ZERO TO THREE
Early connections last a lifetime

Positive parenting describes a set of parental behaviors that foster a child's capacity to **love, trust, explore and learn**. The goal of positive parenting is to help parents guide their children's healthy development in the context of the family's culture. Key elements of positive parenting include the ability to:

Understand or imagine the **child's point of view**, especially during challenging moments.

Respond with interest and **sensitivity** to the child's cues.

Recognize that **parenting can be stressful** and missteps are a natural part of child-rearing.

Recognize and **celebrate** the child's strengths, abilities, and capacity to learn and develop.

Provide consistent, **age-appropriate guidelines** and limits for child behavior.

Work toward a **balance** of meeting parental needs and child needs.

Delight in **moments of connection** with the child.

Recognize and **regulate their own feelings** and behaviors before they respond to the child.

Seek help, support or additional information on parenting when needed.

How to Raise Your Parents will help teens and their parents navigate those years between training bras and keys to the family car. In a voice teens will relate to and parents will appreciate, author Sarah O'Leary Burningham offers smart advice about negotiation and parental hot buttons and a little insight about what the world looks like from a parent's point of view. *Active Parenting of Teens* Michael H. Popkin, Michael Popkin, PH D, 1998 Designed to teach parents a practical model for leading and understanding teenagers. *21st Century Parenting* Rick Capaldi, 2019-08-06 The only parenting book based on a school-tested method. As co-founder of Outreach Concern Inc, one of the largest school-based counseling services in the country, Dr. Rick Capaldi developed a guide to raise kids into confident independent adults. His three Rs: Read your child's environment, Regulate their emotional temperature, and Redirect their behavior will help parents and teachers steer children toward emotional stability and success. This model has been effectively utilized in counseling over a half million children and parents in over 900 schools, resulting in the development of cooperative, successful, and highly productive family relationships. **A Kid's Guide to Understanding Parents** Joy Wilt Berry, 1980 Defines biological, adopted, foster, and stepparents; discusses the needs of parents; explains how parents care for their children; and tells how to develop a good relationship with parents. **Hope for Parents of Troubled Teens** Connie LMHC Rae, 2012-01-01 A Road Map for Parenting in the Troubled Years. It is never too late for parents to reach their teenager or young adult. Licensed counselor Connie Rae draws from professional and personal experience to provide insight, encouragement, and advice. Offering wise counsel and a reassuring tone, she helps parents better understand their child's temperament, their own parenting style, and the developmental process their child is going through. She also discusses the world in which their teenager is growing up, which is very different than many parents realize. Each chapter ends with a list of practical steps and a prayer giving parents wise advice but also offering hope through the process. *The Grown-Up's Guide to Teenage Humans* Josh Shipp, 2017-09-19 Nautilus Gold Award Winner. Parenting Family: A practical guide to understanding teens from bestselling author and global youth advocate Josh Shipp. In 2015, Harvard researchers found that every child who does well in the face of adversity has had at least one stable and committed relationship with a supportive adult. But Josh Shipp didn't need Harvard to know that. Once an at-risk foster kid, he was headed straight for trouble until he met the man who changed his life: Rodney, the foster parent who refused to quit on Shipp and got him to believe in himself. Now, in *The Grown-Up's Guide to Teenage Humans*, Shipp shows all of us how to be that caring adult in a teenager's life. Stressing the need for compassion, trust, and encouragement, he breaks down the phases of a teenage human from sixth to twelfth grade, examining the changes, goals, and mentality of teenagers at each stage. Shipp offers revelatory stories that take us inside the teen brain and shares wisdom from top professionals and the most expert grown-ups. He also includes practice scripts that address tough issues, including

FORGIVENESS What do I do when a teen has been really hurt by someone and it's not their fault COMMUNICATION How do I get a teen to talk to me They just grunt TRUST My teen blew it My trust is gone Where do we go from here BULLYING Help A teen or their friend is being harassed DIFFICULT AND AWKWARD CONVERSATIONS Drugs Death Sex Oh my Written in Shipp's playfully authoritative no nonsense voice The Grown Up's Guide to Teenage Humans tells his story and unpacks practical strategies that can make a difference Ultimately it's not about shortcuts or magic words as Shipp reminds us it's about investing in kids and giving them the love time and support they need to thrive And that means every kid is one caring adult away from being a success story
