Padgett, Walter W. Powell, 2012-10-14 The social sciences have sophisticated models of choice and equilibrium but little understanding of the emergence of novelty Where do new alternatives new organizational forms and new types of people come from Combining biochemical insights about the origin of life with innovative and historically oriented social network analyses John Padgett and Walter Powell develop a theory about the emergence of organizational market and biographical novelty from the coevolution of multiple social networks In the short run they argue actors make relations but in the long run they argue actors make actors Organizational novelty arises from spillover across intertwined networks which tips reproducing biographical and production flows This theory is developed through formal deductive modeling and through a wide range of careful and original historical case studies ranging from early capitalism and state formation to the transformation of communism to the emergence of contemporary biotechnology and Silicon Valley from back cover      ,      12 Ignored Truths When Picking a Life Partner B.A. Crisostomo, 2023-05-02 Why Rush Into Marriage If love and attraction are all you need for a happy and long lasting marriage why do so many great relationships end in a breakup Why is cohabitation becoming more common while marriages are becoming less common In the past our ancestors usually didn't get married because they loved each other Instead they did it to join families and raise children together Their marriages were usually set up by their parents and they would start with a betrothal They lacked the same benefits rights

and systems that modern spouses in many countries enjoy Can we say that the relationships between modern couples are better than those of our ancestors given that mutual love is the main reason people get married today This book talks about the truths most would be couples ignore before they decide on their own to get married Once their marriage becomes miserable they start to realize that they made mistakes in their choice of partner
