Park Guell Gaudi:

Park Güell José María Carandell, 2022 **Park Guell** Conrad Kent, Dennis Prindle, 1993 Formatted as a companion volume to Casa Malaparte and The Danteum this book is a lucid analysis of Park Guell Antonio Gaudi's beguiling creation in Barcelona The researched text is complemented by both archival and contemporary photographs measured drawings and a selection of color plates **Gaudí of Barcelona** L. Permanyer, 2011 Color in architecture must be intense logical and fertile wrote Catalan architect and designer Antoni Gaud in his diary in the late 1870s Known for his sensuous curving almost surreal Art Nouveau buildings Gaud 1852-1926 is today one of the best known architects in the world Within four decades he designed a large body of works including apartment houses private residences park complexes and religious and secular institutions most of which were erected in or around Barcelona Gaud's organic structures undulating tiled roofs pinnacles and towers that rise like plants or tentacles chimneys that take on phantasmagoric shapes and colors are all illustrated here accompanied by plans and drawings that provide a clear picture of Gaud's structural innovations Lluís Permanyer places the architect's work within the context of Catalan and wider European developments of the time but he also describes the extremely personal mystical impetus that was at the core of Gaud's invention For those already familiar with the architect's work the magnificent photographs taken by Melba Levick full of details will prove a revelation for those just discovering Gaud this book is the next best thing to experiencing the buildings themselves Gaudí, 1852-1926 Rainer Zerbst, 2005 Gaud's complete works The inspiring visionary buildings by the Dante of architecture Anyone who visits Barcelona today will come across the works of Antoni Gaud the architect who has attracted art lovers from all over the world to Spain It was here in the capital of Catalonia that the famous master of architecture produced nearly all of his works including villas for the well to do bourgeoisie the expansive Güell Park which today is open to the public and the famous church designed in honour of the Holy Family a project which was begun over 100 years ago and has yet to be completed Antoni Gaud's life was full of contradictions As a young man he joined the Catalan nationalist movement and was critical of the church toward the end of his life he devoted himself completely to the construction of one single church As a young man Gaud had a liking for the glamour of social life and the looks of a dandy in old age on the other hand he lived a spartan life Gaud never married and devoted his life entirely to his art architecture His works have been acclaimed as soothing oases in a desert of functional buildings as precious gems in the uniform grey of rows of houses and the master himself was acclaimed as the Dante of architecture This book provides a sweeping study of his entire career presenting his complete works via texts and illustrations **Gaudi** Gijs van Hensbergen, 2003-11-04 At the time of his death in 1926 Antoni Gaud was arguably the most famous architect in the world He had created some of the greatest and most controversial masterpieces of modern architecture which were as exotic as they were outrageous But little is known about the shadowy figure behind the swirling vivid buildings that inspired the Surrealists This masterful biography brings both man and architect powerfully to life against

the changing backdrop of Barcelona and Catalonia Gijs van Hensbergen leads us through the design and construction of Gaudí's most significant buildings revealing their innovation and complexity and demonstrating the growing relevance of Gaudí's architecture today **Antoni Gaudí** Judith Carmel-Arthur,1999 Antoni Gaudí was among the greatest architects of the modern age In his lifetime Gaudí pushed the architectural craft to its limits mastering ever steeper curves and creating some of the world's most magical and sensual buildings Illustrated with over 50 color images of his creations including the massive Cathedral of the Sagrada Família the Park Güell Casa Milà and Casa Batlló this book celebrates Gaudí's inimitable talent in vivid detail BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Antoni Gaudí, 1852-1926 Juan José Lahuerza,2003 Antoni Gaudí 1852-1928 was a builder by instinct and by practice fanciful and baroque in his sensibility in love with the bright colours and plastic forms of the Mediterranean tradition Despite his considerable contributions Gaudí was an isolated figure in the architecture of the modern era Critics were slow to recognize the prophetic value of his work owing to the difficulty in reconciling it with the development of the Modern Movement Gaudí invented a new form of modernism that combined elements of art nouveau Catalan nationalism Gothic Revival and his own relentlessly original imagination His eclectic experience was made possible by special historical circumstances such as the economic prosperity of Barcelona and the existence of highly skilled craftsmen in Catalonia This volume covers Gaudí's work in systematic fashion from the Güell Palace to the park of the same name and finally to his unfinished masterpiece the church of the Sagrada Família Author Juan José Lahuerza devotes an attentive critical re-examination of the architect's work through a thorough analysis of his designs and writings *Barcelona and Modernity* William H.
