Practical Intervention for Early Childhood Stammering Elaine Kelman,Alison Nicholas,2017-07-05 Therapy for young children who stammer is now high priority with growing research evidence supporting early intervention This manual from the Michael Palin Centre for stammering Children MPC is a detailed step by step guide intended to support general and specialist speech and language therapists in developing their confidence and skills in working with this age group This manual is based on a strong theoretical framework which explains the factors contributing to the onset and development of stammering and describes recent research findings regarding the nature of stammering in this age group It provides a comprehensive guide to the assessment process and helps to identify which children are likely to recover naturally and which are at risk of developing a persistent stammering problem The therapy approach has been successfully tried and tested at the Michael Palin Centre and the manual provides detailed descriptions of the therapy process It also includes a supporting CD Rom and photocopiable resources such as assessment and therapy forms and parents handouts The MPC approach is a combination of indirect therapy methods The indirect therapy component is aimed at helping parents through the use of video feedback to identify interaction strategies that support their child s fluency and enhance it in the home environment In addition the approach addresses other concerns for example in relation to confidence building dealing with sensitive children and establishing clear structures and boundaries to enhance family relationships For children at increased risk of persistence this manual incorporates a direct therapy programme which involves teaching the child strategies for developing fluency This manual disseminates the MPC s specialist therapy knowledge and research findings and is an invaluable guide for all speech and language therapists and students working with stammering *Psychology Library Editions: Speech and Language Disorders* Various,2019-03-14 Psychology Library Editions Speech and Language Disorders 8 Volume set presents titles

originally published between 1942 and 1993 covering a variety of areas from auditory processing difficulties to stuttering. The titles show the progression of knowledge and treatment through the twentieth century. **Assessment and Therapy for Young Dysfluent Children** Lena Rustin, Elaine Kelman, 1995-06-08 Clinicians continue to be anxious about the assessment and treatment of dysfluency but all the evidence suggests that early intervention is of primary importance in preventing long term chronic stuttering. This practical programme aims to provide the means to assess the child's speech and language and the family life style to identify the children at risk and to plan appropriate treatment for the child concerned.

Stotteren en stottertherapie bij heel jonge kinderen Ronny Boey, 2003 Stotteren begint op heel jonge leeftijd. De ouders en het kind winnen erbij om heel jonge stotterende kinderen tussen 2 en 6 jaar oud hulp te bieden. Stotteren valt beter te behandelen op jonge leeftijd. De indicatie, verantwoording en methodiek van de hulpverlening worden in dit boek beschreven en geïllustreerd met voorbeelden uit de behandeling. *Clinical Decision Making in Fluency Disorders, Fifth Edition* Walter H. Manning, Anthony DiLollo, 2023-11-08 Clinical Decision Making in Fluency Disorders Fifth Edition is designed for graduate students who are beginning their first in depth experience in fluency disorders as well as professional clinicians expanding their knowledge of this specialty area. Written with enthusiasm and creativity in a style that speaks directly to the clinician, the text centers not only on effectively managing stuttering but also on the therapeutic journey by describing goals, principles and techniques for assessment, counseling and ongoing management. This text provides clinical insights to assist people who stutter with their ability to communicate and enhance their quality of life. Key Features: Clinical Decision Making boxes designed to address some of the options a clinician is likely to consider during the assessment and treatment processes. Clinical Insight boxes reflect a particular philosophical view about aspects of therapeutic change for individuals who stutter. Discussion questions at the end of each chapter. New to the Fifth Edition: New chapter on cultural and linguistic diversity. New chapter on general principles of assessment. Revised and updated discussion questions at the end of each chapter.
