Paraverbal Communication With Children:

Paraverbal Communication with Children E.P. Heimlich,A.J. Mark,2012-12-06 For over twenty years I have been privileged to observe participate in and contribute to the development of the ideas and techniques that culminated in this most unusual impressive and useful book in words the total experience While it is difficult to convey of this innovative therapeutic approach this volume enables the reader to become a part of these therapy sessions and to learn to know and appreciate these fruitful methods The techniques described in detail in this volume are designed for use with children who are viewed as resistant and uncommunicative a fairly large percentage of youth who have not responded to traditional therapy The approach is based on many practical assumptions Among them are the idea that rhythm of whatever nature cannot be shut out that one can have pleasure in producing communication fun of all things and that pleasure and acceptance lead to the integration of motility emotions and ideation These all lead to increased self esteem and competence The selection of the modality is completely individualized and leads to a therapy with the child not to or at the child To complete the circle the method is eminently teachable Thus both students in training and practicing therapists who are concerned with promoting growth and development in the children they treat will find this guide exceptionally useful and stimulating H D Dunton M D **Paraverbal Communication with Children** E. Goodyear-Brown,2009-09-22 INTRODUCING A PRACTICAL MODEL OF PLAY THERAPY FOR TRAUMATIZED CHILDREN Some of the most rewarding work a therapist can do is help a child recover from a traumatic event But where to begin A growing body of play therapy literature offers many specific techniques and a variety of theoretical models however many therapists are still searching for a comprehensive model of treatment that incorporates solid theoretical constructs with effective play therapy interventions Clinicians have long recognized that trauma therapy is not just a matter of techniques but a journey with a beginning middle and end In a pioneering contribution to the field *Play Therapy with Traumatized Children A Prescriptive Approach* the author codifies the process in her model Flexibly Sequential Play Therapy FSPT Integrating non directive and directive approaches this components based model allows for the uniqueness of each child to be valued while providing a safe systematic journey towards trauma resolution The FSPT model demystifies play based trauma treatment by outlining the scope and sequence of posttraumatic play therapy and providing detailed guidance for

clinicians at each step of the process Dramatically demonstrating the process of healing in case histories drawn from fifteen years of clinical practice with traumatized children Play Therapy with Traumatized Children addresses Creating a safe place for trauma processing Augmenting the child s adaptive coping strategies and soothing his or her physiology Correcting the child s cognitive distortions Ensuring that caregivers are facilitative partners in treatment Inviting gradual exposure to trauma content through play Creating developmentally sensitive trauma narratives Using termination to make positive meaning of the post trauma self
