Paris to the Moon Adam Gopnik, 2001-12-18 Paris The name alone conjures images of chestnut lined boulevards sidewalk cafés breathtaking faades around every corner in short an exquisite romanticism that has captured the American imagination for as long as there have been Americans In 1995 Adam Gopnik his wife and their infant son left the familiar comforts and hassles of New York City for the urbane glamour of the

City of Light Gopnik is a longtime New Yorker writer and the magazine has sent its writers to Paris for decades but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens to enjoy a croque monsieur in a Left Bank caf a child and perhaps a father too who would have a grasp of that Parisian sense of style we Americans find so elusive So in the grand tradition of the American abroad Gopnik walked the paths of the Tuileries enjoyed philosophical discussions at his local bistro wrote as violet twilight fell on the arrondissements Of course as readers of Gopnik s beloved and award winning Paris Journals in The New Yorker know there was also the matter of raising a child and carrying on with day to day not so fabled life Evenings with French intellectuals preceded middle of the night baby feedings afternoons were filled with trips to the Mus e d Orsay and pinball games weekday leftovers were eaten while three star chefs debated a culinary crisis As Gopnik describes in this funny and tender book the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys both hold new routines new languages a new set of rules by which everyday life is lived With singular wit and insight Gopnik weaves the magical with the mundane in a wholly delightful often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century We went to Paris for a sentimental reeducation I did anyway even though the sentiments we were instructed in were not the ones we were expecting to learn which I believe is why they call it an education

The Flaneur Edmund White, 2015-11-24 A flaneur is a stroller a loiterer someone who ambles through city streets in search of adventure and fulfillment Edmund White who lived in Paris for sixteen years wanders through the streets and avenues and along the quays into parts of Paris virtually unknown to visitors and indeed to many Parisians In the hands of the learned White a walk through Paris is both a tour of its lush sometimes prurient history and an evocation of the city s spirit The Flaneur leads us to bookshops and boutiques monuments and palaces giving us a glimpse the inner human drama Along the way we learn everything from the latest debates among French lawmakers to

the juicy details of Colette's life Originally published as part of Bloomsbury's *Writer and the City* series this book has sold consistently over the years and will find a whole new audience in paperback

The Black Populations of France Sylvain Pattieu, Emmanuelle Sibeud, Tyler Stovall, 2022-02 *The Black Populations of France* is a study of Black peoples and their history in France and the French Empire during the modern era from the eighteenth century to the present The contributors to this collection explore three main axes The first addresses circulations the ways Black populations have moved through the spaces of metropolitan France and the empire and focuses on the actors themselves and the margins of maneuver available to them particularly as soldiers sailors immigrants or political militants The second considers legacies and the ways the past has informed the present addressing themes such as the memory of slavery the histories of Black women and gender and the historical influence of African Americans on Blacks in France The final axis considers racial policy and the ways the state has shaped racial discourses through the interactions between state policies and ideas of race developed by individuals organizations and communities *The Black Populations of France* makes an important contribution to both modern French history and the history of the global Black diaspora By putting these histories in dialogue with each other it underscores the central place of France in world history

Empire lost Elisabeth Mudimbe-Boyi, 2009-03-16 Despite the loss of the French Empire France and its former colonies are still bound by a common historical past With the new global promotion of *la Francophonie* the relation between the various constituencies of the French speaking regions of the world is reexamined and debated in this book through the conversation between scholars dealing with diverse texts and contexts that present the colonial contact and its imprint The book illustrates how in France and in its other worlds that contact its repercussions and its memory are lived and expressed today in a variety of textual representations The historical contact between France and its other worlds has given birth to new kinds of cross cultural expressions in the arts in literature and in aesthetics establishing interrelations and generating appropriations from both sides of the Hexagon frontier highlighting the fluidity and the permeability of its cultural borders The book subtext tells that the frontier between France and its other worlds is no more an unshakable geographical political and cultural limit but rather a line that has become mobile fluctuating and permeable and across which currents ideas sensitivities and creativity are expressed bearing testimony to vitality and diversity but also to a cross fertilization of cultures and societies re crossing or meeting at that line Seen from this latter perspective the book comes also as an interrogation of the inclusiveness or exclusiveness of the words *francophone* and *Francophonie* and at an academic level a mutual exclusion of French and Francophone Studies
