Parenting For Prevention How To Raise A Child To Say No To Alcohol drugs:

Parenting for Prevention David Wilmes, 1991-01-01 Here is a book that every adult concerned about kids will want to read. The author convincingly argues that parents are the ones who not only can but also must take the lead in preventing their kids from getting mixed up with alcohol and other drugs. Parenting for Prevention shows them exactly what to do and how to do it. The theme is prevention but the approach is thoroughly positive. You will find no threats or warnings here, no long list of don'ts. Instead, this book says in effect: If you really want to prevent your kids from getting involved with alcohol or other drugs, here is the way to do it. Teach them these life skills. I make you a promise: If you read this book thoughtfully and follow its recommendations, you will have new insights into a whole host of everyday parenting problems as well as practical skills for handling them. Those insights and skills will be the best insurance policy you can take out to prevent your kids from getting into problems with alcohol or other drugs because you will be helping them develop into healthy, well-balanced kids who can stand on their own feet, resist unhealthy peer pressures, and still be accepted and respected wherever they go. **How to**

Raise a Drug-Free Kid Joseph A. Califano, 2014-09-09 The highly acclaimed comprehensive guide to getting your child through the formative pre-teen, teen, and college years drug-free, now completely revised and updated. Nearly every child will be offered drugs or alcohol before graduating high school, and excessive drinking is common at most colleges. But the good news is that a child who gets to age twenty-one without smoking, using illegal drugs, or abusing alcohol or prescription drugs is virtually certain never to do so. Drawing on more than two decades of research at The National Center on Addiction and Substance Abuse at Columbia University, CASAColumbia founder Joseph A. Califano Jr. presents a clear, common-sense guide to helping kids stay drug-free. All parents dream of a healthy, productive, and fulfilling future for their children. Califano shows which specific actions work and what parents can do to teach, protect, and empower their children to have the greatest chance of making that future come true. Teenagers who learn about the risks of drugs from their parents are twice as likely never to try them, and this book provides the tools parents need to prepare their children for those crucial decision-making moments. In this revised and updated edition, Califano tackles some of the newest obstacles standing between our kids and a drug-free life: from social media sites and cell phone apps to the explosion in prescription and over-the-counter drug abuse and the increased dangers and addictive power of marijuana. He reveals what teens can't or won't tell their parents about their thoughts on drugs and alcohol and combines the latest research with his discussions with thousands of parents and teens about the challenges that widespread access to drugs and alcohol present and how parents can instill in their teens the will and skills to choose not to use. Califano's insightful and lively guide is as readable as it is informative. **Raising**
