Parenting The Millennial Generation Guiding Children Born Between 1982 And :

Parenting the Millennial Generation David Allan Verhaagen, 2005-10-30 They have strong values faith family tolerance intelligence and altruism among them But contrary to what one might guess these people are not America's sage elders This is the Millennial Generation Born between 1982 and 2000 the oldest among them today are entering their 20s or in their teen years They aim to rebel against society by cleaning it up returning to old fashioned values and relationships Author Verhaagen describes why nonetheless parents are feeling more anxious and frazzled than ever before even as they are faced with the task of raising what some predict will be our next hero generation Verhaagen explains how research shows adults can help keep these young people on a positive path stoke their ideals and help them be resilient when the inevitable mistakes and obstacles arise The Baby Boomers and older Gen Xers are parenting this new crew aiming to ground them and instill great hope for the future But Millennials face challenges greater than any generation faced before them Many spend all or part of their childhood without a father in the home Technology including the Internet is exposing them to adult material at increasingly young ages They are subject to violent images that are more common than ever before in movies television and games So parents still need to provide guidance Verhaagen aims to help parents with research and advice including how to teach determination problem solving emotional smarts and resilience His text includes vignettes and his personal experience as a psychotherapist father **Generation on a Tightrope** Arthur Levine, Diane R.

Dean, 2012-09-04 Today's college students feel as if they are crossing an abyss between their dreams and the reality of an uncertain future They are a generation seeking stability in a time of profound and accelerating change They want government and our other social institutions to work in a time when they're broken they cling to the American Dream in an age of diminished expectations They are walking a tightrope attempting to balance digital connectedness and personal isolation global citizenship and local vision commonality and difference in the most diverse generation in American history and a desire to be treated as mature adults while being more dependent on their parents than previous college students **Generation on a Tightrope** offers a compelling portrait of today's undergraduate college students that sheds light on their attributes expectations aspirations academics attitudes values beliefs social lives and politics Based on research of 5 000 college students and student affairs practitioners from 270 diverse college campuses the book explores the similarities and differences between today's generation of students and previous generations The authors examine the myriad forces that have shaped these students and will continue to shape them as they prepare to meet the future The first two volumes in this series exploring the psyche of college students *When Dreams and Heroes Died* 1980 and *When Hope and Fear Collide* 1998 offered thoughtful and accurate profiles of the students of the 1980s and 1990s As **Generation on a Tightrope** clearly reveals today's students need a very different education than the undergraduates who came before them an education for the 21st Century which colleges and universities are ill equipped to offer and which will require major changes of them to provide

Painting a realistic picture of today's college students the authors offer guidance to higher education professionals researchers practitioners policymakers employers parents and the public The book's insights can help them equip students for the world they face and the world they will help to create **21st Century Issues in America** Ph. D. James E. Pittman, James E. Pittman, 2009 Written for use as a textbook in an introductory undergraduate course in public administration **Tweenhood** Melanie Kennedy, 2018-10-30 A powerful female pre adolescent consumer demographic has emerged in tandem with girls becoming more visible in popular culture since the 1990s Yet the cultural anxiety that this has caused has received scant academic attention In **Tweenhood** Melanie Kennedy rectifies this and examines mainstream pre adolescent girls films television programmes and celebrities from 2004 onwards including *A Cinderella Story* 2004 *Hannah Montana* 2006 and *Camp Rock* 2008 Her book forges a dialogue between post feminism film and television celebrity and most importantly the figure of the tween Kennedy examines how these media texts which are so key to tween culture address and construct their target audience by helping them to choose an appropriately feminine identity **Tweenhood** then she argues is transient and a discursive construct whose unpacking highlights the deification of celebrity and femininity within its culture **Davis's Patient-Practitioner Interaction** Gina Maria Musolino, Carol M.
