Summer of Love Christoph Grunenberg, Jonathan Harris, Jonathan P. Harris, 2005-01-01 Though more than a generation has passed since the revolutionary fervor of the Summer of Love of 1967 the 1960s in many ways seem with us still From recurring debates over the war in Vietnam to the perpetually appealing music of the Beatles and the Rolling Stone to the concern about youth drug use the legacy of the 1960s is ubiquitous in contemporary life The Summer of Love brings together an impressive group of historians artists and cultural critics to present a rich and varied interpretation of this seminal decade and its continuing influence on politics society and culture The Summer of Love which accompanies an exhibition at Tate Liverpool pays particular attention to the wildly creative psychedelic art of the era Perceptive essays on psychedelic comics graphic design and typography light shows and film successfully rescue psychedelic art from the fog of nostalgia and unjust critical neglect Distinguished contributors also explore the role of 1960s fashion and architecture and they consider anew the central influence of hallucinogenic drugs on the art of the era Running throughout the essays are the elements of epochal change from sexual liberation to student revolutions that still form the backdrop of our collective consciousness of the 1960s An incisive collection of writings on all aspects of 1960s art and culture tempered by time and critical distance The Summer of Love will be indispensable for those who wish they had been there or for those who were but can t remember it

Uneasy Alliance Hans Bak, 2004 Uneasy Alliance illuminates the recent search in literary studies for a new interface between textual and contextual readings Written in tribute to G A M Janssens the twenty one essays in the volume exemplify a renewed awareness of the paradoxical nature of literary texts both as works of literary art and as documents embedded in and functioning within a writer s life and culture Together they offer fresh and often interdisciplinary perspectives on twentieth century American writers of more or less established status Henry James Edna St Vincent Millay E E Cummings Vladimir Nabokov Flannery O Connor Saul Bellow Michael Ondaatje Toni Morrison and Sandra Cisneros as well as on those who for reasons of fashion politics ideology or gender have been unduly neglected Booth Tarkington Julia Peterkin Robert Coates Martha Gellhorn Isabella Gardner Karl Shapiro the young Jewish American writers Julia Alvarez and writers of popular crime and detective fiction Exploring the fruitful interactions and uneasy alliance between literature and ethics film biography gender studies popular culture avant garde art urban studies anthropology and multicultural studies together these essays testify to the ongoing pertinence of an approach to literature that is undogmatic sensitive and sophisticated and that seeks to do justice to the complex interweavings of literature culture and biography in twentieth century American The Rough Guide to Paris James McConnachie, Ruth Blackmore, 2012-05-04 Full colour throughout The Rough writing Guide to Paris is the ultimate travel guide to one of Europe's most elegant cities With 30 years experience and our trademark tell it like it is writing style Rough Guides cover all the basics with practical on the ground details as well as unmissable alternatives to the usual must see sights At the top of your to pack list and guaranteed to get you value for money each guide

comprehensive understanding not only of the significance of the tetralogy in exposing a complex and multi layered novelistic strategy at the heart of the vianesque but of the individual novels as autonomous creations An examination of the novels reveals that they are not merely joined to one another via a superficial network of textual similarities that which I refer to as intratextuality but that this intertwining is emblematic of a common method of narrative construction Each Vian novel is dependent for a thorough understanding of the text to be possible upon the multiple lines of external influence running through it The sources of this influence which I refer to as intertextuality are located in various major texts of twentieth century literature anglophone as well as francophone Thus in each instance the narrative is driven by a complicated interaction of intratextuality and intertextuality Frantz Fanon David Macey, 2012-11-13 Born in Martinique Frantz Fanon 1925 61 trained as a psychiatrist in Lyon before taking up a post in colonial Algeria He had already experienced racism as a volunteer in the Free French Army in which he saw combat at the end of the Second World War In Algeria Fanon came into contact with the Front de Lib ration Nationale whose ruthless struggle for independence was met with exceptional violence from the French forces He identified closely with the liberation movement and his political sympathies eventually forced him out the country whereupon he became a propagandist and ambassador for the FLN as well as a seminal anticolonial theorist David Macey's eloquent life of Fanon provides a comprehensive account of a complex individual s personal intellectual and political development It is also a richly detailed depiction of postwar French culture Fanon is revealed as a flawed and passionate humanist deeply committed to eradicating colonialism Now updated with new historical material Frantz Fanon remains the definitive biography of a truly revolutionary thinker **Lefebvre, Love and Struggle** Rob Shields, 2005-07-22 In the only comprehensive guide to Lefebvre s work Rob Shields draws on the full range of Lefebvre s writings including many previously untranslated and unpublished works and correspondence This Is the Beat Generation James Campbell, 2001-11-19 In New York in 1944 Campbell finds the leading members of what was to become the Beat Generation in the shadows of madness and criminality Jack Kerouac Allen Ginsberg and William Burroughs had each seen the insides of a mental hospital and a prison by the age of 30 This book charts the transformation of these experiences into literature and a literary movement that spread across the globe 35 photos **Useless Activity** Christopher Webb,2022-07-01 Using a broad range of archival material from Washington University St Louis the University of Glasgow and the British Library Useless Activity Work Leisure and British Avant Garde Fiction 1960 1975 is the first study to ask why the experimental writing of the 1960s and 1970s appears so fraught with anxiety about its own uselessness before suggesting that this very anxiety was symptomatic of a unique period in British literary history when traditional notions about literary work and what worked in terms of literature were being radically scrutinised and reassessed The study is divided into five chapters with three of those dedicated to the close analysis of work produced by three writers representative of the 1960s British avant garde Eva Figes 1932 2012 B S Johnson 1933 1973 and Alexander Trocchi 1925 1984 The book argues that these writers preoccupations with concepts related to work such as leisure debt and various forms of neglected labour like housework allow us to rethink the British avant garde s relation to realism while posing broader questions about the production and value of post war literary avant gardism more generally Useless Activity proposes that only with an understanding of the British avant garde s engagement with the idea of work and its various corollaries can we appreciate these writers move away from certain forms of literary realism and their contribution to the development of the modern British novel during the mid twentieth century

