## **Parallels The Soldiers Knowledge And The Oral History Of Contemporary Warfare:**

**Parallels** John T. Hansen, A. Susan Owen, Michael Patrick Madden, The experience of American and Soviet participants in Vietnam and Afghanistan respectively is constructed directly from the narratives and the recollection of surviving veterans In their very intensity and authenticity these voices pose a challenge to conventional understandings of contemporary warfare Annotation copyrighted by Book News Inc Portland OR *Parallels* J. T. Hansen, 1992-01-01 **Parallels** J. T.

Hansen, 1992-01-01 *The Micropolitics of Knowledge* Emmanuel Lazega, 2024-11-01 For many years Emmanuel Lazega has explored communication behavior and decision making processes of small workgroups within larger organizations To account for the knowledge claims of members of those groups and for the ways in which such claims are legitimated collectively and translated into action he presents a theory of the interactive elaboration of information on which decisions are based

*Asymmetric Killing* Neil C. Renic, 2020-04-30 This book offers an engaging and historically informed account of the moral challenge of radically asymmetric violence warfare conducted by one party in the near complete absence of physical risk across the full scope of a conflict zone What role does physical risk and material threat play in the justifications for killing in war And crucially is there a point at which battlefield violence becomes so one directional as to undermine the moral basis for its use In order to answers these questions *Asymmetric Killing* delves into the morally contested terrain of the warrior ethos and Just War Tradition locating the historical and contemporary role of reciprocal risk within both This book also engages two historical episodes of battlefield asymmetry military sniping and manned aerial bombing Both modes of violence generated an imbalance of risk between opponents so profound as to call into question their permissibility These now resolved controversies will then be contrasted with the UAV exclusive violence of the United States robotic killing conducted in the absence of a significant military ground presence in conflict theatres such as Pakistan Yemen and Somalia As will be revealed the radical asymmetry of this latter case is distinct undermining reciprocal risk at the structural level of war Beyond its more resolvable tension with the warrior ethos UAV exclusive violence represents a fundamental challenge to the very coherence of the moral justifications for killing in war **Encyclopedia of Conflicts Since World War II** James

Ciment, 2015-03-27 Thoroughly revised to include 25 conflicts not covered in the previous edition as well as expanded and updated information on previous coverage this illustrated reference presents descriptions and analyses of more than 170 significant post World War II conflicts around the globe Organized by region for ease of access *Encyclopedia of Conflicts Since World War II* Second Edition provides clear in depth explanations of events not covered in such detail in any other reference source Including more than 180 detailed maps and 150 photos the set highlights the conflicts that dominate today s headlines and the events that changed the course of late twentieth century history **A Baltic Odyssey** Martha Von Rosen, Jürgen Von Rosen, 1995 Presents two narratives chronicling the end of WWII a prisoner of war diary and an account of fleeing from the Russians by a German husband and wife separated from each other Also includes a brief account of the

family's life after the war in Canada and an editorial afterword plus bandw photos Annotation copyright by Book News Inc Portland OR

**Marching Home: Union Veterans and Their Unending Civil War** Brian Matthew Jordan, 2015-01-26 Finalist for the Pulitzer Prize in History Winner of the Gov John Andrew Award Union Club of Boston An acclaimed groundbreaking and powerful exploration Washington Post of the fate of Union veterans who won the war but couldn't bear the peace For well over a century traditional Civil War histories have concluded in 1865 with a bitterly won peace and Union soldiers returning triumphantly home In a landmark work that challenges sterilized portraits accepted for generations Civil War historian Brian Matthew Jordan creates an entirely new narrative These veterans tending rotting wounds battling alcoholism campaigning for paltry pensions tragically realized that they stood as unwelcome reminders to a new America eager to heal forget and embrace the freewheeling bounty of the Gilded Age Mining previously untapped archives Jordan uncovers anguished letters and diaries essays by amputees and gruesome medical reports all deeply revealing of the American psyche In the model of twenty first century histories like Drew Gilpin Faust's *This Republic of Suffering* or Maya Jasanoff's *Liberty's Exiles* that illuminate the plight of the common man *Marching Home* makes almost unbearably personal the rage and regret of Union veterans Their untold stories are critically relevant today

**Remembering Mass Violence** Steven High, Edward Little, Thi Ry Duong, 2014-02-05 *Remembering Mass Violence* breaks new ground in oral history new media and performance studies by exploring what is at stake when we attempt to represent war genocide and other violations of human rights in a variety of creative works A model of community university collaboration it includes contributions from scholars in a wide range of disciplines survivors of mass violence and performers and artists who have created works based on these events This anthology is global in focus with essays on Africa Asia Europe Latin America and North America At its core is a productive tension between public and private memory a dialogue between

autobiography and biography and between individual experience and societal transformation Remembering Mass Violence will appeal to oral historians digital practitioners and performance based artists around the world as well researchers and activists involved in human rights research migration studies and genocide studies      **Narrative and Social Control**

