Democratization John S. Dryzek, Leslie Holmes, 2002-06-13 Democracy is not just a matter of constitutions parliaments elections parties and the rule of law In order to see if or how democracy works we must attend to what people make of it and what they think they are doing as they engage with politics or as politics engages them This book examines the way democracy and democratization are thought about and lived by people in China Russia and eleven other countries in the post communist world It shows how democratic politics and sometimes authoritarian politics work in these countries and generates insights into the prospects for different kinds of political development The authors explore the implications for what is probable and possible in terms of trajectories of political reform and examine four roads to democratization liberal republican participatory and statist The book will be of interest to students and scholars of comparative politics political theory and post communist studies **Entangled Revolutions** Dragoș Petrescu, 2014 A comparative analysis of the 1989 regime changes in East Central Europe from the perspective of transnational history and comparative politics *Dark Continent* Mark Mazower, 2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe s past present and future A splendid book The New York Times Book Review *Dark Continent* provides an alternative history of the twentieth century one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take Mark Mazower strips away myths that have comforted us since World War II revealing Europe as an entity constantly engaged in a bloody project of self invention Here is a history not of inevitable victories and forward marches but of narrow squeaks and unexpected twists where townships boast a bronze of Mussolini on horseback one moment only to melt it down and recast it as a pair of noble partisans the next *Straddling the Iron Curtain?* Machteld Venken, 2011 This book neither researches structural integration nor starts from ethnically defined categories At the basis are two clearly distinguishable migration streams entering Belgium in the aftermath of World War II First there were about 350 soldiers from Poland who served with the Allies had met Flemish young women during their liberation march through Flanders married their fianc es in 1945 and 1946 and settled in their wives hometowns and villages And second there were the Ostarbeiterinnen Soviet young women of Ukrainian Russian or Belarusian decent who after the German invasion of the Soviet Union on 22 June 1941 were deported to Nazi Germany to do forced labor While at work the young women met Western European deported workers volunteers and prisoners of war Although any off duty contact between them was prohibited numerous love affairs flourished and after their liberation by the Western Allies about 4 000 Ostarbeiterinnen chose to migrate further to Belgium rather than be repatriated to the Soviet Union where they could be accused of collaboration The central question of this study is as follows are the war experiences and war memories of

these two migration streams similar because they were all displaced persons living in the same standardised refugee world

Introd *A Diplomat's Handbook for Democracy Development Support* Jeremy Kinsman, Kurt Bassuener, 2016-10-17 In recent decades the conduct of international relations among and within states has been very considerably altered Today the content of these relations relies as much on international professional and civil society networks as it does on state to state transactions The role of the Internet has been fundamental in widening communications opportunities for citizens and civil society with a profound effect on democracy transition In consequence diplomacy has taken on a much more human and public face Twenty first century ambassadors and diplomats are learning to engage with civil societies especially on the large themes of democratic change an engagement that is often resisted by authoritarian regimes *A Diplomat's Handbook for Democracy Development Support* presents a wide variety of specific experiences of diplomats on the ground identifying creative human and material resources More broadly it is about the policy making experience in capitals as democratic states try to align national interests and democratic values The Handbook also documents the increasingly prominent role of civil society as the essential building block for successful democratic transitions with each case study examining specific national experiences in the aspiration for democratic and pluralistic governance and lessons learned on all sides for better or for worse While each situation is different presenting unique unstructured problems and opportunities a review of these experiences bears out the validity of the authors belief in the interdependence of democratic engagements and provides practitioners with encouragement counsel and a greater capacity to support democracy everywhere

Soviet Internationalism after Stalin Tobias Rupprecht, 2015-08-06 The Soviet Union is often presented as a largely isolated and idiosyncratic state Soviet Internationalism after Stalin challenges this view by telling the story of Soviet and Latin American intellectuals students political figures and artists and their encounters with the other from the 1950s through the 1980s In this first multi archival study of Soviet relations with Latin America Tobias Rupprecht reveals that for people in the Second and Third Worlds the Cold War meant not only confrontation with an ideological enemy but also increased interconnectedness with distant world regions He shows that the Soviet Union looked quite different from a southern rather than a Western point of view and also charts the impact of the new internationalism on the Soviet Union itself in terms of popular perceptions of the USSR's place in the world and its political scientific intellectual and cultural reintegration into the global community

Strategies of Containment John Lewis Gaddis, 2005-06-23 When *Strategies of Containment* was first published the Soviet Union was still a superpower Ronald Reagan was president of the United States and the Berlin Wall was still standing This updated edition of Gaddis classic carries the history of containment through the end of the Cold War Beginning with Franklin D Roosevelt's postwar plans Gaddis provides a thorough critical analysis of George F Kennan's original strategy of containment NSC 68 The Eisenhower Dulles New Look the Kennedy Johnson flexible response strategy the Nixon Kissinger strategy of detente and now a comprehensive assessment of how Reagan and Gorbachev completed the

process of containment thereby bringing the Cold War to an end He concludes provocatively that Reagan more effectively than any other Cold War president drew upon the strengths of both approaches while avoiding their weaknesses A must read for anyone interested in Cold War history grand strategy and the origins of the post Cold War world *The Debate on NATO Enlargement* United States. War was greeted with great enthusiasm by people in the East and the West the ensuing social and especially economic changes did not always result in the hoped for improvements in people s lives This led to widespread disillusionment that can be observed today all across Eastern Europe Not simply a longing for security stability and prosperity this nostalgia is also a sense of loss regarding a specific form of sociability Even some of those who opposed communism express a desire to invest their new lives with renewed meaning and dignity Among the younger generation it surfaces as a tentative yet growing curiosity about the recent past In this volume scholars from multiple disciplines explore the various fascinating aspects of this nostalgic turn by analyzing the impact of generational clusters the rural urban divide gender differences and political orientation They argue persuasively that this nostalgia should not be seen as a wish to restore the past as it has otherwise been understood but instead it should be recognized as part of a more complex healing process and an attempt to come to terms both with the communist era as well as the new inequalities of the post communist era
