**Maternal-infant Bonding** Marshall H. Klaus, John H. Kennell, 1976 *Music Therapy and Parent-Infant Bonding* Jane Edwards, 2011-07-07 Music Therapy and Parent Infant Bonding is the first title in the field of music therapy to explore the contribution that music therapy can make in the very early years for instance in situations regarding adopted children or in ameliorating the effects of maternal depression on the parent infant relationship **Bonding** Marshall H. Klaus, John H. Kennell, Antonia W. Hamilton, 1983 The mighty bond between parent and child is one of the enduring wonders of psychology John Kennell and Marshall and Phyllis Klaus bring decades of research insight and clinical practice into one book that offers parents and those who care for them during pregnancy everything they need to know to enhance this essential relationship This important work explores the effects of various birth practices and situations prenatal testing labor support testing of newborns breast feeding prematurity and adoption on the parents feelings and on the development of later attachment and independence

**The Neurobiological Basis of Suicide** Yogesh Dwivedi, 2012-06-25 With recent studies using genetic epigenetic and other molecular and neurochemical approaches a new era has begun in understanding pathophysiology of suicide Emerging evidence suggests that neurobiological factors are not only critical in providing potential risk factors but also provide a promising approach to develop more effective treatment and prevention strategies The Neurobiological Basis of Suicide discusses the most recent findings in suicide neurobiology Psychological psychosocial and cultural factors are important in determining the risk factors for suicide however they offer weak prediction and can be of little clinical use Interestingly cognitive characteristics are different among depressed suicidal and depressed nonsuicidal subjects and could be involved in the development of suicidal behavior The characterization of the neurobiological basis of suicide is in delineating the risk factors associated with suicide The Neurobiological Basis of Suicide focuses on how and why these neurobiological factors are crucial in the pathogenic mechanisms of suicidal behavior and how these findings can be transformed into potential therapeutic applications The Attachment Parenting Book Martha Sears, William

Sears, 2014-05-21 Attachment Parenting encourages early strong and sustained attention to the new baby s needs this practical and inspirational book outlines the steps that will create the most lasting bonds between parents and their children

Patterns of Attachment Mary D. Salter Ainsworth, Mary C. Blehar, Everett Waters, Sally N. Wall, 2015-06-26 Ethological attachment theory is a landmark of 20th century social and behavioral sciences theory and research This new paradigm for understanding primary relationships across the lifespan evolved from John Bowlby's critique of psychoanalytic drive theory and his own clinical observations supplemented by his knowledge of fields as diverse as primate ethology control systems theory and cognitive psychology By the time he had written the first volume of his classic Attachment and Loss trilogy Mary D Salter Ainsworth's naturalistic observations in Uganda and Baltimore and her theoretical and descriptive insights about maternal care and the secure base phenomenon had become integral to attachment theory Patterns of Attachment reports the methods and key results of Ainsworth's landmark Baltimore Longitudinal Study Following upon her naturalistic home observations in Uganda the Baltimore project yielded a wealth of enduring benchmark results on the nature of the child's tie to its primary caregiver and the importance of early experience It also addressed a wide range of conceptual and methodological issues common to many developmental and longitudinal projects especially issues of age appropriate assessment quantifying behavior and comprehending individual differences In addition Ainsworth and her students broke new ground clarifying and defining new concepts demonstrating the value of the ethological methods and insights about behavior Today as we enter the fourth generation of attachment study we have a rich and growing catalogue of behavioral and narrative approaches to measuring attachment from infancy to adulthood Each of them has roots in the Strange Situation and the secure base concept presented in Patterns of Attachment Its inclusion in the Psychology Press Classic Editions series reflects Patterns of Attachment's continuing significance and insures its availability to new generations of students researchers and clinicians

*A Secure Base* John Bowlby, 2005 Dr John Bowlby a truly international and outstanding writer presents the fruits of current research in attachment theory and provides an up to date outline of its main features in this new collection of lectures In this collection of lectures Dr Bowlby describes recent findings and gives an outline of the main features of attachment theory now widely

recognised as a most productive conceptual framework within which to organise the evidence In the final lecture he shows how this knowledge when applied to analytically oriented psychotherapy helps both to clarify the aims of therapy and to guide the therapist in his or her own work This collection will be welcomed by students as a lucid introduction to the field by professionals who are still unfamiliar with recent developments as well as by those eager to extend their existing knowledge

*Motherhood and Mental Health* I. F. Brockington, 1996 This text examines the great variety of mental health disorders that can affect women during pregnancy and after giving birth Issues such as infertility and child abuse are covered and case descriptions and personal accounts are also provided

**The Cambridge Handbook of Environment in Human Development** Linda Mayes, Michael Lewis, 2012-08-27 Families communities and societies influence children's learning and development in many ways This is the first handbook devoted to the understanding of the nature of environments in child development Utilizing Urie Bronfenbrenner's idea of embedded environments this volume looks at environments from the immediate environment of the family including fathers siblings grandparents and day care personnel to the larger environment including schools neighborhoods geographic regions countries and cultures Understanding these embedded environments and the ways in which they interact is necessary to understand development

The Earliest Relationship T. Berry Brazelton, Bertrand G. Cramer, 2018-05-08 Never before has research on newborn behavior and parent infant interaction been fully integrated with psychoanalytic insight into parents emotions and fantasies This book provides a vivid glimpse of the parents daydreams and narcissistic wishes which grow into a desire for a child and they show how these feelings develop into important attachments to the unborn infant during pregnancy The power and competence of the newborn born then challenges parental fantasies desires wishes and expectations creating the beginnings of the bond between parent and child Using the latest research the authors clarify all the ways the infant participates in the dawning relationship and the ingredients of very early communication and interaction They then unveil the imaginary interactions which lend meaning and drama to each gesture and expression We see the baby as Tyrant as Savior or as the reincarnation of lost relationships Everyone who cares for mothers and babies pediatricians developmental and clinical psychologists psychiatrists early childhood specialists nurses and social workers as well as interested parents will find this book of immediate value

*Parenting Matters* National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent child dyad and the environment of the family which includes all primary caregivers are at the foundation of children's well being and healthy development From birth children are learning and rely on parents and the other caregivers in their lives to protect and care for them The impact of parents may never be greater than during the earliest years of life when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment Parents help children build and

refine their knowledge and skills charting a trajectory for their health and well being during childhood and beyond The experience of parenting also impacts parents themselves For instance parenting can enrich and give focus to parents lives generate stress or calm and create any number of emotions including feelings of happiness sadness fulfillment and anger Parenting of young children today takes place in the context of significant ongoing developments These include a rapidly growing body of science on early childhood increases in funding for programs and services for families changing demographics of the U S population and greater diversity of family structure Additionally parenting is increasingly being shaped by technology and increased access to information about parenting Parenting Matters identifies parenting knowledge attitudes and practices associated with positive developmental outcomes in children ages 0 8 universal preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge attitudes and practices and barriers to and facilitators for parents use of practices that lead to healthy child outcomes as well as their participation in effective programs and services This report makes recommendations directed at an array of stakeholders for promoting the wide scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice It is meant to serve as a roadmap for the future of parenting policy research and practice in the United States
