Germany and the Second World War Volume IX/II Jörg Echternkamp, 2014-03 Volume IX II of this series draws on a range of historical sources to explore the effect that the Second World War had on the people of Germany whether they were practically involved in the war effort or struggling to maintain a normal existence **Occupation and Insurgency** Colin D. Heaton, 2008 Occupation and Insurgency details German policies towards civilians and captured military forces in the Soviet Union from 1941 1945 and examines them in the context of the laws of war The results of these policies illustrate how an occupying force can establish a sense of legitimacy or spur a stronger resistance among the local citizens While focused upon World War II the book is very relevant to today's war on terror and the handling of current counterinsurgency scenarios Evaluating certain actions by the Germans in the USSR from the standpoint of The Geneva and The Hague Conventions the book also studies many actions that while morally egregious did not qualify as war crimes under the law Some of the events analyzed prompted the 1949 revision of The Geneva Convention The German actions as well as the Soviet responses lend themselves to discussion as related to international law and military actions There is no other book that uses chronicled

events to address both the international legal conventions and analyzes these events in both a legal and historical paradigm. The book is closely documented including 20 photographs and numerous interview segments with SS officers, resistance fighters and other primary persons involved in the war and it provides as well the perspectives of other historians regarding the critical issues discussed. Occupation and Insurgency is a book that will appeal to all levels of academia as well as the general public with regard to general history World War II and legal studies. It complements and goes beyond works such as Christopher Browning's *Ordinary Men*, Omer Bartov's *Hitler's Army: Soldiers, Nazis and War in the Third Reich*, Arad, Kurowski and Spector eds *The Einsatzgruppen Reports* and Richard Rhodes *Masters of Death*. **Paramilitarism and European Society in the 1940s**

Gareth Pritchard, Vesna Drapac, 2025-01-29. This book explores the social roots, character and consequences of paramilitary violence in Europe in the 1940s. Paramilitarism had an impact on the lives of millions of Europeans yet knowledge about this important topic is partial and fragmented. The general perception of European paramilitary violence in the 1940s derives almost entirely from the resistance/collaboration paradigm. This dichotomous analytical framework makes a clear distinction between politically motivated violence and social violence such as sexual criminal and structural violence. By contrast in this book Gareth Pritchard and Vesna Drapac recognise the mutual dependence of all kinds of violence. Their interpretative model, the Regimes of Violence paradigm, which takes account of the changing relationship between state, society and organised violence, allows us to observe paramilitarism in the round. The Regimes of Violence framework reveals the interconnectedness of paramilitarism with other forms of violence during this period of unprecedented brutality. Today paramilitary violence is a global phenomenon. It has resulted in the undermining of the rule of law and the erosion of civil society in many different countries on different continents while at the same time traumatising the countless numbers of innocent people who are caught in its crossfire. With their compelling and timely study Pritchard and Drapac provide an historical context and present a novel approach for understanding why paramilitarism shows no sign of abating.

The War Behind the Eastern Front Alexander Hill, 2005. A study based on Soviet and German archival sources of Soviet partisan activities in the rear of the German Army Group North 1941-44. [Political Violence in Twentieth-Century Europe](#) Donald Bloxham, Robert Gerwarth, 2011-03-10. This is a comprehensive history of political violence during Europe's incredibly violent twentieth century. Leading scholars examine the causes and dynamics of war, revolution, counterrevolution, genocide, ethnic cleansing, terrorism and state repression. They locate these manifestations of political violence within their full transnational and comparative contexts and within broader trends in European history from the beginning of the dissolution of the Ottoman Empire in the late nineteenth century through the two world wars to the Yugoslav Wars and the rise of fundamentalist terrorism. The book spans a greater Europe stretching from Ireland and Iberia to the Baltic, the Caucasus, Turkey and the southern shores of the Mediterranean. It sheds new light on the extent to which political violence in twentieth century Europe was inseparable from the generation of new forms of state power and their