From Dreams to Despair I K L Scott, 2023-12-18 This book is a study of the novels of Boris Vian the artist writer jazz musician and occasional pornographer Primarily known for his classic novel of doomed young love L Ecume des jours and the pseudonymously written erotic roman noir J irai cracher sur vos tombes his work displays a bewildering variety of styles genres and narrative voices The purpose of this book is to show that Vian's novels in fact display an overall thematic coherence dramatizing the growth of the individual from childhood to adolescent idealism and ultimate adult disillusion Vian is a highly popular author in France this book seeks to prove that he is also a serious literary artist The wordplay pastiche and parody which fill his texts should not blind the reader to the deeper themes and issues which lie behind them just as the protean character of his style should not be allowed to conceal the single integrated narrative which runs throughout his The New Black History E. Hinton, 2016-04-30 The New Black History anthology presents cutting edge scholarship novels on key issues that define African American politics life and culture especially during the Civil Rights and Black Power eras The volume includes articles by both established scholars and a rising generation of young scholars Cowlishaw, Barry Morris, 1997 Annotation pending Encyclopedia of Blacks in European History and Culture Eric Martone, 2008-12-08 Blacks have played a significant part in European civilization since ancient times This encyclopedia illuminates blacks in European history literature and popular culture It emphasizes the considerable scope of black influence in and contributions to European culture The first blacks arrived in Europe as slaves and later as laborers and soldiers and black immigrants today along with others are transforming Europe into multicultural states This indispensable set expands our knowledge of blacks in Western civilization More than 350 essay entries introduce students and other readers to the white European response to blacks in their countries the black experiences and impact there and the major interactions between Europe and Africa the Caribbean and the United States that resulted in the settling of blacks in Europe The range of information presented is impressive with entries on noted European political literary and cultural figures of black descent from ancient times to the present major literary works that had a substantial impact on European perceptions of blacks black holidays and festivals the struggle for civil equality for blacks the role and influence of blacks in contemporary European popular culture black immigration to Europe black European identity and much more Offered as well are entries on organizations that contributed to the development of black political and social rights in Europe representations of blacks in European art and cultural symbols and European intellectual and scientific theories on blacks Individual entries on Britain

Spain Portugal France Italy Germany the Netherlands Russia Central Europe Scandinavia and Eastern Europe include historical overviews of the presence and contributions of blacks and discussion of country's role in the African slave trade and abolition and its colonies in Africa and the Caribbean Suggestions for further reading accompany each entry A chronology resource guide and photos complement the text **In Search of Power** Brenda Gayle Plummer, 2013 In Search of Power is a history of the era of civil rights decolonization and Black Power In the critical period from 1956 to 1974 the emergence of newly independent states worldwide and the struggles of the civil rights movement in the United States exposed the limits of racial integration and political freedom Dissidents leaders and elites alike were linked in a struggle for power in a world where the rules of the game had changed Brenda Gayle Plummer traces the detailed connections between African Americans involvement in international affairs and how they shaped American foreign policy integrating African American history the history of the African Diaspora and the history of United States foreign relations These topics usually treated separately not only offer a unified view of the period but also reassess controversies and events that punctuated this colorful era of upheaval and change London Art Worlds Jo Applin, Catherine Spencer, Amy Tobin, 2017-12-14 The essays in this collection explore the extraordinarily rich networks of international artists and art practices that emerged in and around London during the 1960s and 70s a period that saw an explosion of new media and fresh attitudes and approaches to making and thinking about art The contributors to London Art Worlds examine the many activities and movements that existed alongside more established institutions in this period from the rise of cybernetics and the founding of alternative publications to the public protests and new pedagogical models in London's art schools. The essays explore how international artists and the rise of alternative venues publications and exhibitions along with a growing mobilization of artists around political and cultural issues ranging from feminism to democracy pushed the boundaries of the London art scene beyond the West End s familiar galleries and posed a radical challenge to established modes of making and understanding art Engaging wide ranging and original London Art Worlds provides a necessary perspective on the visual culture of the London art scene in the 1960s and 70s Art historians and scholars of the era will find these essays especially valuable and thought provoking In addition to the editors contributors to this volume are Elena Crippa Antony Hudek Dominic Johnson Carmen Juli Courtney J Martin Lucy Reynolds Joy Sleeman Isobel Whitelegg and Andrew Wilson Richard Wright in a Post-Racial Imaginary Alice Craven, William Dow, Yoko Nakamura, 2014-07-31 In African American fiction Richard Wright was one of the most significant and influential authors of the twentieth century Richard Wright in a Post Racial America analyses Wright's work in relation to contemporary racial and social issues bringing voices of established and emergent Wright scholars into dialogue with each other The essays in this volume show how Wright's best work asks central questions about national alienation as well as about international belonging and the trans national gaze Race is here assumed as a superimposed category rather than a biological reality in keeping with recent trends in African American studies Wright's fiction and almost all of his non fiction

lift beyond the mainstays of African American culture to explore the potentialities and limits of black trans nationalism Wright's trans native status his perpetual outsidedness mixed with the essential humanness of his activist and literary efforts are at the core of the innovative approaches to his work included here
