**Autonomy-Supportive Parenting** Emily Edlynn,2023-09-05 As parents we want our children to take responsibility for their schoolwork their chores and their choices We want them to grow into independent adults but when we see them struggling we sometimes have a tendency to step in and problem solve telling them exactly what to do or even doing things for them ourselves The problem is the more controlling we are with our children the more out of control they feel When our children feel out of control problems big and small follow from more tantrums in thwarted toddlers to a higher risk of drug and alcohol use in adolescence So how do we support our children s autonomy while maintaining boundaries and not losing our minds in the process From clinical psychologist Emily Edlynn PhD comes a flexible parenting framework that can apply to every family and every parental relationship With Autonomy Supportive Parenting you can build trust in your child and trust in yourself Parenting for Humans Dr. Emma Svanberg,2023-10-17 You will learn why you parent the way you do how to grow into your own parenting role and ultimately how to parent the unique child you have Dr Becky Kennedy clinical psychologist 1 New York Times bestselling author of Good Inside This is not a parenting book it s a book for parents exploring what we bring to the parenting journey and how we can gain confidence in ourselves not just as parents but as whole human beings There s always that moment as a parent when you feel like no matter how hard you re trying you just can t get it right But the fact is parenting is hard and once we know this and why we can forgive ourselves for finding it a struggle and start to look for the things that make parenting a joy As well as learning to parent ourselves it will show us how to parent the child we actually have not a textbook version but our complicated messy child with their own powerful needs And by tuning into their language learning how to hold them not mold them we can really start enjoying them for the funny and unique human beings that they are With the right support and guidance we can all totally do this parenting thing and grow a positive and loving relationship that will last forever **Parenting Through Pop Culture** JL Schatz,2020-03-19 With the ever increasing amount of media children are consuming it has become important for parents to learn how to help them navigate this consumption productively All too often the only approach to screen time by parents is a question of limiting how much and what kind Instead if parents and educators can adopt a more nuanced relationship to media and education adults and children can come together in order to engage with and deconstruct the messages that are embedded in popular culture This enables children to become more informed citizens This collection seeks to do just that by providing a series of essays on strategies to engage children with varying topics and programming to ensure that media consumption is an active process that promotes social and political awareness instead of apathetic entertainment **New Voices** Tony Vellela,1988 Based on extensive travel research and interviewing this book brings together under one cover all the different
