Parapsychology Rhea A. White,1989 **The Journal of Parapsychology** Joseph Banks Rhine,Charles Edward Stuart,William McDougall,1988 *700 Conscientiology Experiments* Waldo Vieira,2018-08-22 A reference work on conscientiology this treatise with more than 5 000 entries in the bibliography first published in Portuguese in 1994 presents the reader with the bases of the neuroscience conscientiology The author proposes 300 tests for self application dealing with topics of great relevance such as assistance the theory of thosene thought sentiment and energy and the theories of inversion and existential recycling among others The work presents conscientiology as the science applied to the study of consciousness ego personality in an integral approach with all its vehicles of manifestation bodies previous existences and attributes The content being deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life The science of conscientiology utilizes the best of the main lines of human knowledge common sense religion philosophy political ideology and conventional science and is based on multidimensional self experience having consciousness as both the instrument and object of research *Advances in Parapsychological Research* ,1977 **Advances in Parapsychological Research** Stanley Krippner,1977 **First Sight** James C. Carpenter,2015-07-08 Often seen as supernatural unpredictable illusory and possibly dangerous ESP telepathy clairvoyance and other parapsychological activities are actually happening all the time and help us make sense of everyday experiences First Sight provides a new way of understanding such experiences and describes a way of thinking about the unconscious mind that makes it clear that these abilities are not rare and anomalous but instead are used by all of us all the time unconsciously and efficiently Drawing upon a broad array of studies in contemporary psychology the author integrates a new model for understanding these unusual abilities with the best research in psychology on problems as diverse as memory perception personality creativity and fear In doing so he illustrates how the field of parapsychology which historically has been riddled with confusion skepticism and false claims can move from the edges of science to its center where it will offer fascinating new knowledge about unmapped aspects of our nature The author demonstrates that the new model accounts for accumulated findings very well and explains previous mysteries resolves apparent contradictions and offers clear directions for further study First Sight also ventures beyond the laboratory to explain such things as why apparent paranormal experiences are so rare why they need not be feared and how they can be more intentionally accessed Further study of this theory is likely to lead to a technology of parapsychological processes while drastically revising our conception of the science of the mind toward a new science more humane and more replete with possibility than we have imagined in the past
