## **Parents Duties Childrens Debts The Limits Of Policy Intervention:**

Parents' Duties, Children's Debts Hartley Dean,1995 Enables the reader to explore underlying themes and reflect upon the potential for unifying principles in family policy      *The New Politics of Welfare* Bill Jordan,1998-09-24 This critical and highly topical introduction to the current debates and politics surrounding welfare reform in the United Kingdom and the United States explains the origins and main tenets of the Blair Clinton orthodoxy Central to the book is an examination of this orthodoxy s appeal to the concept of social justice Bill Jordan demonstrates how values derived from the family and voluntary associations are in danger of running counter to the more fundamental principles of liberal democracy and the requirements of transnational economic exchange He links the new politics of welfare to liberal and communitarian theories of citizenship and social justice and assesses the broader prospects for European social policy in the struggle over economic and political integration For more than a decade Bill Jordan has been one of our most thoughtful and independent thinkers on the future of welfare Anyone who wants to know more about what is happening to global welfare and why and how it should be changed should read this book Chris Pierson Department of Politics University of Nottingham      **Social Policy and the Body** K. Ellis,H. Dean,Jo Campling,1999-09-22 The opening chapters suggest that transitions in welfare capitalism can be understood in terms of shifts in dominant corporeal discourses The body as a focus for power and resistance in differing welfare regimes is further explored in individual contributions on health and social care bodily metaphors in social policy and the relationship between animal and human welfare In highlighting the significance of the body in social policy the book opens up a novel and potentially rich vein of academic enquiry      Social Policy John Baldock,Nick Manning,Sarah Vickerstaff,2007-03 Designed for use by undergraduates on social policy social work and sociology courses and by students on vocational training courses including postgraduate this textbook covers all the main topics of social policy      **Sociality** Hartley Dean,2024-11-07 This book develops a very particular concept of sociality a holistic way of understanding how human beings have come to care about and collectively provide for their welfare as a species and to recognise each other s needs in terms of shared social rights It tells not so much a success story as a hopeful story It provides a new way of looking at how our rights to life s essentials have been in the past are now and can in the future be understood It is potentially a book for anyone interested in the human condition but will be especially interesting for those engaged in human service provision community action social development welfare law and political debate and particularly useful to students of social policy and human rights It is a radically revised edition of *Social Rights and Human Welfare* first published in 2015 It provides modified re organised and updated versions of chapters from that book while offering a wholly new underlying narrative through which further to develop and apply the author s alternative theory of social rights It is a book about the connections between social rights and human welfare between theory and practice between debate and reality in the spheres of human service provision and human livelihoods      *Cultures of care* Chamberlayne, Prue,King, Annette,2000-12-27 This book explores the experiences of

informal home carers in the different welfare systems of the former West Germany and East Germany and Britain It is innovative in using a biographical case study approach to compare caring situations and caring strategies in the three different societies The detail and variety of the case studies show how particular social and welfare patterns give rise to recognisable cultures of care The authors show how the social relations of caring are structured within and outside the home environment offer a research tool to take into account the significance of informal networks use separate analysis of lived and told life stories to highlight personal processes of continuity and change in meeting the challenge of caring link individual caring strategies to the structural features of welfare societies European comparative research creates opportunities for fresh thinking about social policy showing best practice and piecing together the strengths of each system The findings of this book underline the significance of caring within social policy agendas and the need to extend and change the parameters of comparative social policy beyond a fixation on social insurance Cultures of care makes an important contribution to debates about the need to strengthen the social and to build a creative sense of moral agency in welfare systems It provides a valuable new resource for both academic teaching and the training of social professionals

**Poverty, Riches and Social Citizenship** Margaret Melrose,H. Dean,2015-12-17 At a time when the gap between rich and poor has been increasing Poverty Riches and Social Citizenship provides an accessible introduction to current debates about inequality exclusion and the nature of citizenship while also presenting an innovative exploration of popular beliefs and values in Britain The authors develop a series of conceptual models by which to understand the competing traditions which have informed ideas about citizenship and the contradictory moral notions that currently inform popular expectations of the welfare state

*Lost and Found* Judith Masson,Christine Harrison,Annie Pavlovic,2019-08-08 First published in 1999 this volume is a collection of essays focused on the theme of partnership with parents in social work practice with children and families It covers issues relating to the quality of care and preparation for aftercare particularly children s identity needs and preparation for life after care which are highlighted in the Quality Protects programme It developed from an action research project funded by the Joseph Rowntree Foundation and conducted by the editors at Warwick University between 1993 and 1996 Through teaching activities associated with the implementation of the Children Act 1989 the editors became aware that there were many parents who had lost contact with both their child and their child s social workers after their child had entered the care system These were the lost parents of the study Partnership with parents has become an integral part of social work with children and families living together or apart Inevitably it concerns many other people involved in the care of children and providing advice to individuals Partnership permeates all aspects of relationships between parents children and those providing care in place of parents Consequently the issues discussed in this book are of relevance to all those working directly or indirectly with children parents and other relatives Amongst these are social workers family placement workers carers and residential workers team managers and policy makers in local authority social services departments

guardians ad litem court welfare officers and lawyers acting for children or parents children s rights officers and advisers working in voluntary agencies which support families and children      New Labour, New Welfare State?
