misunderstood trends of our time peers replacing parents in the lives of our children Dr Neufeld has dubbed this phenomenon peer orientation which refers to the tendency of children and youth to look to their peers for direction for a sense of right and wrong for values identity and codes of behaviour But peer orientation undermines family cohesion poisons the school atmosphere and fosters an aggressively hostile and sexualized youth culture It provides a powerful explanation for schoolyard bullying and youth violence its effects are painfully evident in the context of teenage gangs and criminal activity in tragedies such as in Littleton Colorado Tabor Alberta and Victoria B C It is an escalating trend that has never been adequately described or contested until Hold On to Your Kids Once understood it becomes self evident as do the solutions Hold On to Your Kids will restore parenting to its natural intuitive basis and the parent child relationship to its rightful preeminence The concepts principles and practical advice contained in Hold On to Your Kids will empower parents to satisfy their children's inborn need to find direction by turning towards a source of authority contact and warmth Something has changed One can sense it one can feel it just not find the words for it Children are not quite the same as we remember being They seem less likely to take their cues from adults less inclined to please those in charge less afraid of getting into trouble Parenting too seems to have changed Our parents seemed more confident more certain of themselves and had more impact on us for better or for worse For many parenting does not feel natural Adults through the ages have complained about children being less respectful of their elders and more difficult to manage than preceding generations but could it be that this time it is for real from Hold On to Your Kids
