disorders and differentiate it from other conditions with which it is often confused. The authors then present a stepwise introduction to the relevant anatomy and physiology of the nervous system and neck. They draw on the experiences of their patients to build a progressive depiction of the experiences an individual might have as he or she goes through the initial onset of symptoms, progression of the disorder, seeking medical care, diagnosis, treatment, and subsequent outcome. Personal vignettes from the experiences of selected patients are provided where they illustrate particular points in the discussion. Subsequent chapters discuss various modes of treatment for spasmodic torticollis. Prior to the mid 1980s there were no specific treatments for this disorder. Nearly all treatment consisted of using oral medications that were primarily intended for other medical conditions. Since most of these medications are still in use and a few new ones have been added, a chapter is devoted to detailing them and discussing the general principles of medication therapy. During the past decade, chemodenervation using botulinum toxin has become the primary and most effective treatment for spasmodic torticollis. For those few patients who require surgery, a description is provided of the neurosurgical techniques developed during the last twenty years specifically for its treatment. The final chapter is a manual of therapeutic rehabilitation exercises designed to alleviate the symptoms of spasmodic torticollis. These exercises can be performed by most patients with no assistance and a bare minimum of equipment. Since each person's case of spasmodic torticollis is different, only certain of the exercises may be appropriate for any given individual. They should be undertaken only after discussion with your physician. These exercises are accompanied by detailed illustrations that emphasize the particular muscles relevant to each posture or movement.

About the Authors: Dr. Pathak is a neurologist with a special interest in the neurologic rehabilitation of movement disorders, especially spasmodic torticollis. Dr. Frei is a neurologist specialized in the field of neurogenetics and has conducted clinical trials on a number of movement disorders, including spasmodic torticollis. Dr. Truong is a neurologist and movement disorders specialist. He has conducted active research in the management of movement disorders, including spasmodic torticollis. He was one of the pioneers in the use of botulinum toxin to manage this condition and has lectured worldwide on the management of movement disorders.

The Top Books of the Year Parkinsons Disease Handbook The Essential Guide For Sufferers And Carers The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have captivated audiences this year. Parkinsons Disease Handbook The Essential Guide For Sufferers And Carers : Colleen Hoovers "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Parkinsons Disease Handbook The Essential Guide For Sufferers And Carers : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
