Elsner, 2021-12-07 In Roman Eyes Jas Elsner seeks to understand the multiple ways that art in ancient Rome formulated the very conditions for its own viewing and as a result was complicit in the construction of subjectivity in the Roman Empire Elsner draws upon a wide variety of visual material from sculpture and wall paintings to coins and terra cotta statuettes He examines the different contexts in which images were used from the religious to the voyeuristic from the domestic to the subversive He reads images alongside and against the rich literary tradition of the Greco Roman world including travel writing prose fiction satire poetry mythology and pilgrimage accounts The astonishing picture that emerges reveals the

mindsets Romans had when they viewed art their preoccupations and theories their cultural biases and loosely held beliefs Roman Eyes is not a history of official public art the monumental sculptures arches and buildings we typically associate with ancient Rome and that tend to dominate the field Rather Elsner looks at smaller objects used or displayed in private settings and closed religious rituals including tapestries ivories altars jewelry and even silverware In many cases he focuses on works of art that no longer exist providing a rare window into the aesthetic and religious lives of the ancient Romans Looking at Laughter John R. Clarke, 2007-11-17 In this fresh accessible and beautifully illustrated book his third to examine an aspect of Roman visual culture John R Clarke explores the question What made Romans laugh Looking at Laughter examines a heterogeneous corpus of visual material from the crudely obscene to the exquisitely sophisticated and from the playful to the deadly serious everything from street theater to erudite paintings parodying the emperor Nine chapters organized under the rubrics of Visual Humor Social Humor and Sexual Humor analyze a wide range of visual art including wall painting sculpture mosaics and ceramics Archaeological sites as well as a range of ancient texts inscriptions and graffiti provide the background for understanding the how and why of humorous imagery This entertaining study offers fascinating insights into the mentality of Roman patrons and viewers who enjoyed laughing at the gods the powers that be and themselves **A Handbook to the Reception of Ovid** John F. holistic perspective rather than treating pain as a narrowly defined physiological perception it was conceived as a type of embodied experience in which ideas about the body's physiology the representation and articulation of its perceptions as well as the emotional and cognitive impact of pain were all important facets of what it meant to be in pain By bringing this conception to light scholars are able to redefine our understanding of the social and emotional fabric of Imperial society and help to reposition its relationship with the emergence of Christian society in late antiquity

Parchments of Gender Maria Wyke, 1998 Parchments of Gender forms an important source of inter disciplinary information for the study of gender and the body in ancient history The central and unifying theme of the collection is the body's relation to gender With essays covering the ancient communities of Greece Rome and Judaea the volume argues that ancient bodies are parchments of gender They are textual skins on which gender is inscribed and on which can be traced other interconnecting matrices of knowledge and power that give ancient bodies their seemingly legible contours The volume also demonstrates the central role of antiquity in developing the cultural formation of the gendered body as a concept and a practice which is still prevalent in society today

Becoming Female Katrina Cawthorn, 2013-11-01 Becoming Female the first book length examination of the body in classical Athenian tragedy reconsiders the figure of the male tragic hero making use of both feminist and body theory The male hero becomes female in the space of tragedy through the experience of

suffering and seems unable to return to any secure expression of masculinity Katrina Cawthorn concentrates initially on the figure of Heracles in Sophocles *The Women of Trachis* an exemplary specimen of the tragic process of becoming female who exhibits many of the central issues considered in the book The male hero is in the course of the play undone and feminised while the instability of masculine identity is revealed This theme of becoming female and the resulting failure to circumscribe the feminine and return to any secure and triumphant concept of masculinity is argued to be a discernible feature of the genre of tragedy The inconclusive and disconcerting nature of tragic endings contribute to the dislocation of the tragic male and emphasise the Dionysian disturbance of the male hero Moreover this state of the dissolute male hero has textual and theatrical consequences extending to affect the audience so that it too becomes feminised by the processes of tragedy

Becoming Female is an important work for scholars and students of Classical Studies Ancient History Drama and Theatre Studies Women's Studies and Cultural Studies

Controlling Corporeality Jon L. Berquist, 2002 In this beautifully written book Jon L Berquist guides the reader through the Hebrew Bible examining ancient Israel's ideas of the body the unstable roles of gender the deployment of sexuality and the cultural practices of the time Conducting his analysis with reference to contemporary theories of the body power and social control Berquist offers not only a description and clarification of ancient Israelite views of the body but also an analysis of how these views belong to the complex logic of ancient social meanings
