Paris Journal 19371939:

Paris 1937 James D. Herbert, 2018-10-18 This elegant and theoretically informed book illustrated with forty five photographs explores the cultural significance of six exhibitions or new museum installations all opening in Paris between mid 1937 and early 1938 the commercially oriented world's fair titled L'Exposition Internationale des Arts et Techniques, the historical Musée des Monuments Français, the ethnographic Musée de l'Homme, two massive art retrospectives, one sponsored by the state of France and the other by the municipality of Paris, and L'Exposition Internationale du Surréalisme. James D. Herbert capitalizes on the proximity of these disparate exhibits to show how they competed with and yet also complemented one another in visually rendering the full scope of human accomplishment through time and across the globe. In this task, Herbert argues, they both succeeded and failed in interesting and productive ways. He asserts that the exhibitions projected and in a sense created precisely through the act of projection the real world that they ostensibly only represented. In fact, Herbert argues, the exhibitions developed a particular sense of French national identity, one that in managing to be at the same moment both inwardly focused and beneficently expansive would present a vivid contrast to the growing German nationalism of the Third Reich. His epilogue takes a final look at these issues from the perspective of Jean Cocteau's 1950 film *Orphée*. A ground-breaking work in cultural history, *Paris 1937* with its insightful examination of objects from a variety of fields is a pioneering text in the field of visual studies.

Guernica! Guernica! Herbert Southworth, 2023-09-01 *Guernica: Guernica: A Study of Journalism, Diplomacy, Propaganda, and History* offers a riveting exploration of one of the most infamous events of the Spanish Civil War, the bombing of Guernica on April 26, 1937. Through meticulous research and an incisive critique of historical narratives, Southworth unpacks not only the event itself but also the layers of controversy, propaganda, and misinformation that have surrounded it for decades. His work shines a light on how journalism, political agendas, and historical memory converge to shape our understanding of such tragedies. Southworth approaches his subject with a passion for uncovering truth amid the fog of war and propaganda. He delves into primary sources, including press dispatches, diplomatic archives, and firsthand accounts, while scrutinizing the mechanisms of censorship and misinformation. The book is structured in two major parts: *The Event*, which examines the facts surrounding the destruction of Guernica, and *The Controversy*, which traces the enduring debates and manipulations that have kept this tragedy at the forefront of historical and political discourse. As Southworth reveals, Guernica was not just a military event but a symbolic one, reverberating globally as a testament to the horrors of modern warfare and the power of propaganda. This work is a masterful combination of historical scholarship and media analysis, offering profound insights into the complexities of documenting and interpreting history. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This
