Cognition, Communication, and Romantic Relationships James M. Honeycutt, James G. Cantrill, 2014-04-08 Cognition Communication and Romantic Relationships focuses on the role of memory communication and social cognition in the development of romantic relationships The authors review developmental models of communication and examine criticisms of these models They also explore the stages through which relationships escalate and deteriorate and consider the processes for such activities as meeting new people dating sexual intercourse and terminating relationships Differences between men and women are discussed throughout the text in light of current research supporting systematic gender differences in how people think about romance and relationships As an extended analysis and research review of how thinking about romance influences and is influenced by communicative processes this text offers a deeper understanding of the cognitive and communicative factors involved in relationship

processes It is designed for use in courses on interpersonal relationships and intimate relations in social psychology communication counseling psychology clinical psychology and sociology Current Catalog National Library of Medicine (U.S.),1969 Includes subject section name section and 1968 1970 technical reports *Individuals as Producers of Their Development* Richard M Lerner,Nancy A. Busch-Rossnagel,2013-09-03 Individuals as Producers of Their Development A Life Span Perspective provides an assessment of the usefulness of viewing the individual as an active contributor to his or her development It extends the breadth of organism environment reciprocities beyond those involved with the child and family On the one hand this extension involves a consideration of the role of evolutionary biological processes on the other it pertains to the broader ecology of human development the social network lying outside the family and the physical environmental contexts of development Person context reciprocities linked to variables that may play their greatest role in the extrafamilial context are also considered Variables such as physical attractiveness race and physical handicap are examples of those discussed in this regard Finally because of the greater scope of the analysis a potentially greater data base is examined in a search for documentation of the presence and role of dynamic person context interactions

Schizophrenia Bulletin ,1976 "Daddy's Gone to War" William M. Tuttle Jr.,1993-09-16 Looking out a second story window of her family s quarters at the Pearl Harbor naval base on December 7 1941 eleven year old Jackie Smith could see not only the Rising Sun insignias on the wings of attacking Japanese bombers but the faces of the pilots inside Most American children on the home front during the Second World War saw the enemy only in newsreels and the pages of Life Magazine but from Pearl Harbor on the war with its blackouts air raids and government rationing became a dramatic presence in all of their lives Thirty million Americans relocated 3 700 000 homemakers entered the labor force sparking a national debate over working mothers and latchkey children and millions of enlisted fathers and older brothers suddenly disappeared overseas or to far off army bases By the end of the war 180 000 American children had lost their fathers In Daddy s Gone to War William M Tuttle Jr offers a fascinating and often poignant exploration of wartime America and one of generation s odyssey from childhood to middle age The voices of the home front children are vividly present in excerpts from the 2 500 letters Tuttle solicited from men and women across the country who are now in their fifties and sixties From scrap collection drives and Saturday matinees to the atomic bomb and V J Day here is the Second World War through the eyes of America s children Women relive the frustration of always having to play nurses in neighborhood war games and men remember being both afraid and eager to grow up and go to war themselves Not all were willing to wait Tuttle tells of one twelve year old boy who strode into an Arizona recruiting office and declared I don t need my mother s consent I m a midget Former home front children recall as though it were yesterday the pain of saying good bye perhaps forever to an enlisting father posted overseas and the sometimes equally unsettling experience of a long absent father s return A pioneering effort to reinvent the way we look at history and childhood Daddy s Gone to War views the experiences of ordinary children through the lens of

developmental psychology Tuttle argues that the Second World War left an indelible imprint on the dreams and nightmares of an American generation not only in childhood but in adulthood as well Drawing on his wide ranging research he makes the case that America's wartime belief in democracy and its rightful leadership of the Free World as well as its assumptions about marriage and the family and the need to get ahead remained largely unchallenged until the tumultuous years of the Kennedy assassination Vietnam and Watergate As the hopes and expectations of the home front children changed so did their country's In telling the story of a generation Tuttle provides a vital missing piece of American cultural history *The Single Parent Family*, 1976
