Combined Parent-Child Cognitive Behavioral Therapy Melissa K. Runyon, Esther Deblinger, 2013-09-19 Violence is an epidemic that negatively impacts children across their lifespan Reports indicate 2 1 million youth have experienced physical abuse during their lifetimes disrupting the healthy development of children from the toddler years through adolescence and most cases involve parents Some parents lack the skills to effectively parent and use physical discipline as a strategy to control their children s problem behaviors They may use increasing force if children continue to be noncompliant which places many children at risk for harm Combined Parent Child Cognitive Behavioral Therapy CPC CBT created by Melissa K Runyon and Esther Deblinger and outlined in this guide provides an evidence based intervention aimed at empowering families to develop optimistic outlooks on parenting and peaceful home environments and to decrease stress experienced both by parents and children CPC CBT incorporates elements from empirically supported CBT models for families who have experienced physical abuse sexual abuse and domestic violence additionally CPC CBT draws on concepts from developmental theory learning theory family systems theory and motivational interviewing The target population includes children ages 3 17 years and their parents caregivers who have already engaged in or are at risk for physically abusive behavior towards their children This manual is for clinicians clinical supervisors administrators and others who are considering the implementation of CPC CBT in their agencies with families at risk for child physical abuse *Handbook of Cognitive-Behavior Group Therapy with Children and Adolescents* Ray W. Christner, Christy A. Mulligan, 2007-05-07 This Handbook offers a much needed resource of theoretical knowledge evidence based interventions and practical guidelines for professionals providing group psychotherapy to youth clients Written by leading professionals in the field of child and adolescent cognitive behavioral therapy this comprehensive volume offers readers a collection of innovative and well established approaches for group interventions with youth in a variety of treatment settings It addresses a wide range of issues not limited to assessment group member selection and specific protocols and strategies that readers can implement in their own practice Integrating theoretical and practical aspects leading experts offer their experience through case examples and vignettes suggesting guidelines for overcoming inherent treatment obstacles This Handbook provides not only a framework for delivering effective group therapy but also highlights specific problem areas and it is an invaluable reference

for professionals providing therapeutic intervention to children and adolescents

Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent child dyad and the environment of the family which includes all primary caregivers are at the foundation of children's well being and healthy development From birth children are learning and rely on parents and the other caregivers in their lives to protect and care for them The impact of parents may never be greater than during the earliest years of life when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment Parents help children build and refine their knowledge and skills charting a trajectory for their health and well being during childhood and beyond The experience of parenting also impacts parents themselves For instance parenting can enrich and give focus to parents lives generate stress or calm and create any number of emotions including feelings of happiness sadness fulfillment and anger Parenting of young children today takes place in the context of significant ongoing developments These include a rapidly growing body of science on early childhood increases in funding for programs and services for families changing demographics of the U S population and greater diversity of family structure Additionally parenting is increasingly being shaped by technology and increased access to information about parenting Parenting Matters identifies parenting knowledge attitudes and practices associated with positive developmental outcomes in children ages 0-8 universal preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge attitudes and practices and barriers to and facilitators for parents use of practices that lead to healthy child outcomes as well as their participation in effective programs and services This report makes recommendations directed at an array of stakeholders for promoting the wide scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice It is meant to serve as a roadmap for the future of parenting policy research and practice in the United States