Dennis K. Mumby,1993-08-24 Readers will find Dennis K Mumby s collection most useful for the connections it establishes between narrative analysis in social setting and postmodern light What is important about this book is the range of projects presented using narrative to examine issues of power and control Discourse and Society What is the relationship between narrative society and the forms of control that function in society This critical analysis examines the role of narrative in the creation of various social realities in a variety of communication contexts The central theme of Narrative and Social Control is that narrative is a pervasive form of human communication that is integral to the production and shaping of social order Each chapter provides both a theoretical framework and an examination of narratives in a range of communication contexts interpersonal small group organizational and mass mediated illustrating the far reaching impact of narrative on our lives and social organizations This critical perspective is essential reading for scholars students and professionals in communication studies organization studies family studies cultural studies sociology political science peace studies anthropology philosophy and gender studies      Ptsd 2008 Randy J. Hartman,2008-11 This body of research provides a snapshot look at PTSD issues and addresses the question Is the Veterans Administration medical facilities prepared for the upcoming mass influx of our vets suffering with PTSD      *Durkheim and Postmodern Culture* Stjepan Mestrovic,2017-09-29 The present work is an elaboration of the author s previous efforts in Emile Durkheim and the Reformation of Sociology 1988 and The Coming Fin de Sicle 1991 to demonstrate Durkheim s neglected relevance to the postmodern discourse The aims include finding affinities between our fin de sicle and Durkheim s fin de sicle and connecting the contemporary themes of rebellion against Enlightenment narratives found in postmodern culture with similar concerns found in Durkheim s sociology as well as in his fin de sicle culture contributing to Durkheimian scholarship as well as to the postmodern discourse The distinctive aspects of the present study flow from the focus on culture communication and the feminine voice in culture Durkheim is approached as a fin de sicle student of culture and his insights applied to our fin de sicle culture Furthermore because Durkheim claimed that culture is comprised primarily of collective representations he was a forerunner of the current postmodern concerns with communication Because Durkheim shall be read in the context of his fin de sicle this book shall lead to the conclusion that Durkheim was a kind of psychoanalyst such that society is the patient culture comprises the symptoms and the sociologist must decipher decode and even deconstruct collective representations Yet the Durkheimian deconstruction proposed here is unlike the postmodern deconstructions which criticize and tear apart a text without substituting a better meaning or interpretation Postmodern discourse has made respectable again the synthesis of multidisciplinary insights that was fashionable in Durkheim s fin de sicle In following this postmodern strategy this book is more than a book about

Durkheim It is also a book about his contemporaries among them Carl Justav Jung Thorstein Veblen Henry Adams Georg Simmel and Max Weber The author does not follow the postmodern strategy completely because he f *Continual Permutations of Action* Anselm L. Strauss, Although it has not been his intention to promulgate theory for its own sake Anselm Strauss has proven himself a formidable theorist What has prompted this new treatise on human action or as Strauss would prefer acting was a dissatisfaction with the accounts of social phenomena in the received mainline sociological literature Derived from the survey and functionalist traditions such accounts have simplified complexities drastically and mostly left implicit the underlying action assumptions of their research Rejecting Parsons and Lazarsfeld as models Strauss traces the perspective on human action presented in *Continual Permutations of Action* to a very different tradition that of the Pragmatists Strauss s account begins with the concept of trajectory referring to a course of action but also embracing the interaction of multiple actors and contingencies Certain Straussian terms and motifs come rapidly into play in the earlier sections where he maps out his account conditional matrix temporality and the like The later sections are given over to major topics including work and its relations with other forms of action the body thought processes symbolizing social worlds and arenas representation the interplay of routine and creative action and the relevance of the concept of social worlds to understanding the interplay of several levels of social order in contemporary society Extending the limits of interactionist theory Strauss has raised questions about interpreting social phenomena that will be debated for some time to come

*Ecology of Communication* David L. Altheide, 2020-03-11 Altheide s new book advances the argument set in motion some years ago with *Media Logic* and continued in *Media Worlds in the Postjournalism Era* that in our age information technology and the communication environments it posits have affected the private and the social spheres of all our power relationships redefining the ground rules for social life and concepts such as freedom and justice Articulated through an interactionist and non deterministic focus *An Ecology of Communication* offers a distinctive perspective for understanding the impact of information technology communication formats and social activities in the new electronic environment **Discreet**

**Indiscretions** J rg R. Bergmann, Although discourse theory tends to draw upon lofty examples *Discreet Indiscretions* draws instead on one many consider inconsequential Bergmann treats daily gossip both friendly and malicious as the genre of everyday communication and thereby in need of serious analysis Utilizing discourse theory and ethnomethodology this study shifts among several kinds of terrain the sociology of language the sociology of knowledge and the sociology of culture It rests on widespread individual observations on gossip in the existing literature of social science and on the investigation of real gossip recorded in conversations in the field and reproduced here as transcribed segments By exploring the complex relations of friendship and loyalty with respect to transmitting knowledge about the personal affairs of others he develops his thesis that gossip should be defined not as a control mechanism but rather as the social organization of discreet indiscretions

*Writing the Social Text* Richard Brown, 2017-07-05 During the past decade it has become commonplace to interpret social

and cultural reality the very groundwork of the social sciences as linguistic constructions Not only is society viewed as a text but scientific texts themselves are seen as rhetorical constructions This collection of scholarly essays begins with an overview of this emerging field and covers the specific stylistic practices by which social scientists create objective or true representations of society The volume closes with a consideration of the more telling challenges to the rhetorics of the social sciences and how these might be encompassed or overcome
