**Parents, Take Charge!** Sandy Gluckman, 2013-09 Move beyond conventional treatment of children's learning behavior and mood problems Motivated by the staggering number of children with learning behavior and mood problems who are not being helped by the traditional treatment approach Dr Gluckman offers a proven and effective drug free option Dr Gluckman's treatment program challenges the traditional compartmentalized approach that labels children with multiple diagnoses and treats them with medication She strongly advocates using medication as a last resort for children with these problems Based on many years of experience working with parents and children of all ages Dr Sandy Gluckman has observed that there is a problem free child with a healthy spirit body and brain trapped behind the layers of learning behavior and mood symptoms Dr Gluckman describes a healthy and safe way of freeing this child The unique aspect of Dr Gluckman's treatment solution is that stress is seen as the original trigger for all learning behavior and mood symptoms She describes how stress impacts the child's spirit and how this will negatively impact the physiological and neurochemical functioning of the body and brain In this book she guides the reader methodically through her 3 Step Parents Take Charge program The reader will learn exactly how to find and treat the stress and the underlying physiological causes of the child's symptoms Her NeuroParenting toolbox gives the reader parenting skills to balance the child's chemistry as part of their daily routine The book is written in an easy to read engaging way complete with illustrations that explain the content It is filled with research information stories and case studies that bring to life the benefits of this drug free treatment program The content is based on a synthesis of the newest research and insights drawn from functional medicine interpersonal neurobiology psychology and neuroscience as well as Dr Gluckman's own clinical experience

**Parents in Charge** Dana Chidekel, PH.D., 2001-01-01 An essential instruction manual for the toughest job a parent will ever love from a fresh new authority on parent child relationships

*Who's In Charge?* Eddie Gallagher, 2018-05-31 Who s in Charge written by Eddie

Gallagher is a book aimed at helping parents unravel the mysteries of violent and abusive children. For those who don't have difficult teenage children, this book will come as something of a thunderbolt, as the misery that some parents and families endure is not well documented or discussed. For those whose children are reasonably normal and average, this will come as something of a relief. Never again will you complain about sour faces, bad moods, and bomb-site bedrooms. Eddie Gallagher's main objective is to explore the facts and expose the taboo that surrounds the concept of children perpetrating violent acts upon their parents. However, *Who's in Charge* contains a mine of information about family relationships, about emotions in general, and stacks of advice about good parenting, so this is a book that every parent would benefit from reading. It will also be of interest to professionals and academics, as there has been little written on this topic and nothing with such scope. Candid, non-judgmental, certainly not sanctimonious, and full of humour, Eddie Gallagher is able to take this difficult and largely hidden topic and expose it. Other topics are covered which would be of interest to any parent: the effect of social media and the internet, an increasing lack of respect towards authority in society, and the author also touches on the issue of violent abuse between adults within relationships, plus the input of healthcare professionals and the moral minefield they face. All in all, a veritable mine of information. Accessible, relevant, and easy to read, every part of this book will impact someone somewhere, whether they have children or not.

**The Leader in Me** Stephen R. Covey, 2012-12-11 Children in today's world are inundated with information about who to be, what to do, and how to live. But what if there was a way to teach children how to manage priorities, focus on goals, and be a positive influence on the world around them? *The Leader in Me* is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A.B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year, the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits that have already changed the lives of millions of people and shows how children can use them as they develop. Those habits – be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw – are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

**Parents in Charge** Lawrence W. Marris, 1983 **Developmental Parenting** Lori A. Roggman, Lisa K. Boyce, Mark S. Innocenti, 2008 Accessible, easy-to-follow guide to teaching parents and other caregivers to value and support a child's development.

*The Kids Are in Charge* Jessica K. Taft, 2019-09-10 Details the possibilities and challenges of intergenerational activism and social movements. Since 1976, the Peruvian movement of working children has fought to redefine age-based roles in society, including defending children's right to work. In *The Kids Are in Charge*, Jessica K. Taft gives us an inside look at this groundbreaking intergenerational social movement, showing that

kids can and should be respected as equal partners in economic social and political life Through participant observation Taft explores how the movement has redefined relationships between kids and adults how they put these ideas into practice within their organizations and how they advocate for them in larger society Ultimately she encourages us to question the widely accepted beliefs that children should not work or participate in politics The Kids Are in Charge is a provocative invitation to re imagine childhood power and politics CHARGE Syndrome, Second Edition Timothy S.

Parents naturally want to do what's best for their kids but they often struggle to know what that is especially when dealing with the big battlegrounds of sleep, feeding, and managing aggression. The latest scientific research indicates that it is through a strong and stable sense of connection to their parents that children learn how to regulate their emotions, master social skills, and develop a sense of identity. Unfortunately, many of the currently accepted parenting practices and traditional attitudes disrupt healthy connection rather than foster it, leading to behavioral issues and emotional problems that can last into adulthood.
