American Apocalyptic Juli L. Gittinger,2024-07-18 In this book Juli Gittinger argues that America s fascination obsession with the apocalypse is a synthesis of religion popular culture and politics in a way that is particular to the US and consonant with mythological historical narratives of America As a result we can identify American apocalypticism as a sort of religion in itself that is closely tied to civil religion that has a worldview and rituals that create identifiable communities and connects American mythology to apocalyptic anxieties Gittinger discusses how various cultures and groups form as a result of this obsession and that these communities form their own rituals and responses in various forms of prepping or survivalist

practices She lays out an argument for a broad eschatology prevalent in the US that extends beyond traditional religious designations to form an apocalyptic worldview that is built into our narrative as a country as well as furthered by popular culture and media's contribution to apocalyptic anxieties Subsequently Gittinger uses case studies of apocalyptic events current or speculative that reveal how our anxieties about the end of the world as we know it inform our culture as well as religious narratives that emerge from such crises
