## Paris Et Les Naifs:

**Paris Et Les Naifs /Katou Fournier and Jacques Lehmann ; Preface by Paul Guth** Katou Fournier, Jacques Lehmann, 1983     *All Our Cats* Katou Fournier, Jacques Lehmann, 1985     **Origins of Impressionism** Gary Tinterow, Henri Loyrette, 1994 This handsome publication which accompanies a major exhibition at The Metropolitan Museum of Art is a lively and engaging account of the artistic scene in Paris in the 1860s the years that witnessed the beginnings of Impressionism For the first time the interactions and relationships among the group of painters who became known as the Impressionists are examined without the overworn art historical polarities commonly evoked academic versus avant garde classicist versus romantic realist versus impressionist A host of strong personalities contributed to this history and their style evolved into a new way of looking at the world These artists wanted above all to give an impression of truth and to have an impact on or even to shock the public And they wanted to measure up to or surpass their elders This complex and rich environment is presented here the grand old men and the young turks encounter each other the Salon pontificates and the new generation moves fitfully ahead benignly but always with determination *Origins of Impressionism* gives a day by day year by year study of the genesis of an epoch making style Bibliographies and provenances are provided for each of the almost two hundred works in the exhibition and there is an illustrated chronology With more than two hundred superb colorplates this informative survey is an essential work for both the general reader and the scholar **BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved**     ,     Twentieth Century British Naïve and Primitive Artists Eric Lister, Sheldon Williams, 1977     **Reading Baudelaire's Le Spleen de Paris and the Nineteenth-Century Prose Poem** Seth Whidden, 2022 A study of Charles Baudelaire's *Le Spleen de Paris* 1859 that explores how the practice of reading prose poems might be different from reading poetry in verse It illustrates how Baudelaire wrote texts that he considered poems and how this form shows aspects of his poetic modernity     *Daedalus* Edward Falkener, 1860 The author's detailed descriptions of many Greek temples and sculpture and how they were created     The Semantics of Doublets Studied in Old and Middle French Albert Douglas Menut, 1922     **Giacomo Meyerbeer and Music Drama in Nineteenth-Century Paris** Mark Everist, 2023-04-28 Nineteenth century Paris attracted foreign musicians like a magnet The city boasted a range of theatres and of genres represented there a wealth of libretti and source material for them vocal orchestral and choral resources to say nothing of the set designs scenery and costumes All this contributed to an artistic environment that had musicians from Italian and German speaking states beating a path to the doors of the Académie Royale de Musique Opéra Comique Théâtre Italien Théâtre Royal de l'Opéra and Théâtre de la Renaissance This book both tracks specific aspects of this culture and examines stage music in Paris through the lens of one of its most important figures Giacomo Meyerbeer The early part of the book which is organised chronologically examines the institutional background to music drama in Paris in the nineteenth century and introduces two of Meyerbeer's Italian operas that were of importance for

his career in Paris Meyerbeer's acculturation to Parisian theatrical mores is then examined especially his moves from the Opéra-Comique to the opera house where he eventually made his greatest impact the Académie Royale de Musique the shift from Opéra-Comique is then counterpointed by an examination of how an indigenous Parisian composer Fromental Halévy made exactly the same leap at more or less the same time The book continues with the fates of other composers in Paris Weber Donizetti Bellini and Wagner but concludes with the final Parisian successes that Meyerbeer lived to see his two opéras comiques

**Baudelaire's Le Spleen de Paris** Maria C. Scott, 2017-09-29 Maria Scott's study of the operation of irony in Baudelaire's *Le Spleen de Paris* contends that the principal target of the collection's spleen is its own readership Baudelaire as one of the most perceptive cultural commentators of the nineteenth century was naturally very keenly aware of the growing dominance of the bourgeoisie in France not least as a market for art and literature Despite being dependent on this market for his own writing the poet was highly critical of bourgeois values and attitudes Scott builds on existing criticism of the collection to argue that these are indirectly mocked in *Le Spleen de Paris* often in the person of the poet's supposed textual alter ego The contention is that the prose poems betray the trust of readers by way of an apparent transparency of meaning that functions to blind us to their embedded irony Though focused on *Le Spleen de Paris* Scott's study engages with the full range of Baudelaire's writings including his art and literary criticism Her book will be of interest not only to

Baudelaire scholars but also to those engaged more generally with nineteenth century French culture

**Odd Man Out** Carol M. Armstrong, 2003 In *Odd Man Out* Carol Armstrong offers an important study of Edgar Degas's work and reputation Armstrong grapples with contradictory portrayals of Degas as odd man out within the modernist canon he was a realist whom realists rejected a storyteller in pictures who did not satisfy novelist critics a painter of modern life who was not a modernist a member of the impressionist group who was no impressionist Armstrong confronts these and other paradoxes by analyzing the critical vocabularies used to describe Degas's work By reading several groups of the artist's images through the lens of a sequence of critical texts Armstrong shows how our critical and popular expectations of Degas are overturned and subverted This is a reprint of the book first published by the University of Chicago Press in 1991

**Mallarmé Wagner: Music and Poetic Language** Heath Lees,2017-07-05 This book challenges and replaces the existing view of Mallarm mission to re possess music on behalf of poetic language Traditionally this view focused on only the last fifteen years of the poet s life and sprang from a belief in Mallarm sudden awakening to music during an all Wagner concert in Paris in 1885 Professor Heath Lees shows that Mallarm early knowledge and experience of music was much greater than commentators have realized and that the French poet actually began his writing career with the explicit aim of making music s performance language of effect the ground of his poetic expression Integral to the argument is Mallarm reaction to the work and ideas of Richard Wagner whose impact on France came in two waves the first broke during the tempestuous 1860s days of the Paris Tannh user while the second arrived in the mid 1880s and gave birth to the Revue Wagn enne In refuting the critical literature that focuses on only the second of these waves Lees shows that Mallarm xhibited a highly informed Wagnerian background during the first wave and that his grasp of the composer s gestural motives and flexible musical prose led him towards a new kind of self

expressive gestural rhythm that aimed musically to reinvent poetic language In support of this the book examines closely what Wagner really said in the prose works that were becoming known in Paris by the 1860s in particular Wagner's important French text the *Lettre sur la musique* It also re-examines Baudelaire's classic Wagner brochure and reveals its author's surprisingly firm grasp of Wagner's musico-poetic fusion In musically informed commentary Professor Lees surveys the four decades of success and failure that resulted from Mallarmé repeated attempts to draw out the musical gestures and resonances of words alone In the process he throws new light on many of Mallarmé best known texts hitherto judged difficult by those who have failed to

**Modernity and Nostalgia** Romy Golan, 1995-01-01 Golan argues that reactionary issues such as anti-urbanism the return to the soil regionalism corporatism xenophobia and doubts about the new technology became central to cultural and art historical discourse Focusing on the overlap of avant-garde and middle of the road production she investigates the import of these issues not only in painting sculpture and architecture concentrating on the work of Leger Picasso Le Corbusier Ozenfant Derain the Surrealists and the so-called naïfs but also in the decorative arts in the spectacle of world and colonial fairs and in literature Throughout she finds evidence that artists turned from the aesthetics of the machine age toward a more organic naturalistic art This leads her to ask whether the famous and momentous shift of the avant-garde from Paris to New York in 1939 did not in fact begin two decades earlier in 1918
