Raising Happiness Christine Carter, Ph.D., 2010-02-02 What do we wish most for our children? Next to being healthy, we want them to be happy, of course. Fortunately, a wide array of scientific studies show that happiness is a learned behavior, a muscle we can help our children build and maintain. Drawing on what psychology, sociology, and neuroscience have proven about confidence, gratefulness, and optimism, and using her own chaotic and often hilarious real-world adventures as a mom to demonstrate do's and don'ts in action, Christine Carter, Ph.D., executive director of UC Berkeley's Greater Good Science Center, boils the process down to 10 simple happiness-inducing steps. With great wit, wisdom, and compassion, Carter covers the day-to-day pressure points of parenting: how best to discipline, get kids to school, and activities on time, and get dinner on the table, as well as the more elusive issues of helping children build healthy friendships and develop emotional intelligence. In these 10 key steps, she helps you interact confidently and consistently with your kids to foster the skills, habits, and mindsets that will set the stage for positive emotions now and into their adolescence and beyond. Inside you will discover the best way to avoid raising a brat, changing bad habits into good ones, tips on how to change your kid's attitude into gratitude, the trap of trying to be perfect and how to stay clear of its pitfalls, the right way to praise kids, and why too much of the wrong kind can be just as bad as not enough, the spirit of kindness, how to raise kind, compassionate, and loving children, strategies for inspiring kids to do boring but necessary tasks, and become more self-motivated in the process. Complete with a series of try-this tips, secrets, and strategies, Raising Happiness is a one-of-a-kind resource that will help you instill joy in your kids and in the process become more joyful yourself.

Raising Your Jewish/Christian Child Lee F. Gruzen, Eric Weber, 2001-07-23 In this completely revised second edition of the thoughtful and pioneering guide, Library Journal Lee Gruzen tackles the problems and challenges of blending

both Jewish and Christian faiths into the lives of children of interfaith marriages Based on hundreds of interviews as well as the author's extensive research and personal experience this acclaimed book discusses many issues important to interfaith families talking with children about God planning ceremonies celebrating holidays establishing healthy relationships with grandparents developing a sense of self and belonging and more Written with honesty and warmth it offers a wealth of insight into the complicated feelings and loyalties that parents children grandparents and clergy bring to the subject of raising Jewish Christian children Parents Who Think Too Much Anne Cassidy, 2010-10-06 With the baby boom generation came the genre of parenting books that told parents how to teach their kids everything from toilet training to developing self esteem Generally the message has been go easy on your child but hard on yourself It is starting to become apparent especially in the best of families that giving your kids lots of choices validating their feelings at great peril to your own and providing enough individual attention for each child is creating a generation of kids over whom we have no control Cassidy argues that this comes from over thinking our role as parents We've pondered every step so much that the juice the joy and worst of all our confidence is gone The reasons are clear We have fewer children later in life so we've had more time to ponder We've grown up just as research on infant and child development has come of age so there's no shortage of material to think about As a generation we've prided ourselves on self improvement and we bring the same zeal to child improvement We're less likely to live close to our families and so are more likely to seek out expert solutions To counter this thinking Cassidy will suggest keeping the big picture in mind what kind of people do you really want your kids to be Honest kind cooperative empathetic It may mean losing sight of whether enough play dates are scheduled for the week and if you've positively reinforced the latest creative endeavor but it will bring back your instincts about what is important to your family as a whole and to your kids to become decent people *Your Personal Parenting Guide* Charlotte E.
