Charlie Parker, Composer Henry Martin, 2020 Charlie Parker Composer is the first assessment of a major jazz composer's oeuvre in its entirety Providing analytical discussion of each of Parker's works this study combines music theoretical historical and philosophical perspectives A variety of analytical techniques are brought to bear on Parker's compositions including application of a revised Schenkerian approach to the music that was developed through the author's prior publications After a review of Parker's life emphasizing his musical training and involvement in composition the book proceeds by considering the types of Parker pieces as categorized by overall form and harmony and the amount of preplanned music they contain The historical circumstances of each piece are reviewed and in some cases sources of the ideas of the most important tunes are explored The introduction includes a discussion of the ontology of a jazz composition The view is advanced that the Western concept of a music composition needs to be expanded to embrace practices typical of

jazz composition and forming a significant part of Parker's work. While focusing on Parker's more conventional tunes, the book also considers his large-scale melodic formulas. Two formulas in particular are arguably compositional since they are repeated in subsequent performances of the same piece. As part of the research for this book, all of Parker's copyright submissions to the Library of Congress were examined and photographed. The book reproduces the four of them that were copied by Parker himself.

Miles Davis: New Research on Miles Davis & His Circle Masaya Yamaguchi, 2019-06-06. Masaya Yamaguchi is Japanese-born musician and educator who lives in the US. This book grew out of research Yamaguchi did on Miles' autobiography, which was written by Quincy Troupe from hours of transcribed interviews with Miles. Yamaguchi obtained 1200 pages of the transcripts and has meticulously and painstakingly researched and checked the contents. He finds various errors and anomalies and corrects the information with strong evidence. The book is full of images of transcript pages which include content not seen in the autobiography, letters, and memos. There's plenty of stuff about Miles' 1980s music, especially on the guitarists Miles used during this era.

Jazz Journeys Christa Bruckner-Haring, André Doebring, 2024-09-30. Jazz is a music of journeys, migration, and global mobility, from the legacies of the transatlantic slave trade to global travels for escape, exchange, or putting down roots. Having migrated via changing modes of transportation and media communication, the sounds, musicians, and theories of jazz have led to today's diasporic jazz world of global and local encounters. This book features articles that deal with jazz in various geographic areas, such as Japan or Israel, orchestras travelling to Egypt or invited to the USA, and so-called expatriate jazz musicians taking up residence in Europe. By sharing their research about jazz on TV, on records, and at festivals, the authors from different disciplines demonstrate how jazz studies today engage with movement in the music's past to question and shape its future. This collection of writings has its origins in the VI Rhythm Changes Conference, Jazz Journeys, which took place in Graz, Austria, and where the International Society for Jazz Research celebrated its 50th anniversary.
