## **Parallel Time Growing Up In Black And White:**

*Parallel Time* Brent Staples, 2017-09-27 From Pulitzer Prize winner Brent Staples an evocative memoir that poses universal questions Where does the family end and the self begin What do we owe our families and what do we owe our dreams for ourselves What part of the past is a gift and what part a shackle For Brent Staples there is the added dimension of race moving from a black world into one largely defined by whites The oldest son among nine children Brent grew up in a small industrial town near Philadelphia First a scholarship to a local college and then one for graduate study at the University of Chicago pulled him out of the close family circle While he was away the industries that supported the town failed and drug dealing rushed in to fill the economic void News of arrests and premature deaths among Brent's childhood friends underscored the precariousness of his perch in a world of mostly white achievers A younger brother became a cocaine dealer and was murdered by one of his clients His death propelled Brent into a reconsideration of his childhood and coming of age that offers vivid portraits of family and place of values that supported and pressures that tore apart of the appeal and pain of entering a predominantly white world and of the strengths and vulnerabilities of the black world he grew away from

**Parallel Play** Tim Page, 2009-09-08 An affecting memoir of life as a boy who didn't know he had Asperger's syndrome until he became a man In 1997 Tim Page won the Pulitzer Prize for Criticism for his work as the chief classical music critic of The Washington Post work that the Pulitzer board called lucid and illuminating Three years later at the age of 45 he was diagnosed with Asperger's syndrome an autistic disorder characterized by often superior intellectual abilities but also by obsessive behavior ineffective communication and social awkwardness In a personal chronicle that is by turns hilarious and heartbreaking Page revisits his early days through the prism of newfound clarity Here is the tale of a boy who could blithely recite the names and dates of all the United States presidents and their wives in order backward upon request yet lacked the coordination to participate in the simplest childhood games It is the story of a child who memorized vast portions of the World Book Encyclopedia simply by skimming through its volumes but was unable to pass elementary school math and science And it is the triumphant account of a disadvantaged boy who grew into a high functioning highly successful adult perhaps not despite his Asperger's but because of it as Page believes For in the end it was his all consuming love of music that emerged as something around which to construct a life and a prodigious career In graceful prose Page recounts the eccentric behavior that withstood glucose tolerance tests anti seizure medications and sessions with the school psychiatrist but which above all eluded his own understanding A poignant portrait of a lifelong search for answers *Parallel Play* provides a unique perspective on Asperger's and the well of creativity that can spring forth as a result of the condition

**Extraordinary, Ordinary People** Condoleezza Rice, 2011-10-11 This is the story of Condoleezza Rice that has never been told not that of an ultra accomplished world leader but of a little girl and a young woman trying to find her place in a sometimes hostile world of two exceptional parents and an extended family and community that made all the difference Condoleezza Rice has excelled as a diplomat political scientist and concert pianist Her achievements run the gamut from helping to oversee the collapse of communism in Europe and the decline of the Soviet Union to working to protect the country in the aftermath of 9 11 to becoming only the second woman and the first black woman ever to serve as Secretary of State But until she was 25 she never learned to swim because when she was a little girl in Birmingham Alabama Commissioner of Public Safety Bull Connor decided he d rather shut down the city s pools than give black citizens access Throughout the 1950 s Birmingham s black middle class largely succeeded in insulating their children from the most corrosive effects of racism providing multiple support systems to ensure the next generation would live better than the last But by 1963 Birmingham had become an environment where blacks were expected to keep their head down and do what they were told or face violent consequences That spring two bombs exploded in Rice s neighborhood amid a series of chilling Klu Klux Klan attacks Months later four young girls lost their lives in a particularly vicious bombing So how was Rice able to achieve what she ultimately did Her father John a minister and educator instilled a love of sports and politics Her mother a teacher developed Condoleezza s passion for piano and exposed her to the fine arts From both Rice learned the value of faith in the face of hardship and the importance of giving back to the community Her parents fierce unwillingness to set limits propelled her to the venerable halls of Stanford University where she quickly rose through the ranks to become the university s second in command An expert in Soviet and Eastern European Affairs she played a leading role in U S policy as

the Iron Curtain fell and the Soviet Union disintegrated Less than a decade later at the apex of the hotly contested 2000 presidential election she received the exciting news just shortly before her father s death that she would go on to the White House as the first female National Security Advisor As comfortable describing lighthearted family moments as she is recalling the poignancy of her mother s cancer battle and the heady challenge of going toe to toe with Soviet leaders Rice holds nothing back in this remarkably candid telling

Steele, 2012-09-11 An important and powerful book that radically reframes the debates swirling around the academic achievement of African American students Boston Review The solutions offered by each essay are creative inspirational and good old common sense Los Angeles Times In 3 separate but allied essays African American scholars Theresa Perry Claude Steele and Asa Hilliard examine the alleged achievement gap between Black and white students Each author addresses how the unique social and cultural position Black students occupy in a society which often devalues and stereotypes African American identity fundamentally shapes students experience of school and sets up unique obstacles **Young Gifted and Black** provides an understanding of how these forces work opening the door to practical powerful methods for promoting high achievement at all levels In the first piece Theresa Perry argues that the dilemmas African American students face are rooted in the experience of race and ethnicity in America making the task of achievement distinctive and difficult Claude Steele follows up with stunningly clear empirical psychological evidence that when Black students believe they are being judged as members of a stereotyped group rather than as individuals they do worse on tests Finally Asa Hilliard argues against a

variety of false theories and misguided views of African American achievement sharing examples of real schools programs and teachers around the country that allow African American students to achieve at high levels Now more than ever Young Gifted and Black is an eye opening work that has the power to not only change how we talk and think about African American student achievement but how we view the African American experience as a whole Black Nonfiction Books, Their Authors, and Their Publishers Harry B.