projection into other societies be they distant territories of imperial conquest or ones much closer to home **Stalin and Europe** Timothy Snyder, Ray Brandon, 2014 A volume of original essays that reassesses the Soviet Union's impact on Europe before during and after World War II *War in an Age of Revolution, 1775-1815* Roger Chickering, Stig Förster, 2010-02-08 The essays in this volume examine the historical place of revolutionary warfare on both sides of the Atlantic focusing on the degree to which they extended practices common in the eighteenth century or introduced fundamentally new forms of warfare **Prologue**, 1995 **Grundfragen einer philosophischen Theorie des Krieges** Ulrike Kleemeier, 2015-03-10 Aus philosophischer Perspektive diskutiert Ulrike Kleemeiers Studie einer Reihe auch aktuelle wieder sehr brisanter Probleme Analysiert werden der Begriff des Krieges ebenso wie die Ursachen von Kriegen und die Kriegspraxis Dabei untersucht die Autorin auch den Zusammenhang von Krieg und Gerechtigkeit bzw Krieg und Recht das Verhältnis von Krieg und Politik das Problem des Bürgerkriegs sowie die Bedeutung kriegerisch militärischer Tugenden und Kompetenzen Die Auseinandersetzung erfolgt in exemplarischer Form anhand der Theorien von Platon Hobbes und Clausewitz Der Arbeit liegt die Annahme zugrunde dass eine Theorie des Krieges sinnvoll nur in einem interdisziplinären Bezugsrahmen entwickelt werden kann Deshalb wendet sich dieses Buch an Fachphilosophen genauso wie an alle anderen am Thema Krieg interessierten Forscher etwas an Historiker Politologen und Sozialwissenschaftler **Germany and the Second World War** Horst Boog, Werner Rahn, Reinhard Stumpf, Bernd Wegner, 2001-09-13 Annotation Unparalleled in scope and depth Germany and the Second World War is a magisterial ten volume history series that will prove indispensable to historians of the twentieth century This volume examines the transformation of a European war into a global conflict during the period from 1941-1943 It focuses on the politics strategy and operations of the belligerent powers as Germany lost the initiative to the Allies and it spans both the climax and turning points of the war Its detailed analysis is supplemented by numerous maps diagrams and tables **International Handbook of Violence Research** Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of

the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

In the Shadow of Violence Klaus Schlichte, 2009-04-14 Sp testens seit den Anschlägen vom 11. September sind nicht staatliche Kriegakteure in den Mittelpunkt des wissenschaftlichen und au enpolitischen Interesses gerückt. Doch wie lassen sich ihr Handeln, ihre Strategien und ihre Organisation begreifen? Klaus Schlichte betont den politischen Charakter bewaffneter Gruppen für den Zusammenhang von Gewalt und Legitimität zentral ist. Damit setzt er sich von jenen Arbeiten ab, die ökonomische Interessen oder religiösen Fundamentalismus zur Erklärung heranziehen. Sein Vergleich von 15 Ländern zeigt, dass nicht staatliche Gruppen immer in engen Beziehungen zu Staaten stehen und das Ziel haben, ihre Macht der Gewalt in politische Herrschaft zu transformieren.

Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-04-22 Human Rights in the Shadow of Colonial Violence explores the relationship between the human rights movement emerging after 1945 and the increasing violence of decolonization. Based on material previously inaccessible in the archives of the International Committee of the Red Cross and the United Nations Human Rights Commission, this comparative study uses the Mau Mau War 1952-1956 and the Algerian War 1954-1962 to examine the policies of two major imperial powers, Britain and France. Historian Fabian Klose considers the significance of declared states of emergency, counterinsurgency strategy, and the significance of humanitarian international law in both conflicts. Klose's findings from these previously confidential archives reveal the escalating violence and oppressive tactics used by the British and French military during these anticolonial conflicts in North and East Africa, where Western powers that promoted human rights in other areas of the world were opposed to the growing global acceptance of freedom, equality, self-determination, and other postwar ideals. Practices such as collective punishment, torture, and extrajudicial killings did lasting damage to international human rights efforts until the end of decolonization. Clearly argued and meticulously researched, *Human Rights in the Shadow of Colonial Violence* demonstrates the mutually impacting histories of international human rights and decolonization, expanding our understanding of political violence in human rights discourse.

Sowjetische Partisanen in Weißrußland Bogdan Musial, 2010-10-01 Vom NS-Regime als Vorwand für Massenverbrechen genutzt in der Sowjetunion mythisch beherrscht und in der jüngsten Debatte über die Wehrmacht höchst umstritten, bis heute ist die sowjetische Partisanenbewegung als konkrete historische Erscheinung schwer greifbar. Anhand von Quellen aus weißrussischen Beständen ermöglicht Bogdan Musial in der vorliegenden Dokumentation nun Innenansichten des Alltags der Freischützer. Die Beschränkung auf das Gebiet Baranowici, das bis 1939 als Wojewodschaft Nowogrodek zu Polen gehörte, erlaubt dabei nicht nur den Nahblick auf die Praxis vor Ort, sondern eröffnet auch eine Perspektive auf spezifische Konfliktlinien des Krieges im Osten, die sich hier in besonderer Weise verdichteten. Neben der Entstehung, Organisation und Kampftätigkeit der Partisanenbewegung werden deren Verhältnis zur Zivilbevölkerung, die spezifische Rolle jüdischer Partisanen und schließlich der Konflikt mit der polnischen Heimatarmee
