*The Development Dictionary* Wolfgang Sachs, 2019-09-15 The original critical guide to key concepts in development studies from some of the world's most eminent critical development scholars and practitioners Each essay in this now classic collection examines one key development concept from the environment to needs and progress to production Each concept is reviewed from a historical and anthropological point of view with particular bias and intellectual flaws being highlighted Overall the authors argue that we must bid farewell to the whole idea of Eurocentric development in order to liberate people's minds in both North and South and to mobilize for bold responses to the environmental and ethical challenges now confronting humanity The result is an indispensable resource for scholars practitioners movements and students of development which invites us to recognize the tinted glasses we put on whenever we participate in the development discourse

Legal Plunder Daniel Lord Smail, 2016-06-06 As a Europe grew rich in the Middle Ages the well made clothes linens and wares of households often substituted for hard currency Pawnbrokers kept goods in circulation and sergeants of the law marched into debtors homes to seize belongings equal in value to debts owed David Smail describes a material world on the cusp of modern capitalism

**Shaping the Future** Horst Hutter, 2006-01-01 Shaping the Future maps out the ascetic practices of a Nietzschean way of life Hutter argues that Nietzsche's doctrines are attempts and temptations that aim to provoke his free spirited readers into changing themselves by putting philosophy into practice in their lives

**Advertising on Trial** Inger L. Stole, 2010-10-01 In the 1930s the United States almost regulated advertising to a degree that seems unthinkable today Activists viewed modern advertising as propaganda that undermined the ability of consumers to live in a healthy civic environment Organized consumer movements fought the emerging ad business and its practices with fierce political opposition Inger L Stole examines how consumer activists sought to limit corporate influence by rallying popular support to moderate and change advertising Stole weaves the story through the extensive use of primary sources including archival research done with consumer and trade group records as well as trade journals and engagement with the existing literature Her account of the struggle also demonstrates how public relations developed in order to justify laissez faire corporate advertising in light of a growing consumer rights movement and how the failure to rein in advertising was significant not just for civic life in the 1930s but for our era as well

*The Rebirth of the West* Peter Duignan, Lewis H. Gann, 1996 The years following World War II witnessed perhaps the greatest success story in Western history the economic and political recovery of European democracies that had been devastated by the cataclysmic war Peter Duignan and L H Gann convincingly demonstrate that the deep involvement of the United States was a key factor in this success The Rebirth of the West is a broad narrative analysis of every important aspect of Western society during this formative period political economic social cultural and scientific In addition to providing an interpretive synthesis of the vast literature on the subject the authors make an important and original contribution to both the historical record of this period and current debates over

the future of Europe     The Defeat of a Renaissance Intellectual Francesco Guicciardini, 2019-05-17 A papal advisor and sixteenth century power broker Francesco Guicciardini wrote voluminously throughout his time in service to the Medici The texts in this volume chart his career chronologically revealing an intellectual whose philosophy of self interest failed not only to perceive the interests of others but ultimately to serve his own During Guicciardini s life Florentine politics was dominated by the struggle of republican leaders to retain civic political autonomy against the ambitions of the Medici family Like Machiavelli and Petrarch and arguably even Dante Guicciardini was what Carlo Celli calls an establishment intellectual one whose talents furthered the hegemony of authoritarian rule against the interests of his own class The letters treatises reports and orations included in this volume span Guicciardini s long career from his first appointment as ambassador to the Spanish court to just a few years before his forced retirement from political life They reveal Guicciardini s role as a protagonist in the events related in his famous History of Italy 1540 shed light on the self recriminations and remorse that sometimes gnawed at his conscience and explain why ultimately Guicciardini fell from political grace into irrelevance Through these previously untranslated writings The Defeat of a Renaissance Intellectual evidences the hard lessons Guicciardini learned in service to the Medici working within a corrupt system does not lead to solutions and reason and self interest are not foolproof guides for predicting human behavior This book will appeal especially to scholars who study the Medici clan the Italian Wars and Renaissance politics and history     *Women and English Piracy, 1540-1720* John C. Appleby, 2013 Drawing on a wide body of evidence the book argues that the support of women was vital to the persistence of piracy around the British Isles at least until the early seventeenth century The emergence of long distance and globalized predation had far reaching consequences for female agency Piracy was one of the most gendered criminal activities during the early modern period As a form of maritime enterprise and organized criminality it attracted thousands of male recruits whose venturing acquired a global dimension as piratical activity spread across the oceans and seas of the world At the same time piracy affected the lives of women in varied ways Adopting a fresh approach to the subject this study explores the relationships and contacts between women and pirates during a prolonged period of intense and shifting enterprise Drawing on a wide body of evidence and based on English and Anglo American patterns of activity it argues that the support of female receivers and maintainers was vital to the persistence of piracy around the British Isles at least until the early seventeenth century The emergence of long distance and globalized predation had far reaching consequences for female agency Within colonial America women continued to play a role in networks of support for mixed groups of pirates and sea rovers at the same time such groups of predators established contacts with women of varied backgrounds in the Caribbean and the Indian Ocean As such female agency formed part of the economic and social infrastructure which supported maritime enterprise of contested legality But it co existed with the victimisation of women by pirates including the Barbary corsairs As this study demonstrates the interplay between agency and victimhood was manifest in a campaign of petitioning which challenged male perceptions of

women's status as victims Against this background the book also examines the role of a small number of women pirates including the lives of Mary Read and Ann Bonny while addressing the broader issue of limited female recruitment into piracy
