Public Access to Art in Paris: A Documentary History from the Middle Ages to 1800, 1999 **Virgilian Identities in the French Renaissance** Phillip John Usher, Isabelle Fernbach, 2012 Virgil's works principally the *Bucolics* the *Georgics* and above all the *Aeneid* were frequently read translated and rewritten by authors of the French Renaissance The contributors to this volume show how readers and writers entered into a dialogue with the texts using them to grapple with such difficult questions as authorial political and communitarian identities It is demonstrated how Virgil's works are more than Ancient models to be imitated They reveal themselves instead to be part of a vibrant moment of exchange central to the definition of literature at the time Back cover **King and the City in the Parisian Royal Entry Ceremony : (the)** Lawrence McBride Bryant, 1986 French Ceremonial Entries in the Sixteenth Century Hélène Visentin, Nicolas Russell, 2007 The articles in this volume use a variety of disciplinary approaches to examine texts and archival documents recording sixteenth century French ceremonial entries By their very nature ceremonial entries require such an approach they bring together a number of artistic media including music architecture and literature and a range of political concerns like international diplomacy and the relations between urban and royal power Few cultural constructs offer such rich and varied terrain to the student of sixteenth century France The primary purpose of this collection is therefore to reflect upon salient aspects of ceremonial entries that may help us to understand how this ritual performed its complex and multidimensional cultural intellectual historical and political work in order to cast a new light on French society in the early modern period *Paris City Councillors in the Sixteenth-Century* Barbara B. Diefendorf, 2014-07-14 This book examines the character of the governing elite of sixteenth century Paris a group that included some of the most important jurists administrators and intellectuals of the early modern French state and investigates the strategies employed by members of this group to promote and maintain their position in the city and in the monarchy Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Reveries of Community* Katherine Maynard, 2017-12-15 *Reveries of Community* reconsiders the role of epic poetry during the French Wars of Religion the series of wars between Catholics and Protestants that dominated France between 1562 and 1598 Critics have often viewed French epic poetry as a casualty of these wars arguing that the few epics France produced during this conflict failed in power and influence compared to those of France's neighbors such as Italy's *Orlando Furioso* England's *Faerie Queene* and Portugal's *Os Lusadas* Katherine S Maynard argues instead that the wars did not hinder epic poetry but rather French poets responded to the crisis by using epic poetry to reimagine France's present

and future Traditionally united by *une foi une loi un roi* one faith one law one king France under Henri IV was cleaved into warring factions of Catholics and Huguenots The country suffered episodes of bloodshed such as the St Bartholomew's Day Massacre even as attempts were made to attenuate the violence through frequent edicts including those of St Germain 1570 and Nantes 1598 Maynard examines the rich and often dismissed body work written during these bloody decades Pierre de Ronsard's *Franciade* Guillaume Salluste Du Bartas's *La Judit* and *La Sepmaine* Sbastian Garnier's *La Henriade* Agrippa d'Aubign's *Les Tragiques* and others She traces how French poets taking classics such as Virgil's *Aeneid* and Homer's *Iliad* as their models reimagined possibilities for French reconciliation and unity *Astraea* - Yates Frances A. Yates, 2013-10-15 This is Volume V of selected works of Frances A Yates *Astraea* looks at the Imperial theme in the sixteenth century and includes Charles V and the idea of Empire to the Tudor Imperial Reform and the French Monarchy **The Theatre of Death** Jennifer Woodward, 1997 English royal funeral ceremony from Mary Queen of Scots to James I gives fascinating insight into the relationship between power and ritual at the renaissance court **The Cambridge Companion to Renaissance Humanism** Jill Kraye, 1996-02-23 From the fourteenth to the seventeenth century humanism played a key role in European culture Beginning as a movement based on the recovery interpretation and imitation of ancient Greek and Roman texts and the archaeological study of the physical remains of antiquity humanism turned into a dynamic cultural programme influencing almost every facet of Renaissance intellectual life The fourteen essays in this 1996 volume deal with all aspects of the movement from language learning to the development of science from the effect of humanism on biblical study to its influence on art from its Italian origins to its manifestations in the literature of More Sidney and Shakespeare A detailed biographical index and a guide to further reading are provided Overall The Cambridge Companion to Renaissance Humanism provides a comprehensive introduction to a major movement in the culture of early modern Europe Literary History of Canada Carl F.
