Subject Guide to Books in Print ,1997      **Parallelism in Production Systems** Anoop Gupta,1987      *Parallel Programming and Applications* Peter Fritzson,Leif Finmo,1995 ZEUS Centres of European Supercomputing is a network for information exchange and co operation between European Supercomputer Centres During the fall of 1994 the idea was put forward to start an annual workshop to stimulate the exchange of ideas and experience in parallel programming and computing between researchers and users from industry and academia The first workshop in this series the ZEUS 95 Workshop on Parallel Programming and Computation is organized at Linkoping University where the Swedish ZEUS centre NSC National Supercomputer Centre is located This is open for all researchers and users in the field of parallel computing

**Forthcoming Books** Rose Arny,1997      **Bibliographic Guide to Computer Science** ,1990      Scientific and Technical Aerospace Reports ,1994      **Artificial Intelligence Abstracts** ,1989      Proceedings AAAI-87 Sixth National Conference on Artificial Intelligence, July 13-17, 1987 American Association for Artificial Intelligence,1987      XIV. *Symposium on Operations Research* Ulrich Rieder,1990      Advances in Petri Nets 1991 Helmut Plünnecke,Wolfgang Reisig,1991 The main idea behind the series of volumes *Advances in Petri Nets* is to present to the general computer science community recent results which are the most representative and significant for the development of the area The papers for the volumes are drawn mainly from the annual International Conferences on Applications and Theory of Petri Nets Selected papers from the latest conference are independently refereed and revised and extended as necessary Some further papers submitted directly to the editor are included *Advances in Petri Nets 1991* covers the 11th International Conference on Applications and Theory of Petri Nets held in Paris France in June 1991 The volume contains the Bibliography of Petri Nets 1990 prepared by H Plünnecke and W Reisig with over 4000 entries PUBLISHER S WEBSITE      New Technical Books New York Public Library,1991      AAAI-92 ,1992 AAAI proceedings describe innovative concepts techniques perspectives and observations that present promising research directions in artificial intelligence The focus of the AAAI 92 conference is on the re integration of AI as a diverse but coherent whole Accordingly the traditional list of community based content areas has been replaced by a more neutral set of taxonomies that span the field For example a paper proposing a new epistemology for representing the physical world based on an analysis of human brain structure would be described as representation physical world biological The papers collected here represent significant research contributions to such areas as the principles underlying cognition perception and action in man and machine the design application and evaluation of AI algorithms and systems and the analysis of domains in which AI systems perform      *Computing Information Directory* Darlene Myers Hildebrandt,1992      Resources in Education ,1987      **Artificial Intelligence** George F. Luger,2011-11-21 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book *Artificial Intelligence Structures and Strategies for Complex Problem Solving* is ideal for a one

or two semester undergraduate course on AI In this accessible comprehensive text George Luger captures the essence of artificial intelligence solving the complex problems that arise wherever computer technology is applied Ideal for an undergraduate course in AI the Sixth Edition presents the fundamental concepts of the discipline first then goes into detail with the practical information necessary to implement the algorithms and strategies discussed Readers learn how to use a number of different software tools and techniques to address the many challenges faced by today s computer scientists

NASA SP-7500 United States. National Aeronautics and Space Administration,1982      **Current Research in Library & Information Science** ,1987      TREAT Daniel P. Miranker,2014-07-10 TREAT A New and Efficient Match Algorithm for AI Production Systems describes the architecture and software systems embodying the DADO machine a parallel tree structured computer designed to provide significant performance improvements over serial computers of comparable hardware complexity in the execution of large expert systems implemented in production system form This book focuses on TREAT as a match algorithm for executing production systems that is presented and comparatively analyzed with the RETE match algorithm TREAT originally designed specifically for the DADO machine architecture handles efficiently both temporally redundant and non temporally redundant production system programs This publication is suitable for developers and specialists interested in match algorithms for AI production systems      **Automated Machine Learning** Frank Hutter,Lars Kotthoff,Joaquin Vanschoren,2019-05-17 This open access book presents the first comprehensive overview of general methods in Automated Machine Learning AutoML collects descriptions of existing systems based on these methods and discusses the first series of international challenges of AutoML systems The recent success of commercial ML applications and the rapid growth of the field has created a high demand for off the shelf ML methods that can be used easily and without expert knowledge However many of the recent machine learning successes crucially rely on human experts who manually select appropriate ML architectures deep learning architectures or more traditional ML workflows and their hyperparameters To overcome this problem the field of AutoML targets a progressive automation of machine learning based on principles from optimization and machine learning itself This book serves as a point of entry into this quickly developing field for researchers and advanced students alike as well as providing a reference for practitioners aiming to use AutoML in their work      **The National Artificial Intelligence Research and Development Strategic Plan** National Science and Technology Council,2016-10-27 Artificial intelligence AI is a transformative technology that holds promise for tremendous societal and economic benefit AI has the potential to revolutionize how we live work learn discover and communicate AI research can further our national priorities including increased economic prosperity improved educational opportunities and quality of life and enhanced national and homeland security Because of these potential benefits the U S government has invested in AI research for many years Yet as with any significant technology in which the Federal government has interest there are not only tremendous opportunities but also a number of considerations that must be taken into account in guiding

the overall direction of Federally funded R D in AI On May 3 2016 the Administration announced the formation of a new NSTC Subcommittee on Machine Learning and Artificial intelligence to help coordinate Federal activity in AI 1 This Subcommittee on June 15 2016 directed the Subcommittee on Networking and Information Technology Research and Development NITRD to create a National Artificial Intelligence Research and Development Strategic Plan A NITRD Task Force on Artificial Intelligence was then formed to define the Federal strategic priorities for AI R D with particular attention on areas that industry is unlikely to address This National Artificial Intelligence R D Strategic Plan establishes a set of objectives for Federally funded AI research both research occurring within the government as well as Federally funded research occurring outside of government such as in academia The ultimate goal of this research is to produce new AI knowledge and technologies that provide a range of positive benefits to society while minimizing the negative impacts
