Culturally Engaging Service-Learning With Diverse Communities Delano-Oriaran, Omobolade O., Penick-Parks, Marguerite W., Fondrie, Suzanne, 2017-09-13 Evaluating the experiences of racially marginalized and underrepresented groups is vital to creating equality in society. Such actions have the potential to provoke an interest in universities to adopt high impact pedagogical practices that attempt to eliminate institutional injustices. Culturally Engaging Service Learning With Diverse Communities is a pivotal reference source for the latest scholarly research on service learning models that recognize how systemic social injustices continue to pervade society. Featuring extensive coverage on a broad range of topics and perspectives such as cultural humility, oral histories, and social ecology, this book is ideally designed for scholars, practitioners, and students interested in engaging in thoughtful and authentic partnerships with diverse groups.

Compound Words in Spanish María Irene Moyna, 2011-07-12 This is the first book devoted entirely to the history of compound words in Spanish. Based on data obtained from Spanish dictionaries and databases of the past thousand years, it documents the evolution of the major compounding patterns of the language. It analyzes the structural, semantic, and orthographic features of each compound type and also provides a description of its Latin antecedents, early attestations, and relative frequency and productivity over the centuries. The combination of qualitative and quantitative data shows that although most compound types have survived, they have undergone changes in word order and relative frequency. Moreover, the book shows that the evolution of compounding in Spanish may be accounted for by processes of language acquisition in children. This book, which includes all the data in chronological and alphabetical order, will be a valuable resource for morphologists, Romance linguists, and historical linguists more generally.
