Paris Along The Nile:

Paris Along the Nile Cynthia Myntti, 2014 Cairo Mother of the World its vividly diverse neighborhoods and building styles reveal its cosmopolitan energy and reflect the myriad of economic political and cultural forces that have shaped the city over the centuries So impressed was Khedive Ismail after a visit to Haussman s new Paris in 1867 that he decided to build a modern city along the same architectural lines and aesthetics and brought European architects to Cairo to initiate Egypt s most dynamic building period since medieval times The stunning buildings of late nineteenth and early twentieth century Cairo remain but they are neglected threatened by pollution and are being pulled down for concrete highrises and parking lots Paris along the Nile captures in 200 black and white photographs the architectural jewels of modern Cairo

Return to Paris Colette Rossant, 2010-05-11 Paris 1947 Colette Rossant returns to Paris after waiting out World War II in Cairo among her father s Egyptian Jewish relatives Initially the City of Light seems gray and forbidding to the teenage Colette especially after her thrill seeking mother leaves her in the care of her bitter malais grandmother Yet Paris will prove the place where Colette awakens to her senses Taken under the wing of Mademoiselle Georgette the family chef she develops a taste and talent for French cooking The streets of Paris soon become Colette s own as she navigates the outdoor markets and caf menus and emerges into her new gastronomical self Return to Paris is an extraordinary coming of age story that charts the course of Colette s culinary adventures replete with expertly crafted recipes and family photographs An exploration of passion in all its flavor and texture Colette s memoir will live in the hearts and palates of readers for years to come

Down the Nile Rosemary Mahoney, 2007-07-11 Rosemary Mahoney was determined to take a solo trip down the Egyptian Nile in a small boat even though civil unrest and vexing local traditions conspired to create obstacles every step of the way Starting off in the south she gained the unlikely sympathy and respect of a Muslim sailor who provided her with both a seven foot skiff and a window into the culturally and materially impoverished lives of rural Egyptians Egyptian women don't row on the Nile and tourists aren't allowed to for safety's sake Mahoney endures extreme heat during the day and a terror of crocodiles while alone in her boat at night Whether she's confronting deeply held beliefs about non-Muslim women finding connections to past chroniclers of the Nile or coming to the dramatic realization that fear can engender unwarranted violence Rosemary Mahoney's informed curiosity about the world her glorious prose and her wit never fail to captivate

Buchwald,Diane Greco Josefowicz,2021-10-12 The clash of faith and science in Napoleonic France The Dendera zodiac an ancient bas relief temple ceiling adorned with mysterious symbols of the stars and planets was first discovered by the French during Napoleon s campaign in Egypt and quickly provoked a controversy between scientists and theologians Brought to Paris in 1821 and ultimately installed in the Louvre where it can still be seen today the zodiac appeared to depict the nighttime sky from a time predating the Biblical creation and therefore cast doubt on religious truth The Zodiac of Paris tells the story of this incredible archeological find and its unlikely role in the fierce disputes over science and faith in Napoleonic and Restoration France The book unfolds against the turbulence of the French Revolution Napoleon s breathtaking rise and fall and the restoration of the Bourbons to the throne Drawing on newspapers journals diaries pamphlets and other documentary evidence Jed Buchwald and Diane Greco Josefowicz show how scientists and intellectuals seized upon the zodiac to discredit Christianity and how this drew furious responses from conservatives and sparked debates about the merits of scientific calculation as a source of knowledge about the past The ideological battles would rage until the thoroughly antireligious Jean Fran ois Champollion unlocked the secrets of Egyptian hieroglyphs and of the zodiac itself Champollion would prove the religious reactionaries right but for all the wrong reasons The Zodiac of Paris brings Napoleonic and Restoration France vividly to life revealing the lengths to which scientists intellectuals theologians and conservatives went to use the ancient past for modern purposes *Globalization and the Politics of Development in the Middle East* Clement Moore Henry,Robert Springborg,2010-09-06 In this 2010 edition of their book on the economic development of the Middle East and North Africa Clement Henry and Robert Springborg reflect on what has happened to the region s economy since 2001 How have the various countries in the Middle East responded to the challenges of globalization and to the rise of political Islam and what changes for better or for worse have occurred Utilizing

The Architecture of Home in Cairo Mohamed Gamal Abdelmonem, 2016-03-03 The hawari of Cairo narrow non straight alleyways are the basic urban units that have formed the medieval city since its foundation back in 969 AD Until early in the C20th they made up the primary urban divisions of the city and were residential in nature Contemporary hawari by contrast are increasingly dominated by commercial and industrial activity This medieval urban maze of extremely short broken zigzag streets and dead ends are defensible territories powerful institutions and important social systems While the hawari have been studied as an exemplar for urban structure of medieval Islamic urbanism and as individual building typologies this book is the first to examine in detail the socio spatial practice of the architecture of home in the city It investigates how people live communicate and relate to each other within their houses or shared spaces of the alleys and in doing so to uncover several new socio spatial dimensions and meanings in this architectural form In an attempt to re establish the link between architecture past and present and to understand the changing social needs of communities this book uncovers the notion of home as central to understand architecture in such a city with long history as Cairo It firstly describes the historical development of the domestic spaces indoor and outdoor and provides an inclusive analysis of spaces of everyday activities in the hawari of old Cairo It then broadens its analysis to other parts of the city highlighting different customs and representations of home in the city at large Cairo in the context of this book is represented as the most sophisticated urban centre in the Middle East with different and sometimes contrasting approaches to the architecture of home as a practice and spatial system In order to analyse the complexity and interconnectedness of the components and elements of the hawari as a collective home it layers its narratives of architectural and social developments as a domestic environment over the past two hundred years and in doing so explores the in depth social meaning and performance of spaces both private and public
