Parishes, Tithes, and Society in Earlier Medieval Poland C. 1100-C. 1250 Piotr Gorecki, 2008 In 1226 Pope Honorius III resolved a conflict between the Duke of Silesia Henry I the Bearded Bishop Lawrence of Wroclaw the see of that duchy Henry alleged that the bishop had subjected the inhabitants of his duchy to unowed exactions levied as tithes Henry alleged a devastating impact of Lawrence s demands on settlement in his duchy on his authority over its inhabitants implicitly on the entire social economic political order over which he presided This is a study of the period in which parish churches tithe revenues are documented Identifies those features of local churches tithing that were routine innovative controversial Assesses directions of change during the period of documentation Illustrations *Parishes, Tithes, and Society in Earlier Medieval Poland, C. 1100-c. 1250* Piotr Górecki, 1993 In 1226 Pope Honorius III resolved a conflict between the Duke of Silesia Henry I the Bearded Bishop Lawrence of Wroclaw the see of that duchy Henry alleged that the bishop had subjected the inhabitants of his duchy to unowed exactions levied as tithes Henry alleged a devastating impact of Lawrence s demands on settlement in his duchy on his authority over its inhabitants implicitly on the entire social economic political order over which he presided This is a study of the period in which parish churches tithe revenues are documented Identifies those features of local churches tithing that were routine innovative controversial Assesses directions of change during the period of documentation Illustrations **Medieval Canon Law** James A Brundage, 2014-06-11 It is impossible to understand how the medieval church functioned and in turn influenced and controlled the lay world within its care without understanding the development character and impact of canon law its own distinctive law code However important this can seem a daunting subject to non specialists They have long needed an attractive but authoritative introduction avoiding arid technicalities and setting the subject in its widest context James Brundage s marvellously fluent and accessible book is the perfect answer it will be warmly welcomed by medievalists and students of ecclesiastical and legal history Reports and Papers Read at the Meetings of the Architectural Societies of the Archdeaconry of Northampton, the Counties of York and Lincoln (etc.) , The Edinburgh Review , 1863 History Society Church Derek Beales, Geoffrey Best, 2005-11-03 Essays by distinguished historians in honour of the just retired Regius Professor of Modern History Episcopal Power and Ecclesiastical Reform in the German Empire John Eldevik, 2012-08-06 This book explores how bishops used the medieval tithe as a social and political tool in eleventh century Germany and Italy *The Reformation and Rural Society* C. Scott Dixon, 2002-05-02 What was the effect of the Reformation movement on the parishioners of the German countryside This book examines the reform movement at the level of its implementation the rural parish Investigation of the Reformation and the sixteenth century parish reveals the strength of tradition and custom in village life and how this parish culture obstructed and frustrated the efforts of the Lutheran reformers The Reformation was not passively adopted by the rural inhabitants On the contrary the parishioners manipulated the reform movement to serve their own ends Parish documentation reveals that

the system of parish rule diffused the disciplinary aims of the church and rendered the pastors impotent A look at parish beliefs suggests that the nature of parish thought worked to undermine the main tenets of the Lutheran faith and that the legacy of the Reformation was a dialogue between these two realms of experience Religion, Politics and Society in Britain, 800-1066 A E Redgate, 2014-03-05 Using a comparative and broad perspective Religion Politics and Society in Britain 800 1066 draws on archaeology art history material culture texts from charms to chronicles from royal law codes to sermons to poems and other evidence to demonstrate the centrality of Christianity and the Church in Britain 800 1066 It delineates their contributions to the changes in politics economy society and culture that occurred between 800 and 1066 from nation building to practicalities of government to landscape The period 800 1066 saw the beginnings of a fundamental restructuring of politics society and economy throughout Christian Europe in which religion played a central role In Britain too the interaction of religion with politics and society was profound and pervasive There was no part of life which Christianity and the Church did not touch they affected belief thought and behaviour at all levels of society This book points out interconnections within society and between archaeological art historical and literary evidence and similarities between aspects of culture not only within Britain but also in comparison with Armenian Christendom A E Redgate explores the importance of religious ideas institutions personnel and practices in the creation and expression of identities and communities the structure and functioning of society and the life of the individual This book will be essential reading for students of early medieval Britain and religious and social history Oxfordshire Record Society ,1926 **The Edinburgh Review, Or Critical Journal: ... managed chiefly in the eastern half of the island to bring in improvements By the end of the 16th century a Government had been established with a system of central administration based on Dublin and local government and administration based on shires or counties under sheriffs Ireland might have developed into a centrally managed state with regular parliaments and systems of courts as the old ways were abandoned and forgotten Unfortunately a civil war broke out in England which became mirrored in Ireland In Ireland in addition the civil disputes between the king and the English Parliament were complicated by religious disputes Ireland became polarized on sectarian lines Though a peace of sorts was established after the restoration of the monarchy in 1660 the sectarian struggle broke out again at the end of the century Both sides sought the help of foreign armies and the Protestant armies proved victorious The Catholics paid the inevitable penalty This might have been confined to the history books if the Catholics largely financed from the United States in the 19th century tried to recover their dominance through political and violent means Mission Life ,1870
