy compared with other forms of government, the future of democracy, and democracy at work in the United States, Australia, and New Zealand. In 1921, William H. Taft said of Bryce, 'no man in the world today is better fitted to discuss modern democracies.' His encyclopedic knowledge of history made

vivid and practical by his actual observations and continued studies give him a peculiar facility for discussing the present state of modern democracies British historian VISCOUNT JAMES BRYCE 1838 1922 attended the University of Glasgow and Trinity College Oxford He is best known for his scholarship of the Holy Roman Empire His popular works include *Studies in History and Jurisprudence* 1901 and *Studies in Contemporary Biography* 1903 **Perón and the Enigmas of Argentina** Robert D. Crassweller, 1987 A study of the life of Juan Peron focusing on the values emotions and psychological links of the appeal of Peronism and its mythology and longevity Guide to the Hispanic American Historical Review, 1956-1975 Wilber A. Case Studies in Latin American Political Economy Julia Buxton, Nicola Phillips, 1999 Covering the period from the re-establishment of the Irish militia during the Crimean War until the disbandment of the Ulster Defence Regiment in 1992 this book examines the Irish amateur military tradition within the British Army distinctive from a British amateur military tradition Irish men and women of both religions and political persuasions made a significant contribution to these forces and in so doing played an important role within the British Empire whilst also providing a crucial link between the army and Irish society Utilising new source material this book demonstrates the complex nature of Irish involvement with British institutions and its Empire It argues that within this unique tradition two divergent Protestant and Catholic traditions emerged and membership of these organisations was used as a means of social mobility for political patronage and crucially to demonstrate loyalty to Britain and its Empire The Library Index to Periodicals and Current Events , 1905 Peronism and the Three Perons Hoover Institution on War, Revolution, and Peace, 1988 **The Palgrave Handbook of Political Elites** Heinrich Best, John Higley, 2017-11-08 This handbook presents a comprehensive view of the current theory and research surrounding political elites which is now a pivotal subject for academic study and public discourse In 40 chapters by leading scholars it displays the field's richness and diversity The handbook is organized in six sections each introduced by a co editor focusing on theories about political elites methods for studying them their main structural and behavioral patterns worldwide the differentiation and integration of political elite sectors elite attributes and resources and the dilemmas of political elites in this century Forty years since Robert Putnam's landmark *Comparative Study of Political Elites* this handbook is an indispensable resource for scholars and students engaged in the study of this vibrant field *Elites, Nonelites, and Power* Rebecca Jean Emigh, Dylan Riley, 2024-11-28 Bringing together cutting edge multidisciplinary papers that weigh in on central issues of the world and social science the collection considers power elites and nonelites in a new inclusive way drawing in researchers who deal with topics central to elite theory but who might not be represented in more classic statements of it *Diminished Parties* Juan Pablo Luna, Rafael Piñeiro Rodríguez, Fernando Rosenblatt, Gabriel Vommaro, 2021-12-16 Many contemporary party organizations are failing to fulfill their representational role in contemporary

democracies While political scientists tend to rely on a minimalist definition of political parties groups of candidates that compete in elections this volume argues that this misses how parties can differ not only in degree but also in kind With a new typology of political parties the authors provide a new analytical tool to address the role of political parties in democratic functioning and political representation The empirical chapters apply the conceptual framework to analyze seventeen parties across Latin America The authors are established scholars expert in comparative politics and in the cases included in the volume The book sets an agenda for future research on parties and representation and it will appeal to those concerned with the challenges of consolidating stable and programmatic party systems in developing democracies

Beyond Civil Society Sonia E. Alvarez, Jeffrey W. Rubin, Millie Thayer, Gianpaolo Baiocchi, Agustín Laó-Montes, 2017-05-18 The contributors to Beyond Civil Society argue that the conventional distinction between civic and uncivic protest and between activism in institutions and in the streets does not accurately describe the complex interactions of forms and locations of activism characteristic of twenty first century Latin America They show that most contemporary political activism in the region relies upon both confrontational collective action and civic participation at different moments Operating within fluid dynamic and heterogeneous fields of contestation activists have not been contained by governments or conventional political categories but rather have overflowed their boundaries opening new democratic spaces or extending existing ones in the process These essays offer fresh insight into how the politics of activism participation and protest are manifest in Latin America today while providing a new conceptual language and an interpretive framework for examining issues that are critical for the future of the region and beyond Contributors Sonia E Alvarez Kiran Asher Leonardo Avritzer Gianpaolo Baiocchi Andrea Cornwall Graciela DiMarco Arturo Escobar Raphael Hoetmer Benjamin Junge Luis E Lander Agust n La Montes Margarita L pez Maya Jos Antonio Lucero Graciela Monteagudo Amalia Pallares Jeffrey W Rubin Ana Claudia Teixeira Millie Thayer

Gangs, Pseudo-Militaries, and Other Modern Mercenaries Max G. Manwaring, 2012-10-11 As the first decade of the twenty first century has made brutally clear the very definitions of war and the enemy have changed almost beyond recognition Threats to security are now as likely to come from armed propagandists popular militias or mercenary organizations as they are from conventional armies backed by nation states In this timely book national security expert Max G Manwaring explores a little understood actor on the stage of irregular warfare the gang Since the end of the Cold War some one hundred insurgencies or irregular wars have erupted throughout the world Gangs have figured prominently in more than half of those conflicts yet these and other nonstate actors have received little focused attention from scholars or analysts This book fills that void Employing a case study approach and believing that shadows from the past often portend the future Manwaring begins with a careful consideration of the writings of V I Lenin He then scrutinizes the Piqueteros in Argentina gangs in Colombia private armies in Mexico Hugo Chavez s use

of popular militias in Venezuela and the looming threat of Al Qaeda in Western Europe As conventional warfare is increasingly eclipsed by these irregular and uncomfortable wars Manwaring boldly diagnoses the problem and recommends solutions that policymakers should heed **National Union Catalog** ,1978 **Politics in the New Hard Times** Miles Kahler,David A. Lake,2013-04-02 The Great Recession and its aftershocks including the Eurozone banking and debt crisis add up to the worst global economic crisis since the Great Depression of the 1930s Although economic explanations for the Great Recession have proliferated the political causes and consequences of the crisis have received less systematic attention Politics in the New Hard Times is the first book to focus on the Great Recession as a political crisis one with both political sources and political consequences The authors examine variation in crises over time and across countries rather than treating these events as undifferentiated shocks Chapters also explore how crisis has forced the redefinition and reinforcement of interests at the level of individual attitudes and in national political coalitions Throughout the authors stress that the Great Recession is only the latest in a long history of international economic crises with significant political effects and that it is unlikely to be the last Contributors Suzanne Berger MIT J Lawrence Broz University of California San Diego Peter Cowhey University of California San Diego Peter A Gourevitch University of California San Diego Stephan Haggard University of California San Diego Peter A Hall Harvard University Miles Kahler University of California San Diego Peter J Katzenstein Cornell University Ikuo Kume Waseda University David A Lake University of California San Diego Megumi Naoi University of California San Diego Stephen C Nelson Northwestern University Pablo Pinto Columbia University James Shinn Princeton University
