Parliament And The Crown In The Reign Of Mary Tudor

Rosemary O'Day

Parliament And The Crown In The Reign Of Mary Tudor:

Parliament and the Crown in the Reign of Mary Tudor Jennifer Loach, 1986 This first detailed account of the five parliaments of Mary's reign a governance crucial in the development of the House of Commons reveals that Mary like her father and sister was able to carry out unpopular policies without seriously alienating her most important subjects providing further evidence of the strong bonds between Tudor monarchs and the property owning class The Church of Mary Tudor Mr Eamon Duffy, Professor David Loades, 2013-06-28 The reign of Queen Mary is popularly remembered largely for her re introduction of Catholicism into England and especially for the persecution of Protestants memorably described in John Foxe's Acts and Monuments Mary's brief reign has often been treated as an aberrant interruption of England's march to triumphant Protestantism a period of political sterility foreign influence and religious repression rightly eclipsed by the happier reign of her more sympathetic half sister Elizabeth In pursuit of a more balanced assessment of Mary's religious policies this volume explores the theology pastoral practice and ecclesiastical administration of the Church in England during her reign Focusing on the neglected Catholic renaissance which she ushered in the book traces its influences and emphasises its methods and its rationales together the role of Philip's Spanish clergy and native English Catholics in relation to the wider influence of the continental Counter Reformation and Mary's humanist learning Measuring these issues against the reintroduction of papal authority into England and the balance between persuasion and coercion used by the authorities to restore Catholic worship the volume offers a more nuanced and balanced view of Mary's religious policies Addressing such intriguing and under researched matters from a variety of literary political and theological perspectives the essays in this volume cast new light not only on Marian Catholicism but also on the wider European religious picture Cheshire and the Tudor State 1480-1560 Tim Thornton, 2000 The palatinate of Chester survives Tudor centralisation **Elizabethan Parliaments 1559-1601** Michael A.R. Graves, Roger Lockyer, 2014-01-14 Michael Graves provides a clear summary of conflicting interpretations of Elizabethan parliaments and presents a new perspective striking a balance between business and politics **The Routledge Companion to the Tudor Age** Rosemary O'Day, 2012-07-26 This new Companion is an invaluable guide to one of the most colourful periods in history Covering everything from the Reformation controversies over the succession and the prayer book to literature the family and education this highly accessible reference tool contains commentary on the key events in the reigns of the five Tudor monarchs from Henry VII to Elizabeth I Opening with a general introduction it includes a wealth of chronologies biographies statistics and maps as well as a glossary and a guide to the key works in the field Topics covered include The establishment of the Tudor dynasty monarchs and their consorts rebellions against the Tudors The legal system central and ecclesiastical courts Government central and local the Monarchy and Parliament The Church structure and changes throughout this tumultuous period Ireland timeline of key events Population numbers and distribution The World of Learning education literature religion The key debates in the field This book will be

essential reading for all those with an interest in the Tudor Age **The Later Tudors** Penry Williams, 1998-03-13 The Later Tudors is an authoritative and comprehensive study of England between the accession of Edward VI and the death of Elizabeth I a turbulent period of conflict amongst European nations and between warring Catholics and Protestants These internal and external struggles created anxiety in England but by the end of Elizabeth's reign the nation had achieved a remarkable sense of political and religious identity Penry Williams combines the political religious and economic history of the nation with a broader analysis of English society family relations and culture in order to explain the workings and development of the English state The result is an incisive and wide ranging analysis that culminates in an assessment of England's part in the shaping of the New World The Theology and Spirituality of Mary Tudor's Church William Wizeman, 2017-09-29 Few areas of early modern English history have roused such passions and interpretations as the rule of Mary Tudor and her efforts to return the country to Catholicism following the reigns of her father and brother In this book Dr Wizeman explores Catholic theology and spirituality according to the religious literature printed during the reign of Mary Tudor 1553-1558 As part of the strategy to renew Catholic religion in England after the reformations under Henry VIII and Edward VI Marian theologians authors and editors produced numerous works of catechesis religious polemic devotion and sermons These writings demonstrate that the Catholicism of Marian England was not a mere insular reaction to the preceding decades of religious change nor a *via media* polity which eschewed important elements of traditional religion while embracing tenets of the Reformation Rather the theology and spirituality of Mary Tudor's church as well as many of its strategies for religious renewal was intimately connected to and in fact anticipated or paralleled the theology spirituality and strategies for reform embraced by Counter Reformation Catholicism especially after the promulgation of the decrees of the Council of Trent 1545-1563 After considering the recent historiography of Mary Tudor's reign the book contextualises these writings through a brief history of the Marian church and a discussion of the authors and dedicatees It then presents an analysis of the Marian writers and theologians views on revelation christology soteriology ecclesiology sacramental theology piety and eschatology Finally the study compares the Catholic belief asserted in these works to that found in texts by English theologians printed before 1553 especially John Fisher and by contemporary theologians in Europe particularly Bartolom Carranza as well as the Tridentine catechism and the decrees and official texts of the English Reformation **Mary Tudor** Susan Doran, Thomas S. Freeman, 2017-09-16 This collection of interdisciplinary essays examines the origins and growth of Mary Tudor's historical reputation from the reign of Elizabeth I up to the 20th century Reappraising aspects of her reign that have been misrepresented the book creates a more balanced objective portrait of England's last Catholic and first female monarch **Mary I (Penguin Monarchs)** John Edwards, 2016-10-27 The elder daughter of Henry VIII Mary I 1553-58 became England's ruler on the unexpected death of her brother Edward VI Her short reign is one of the great potential turning points in the country's history As a convinced Catholic and the wife of Philip II king of Spain and the most powerful of

all European monarchs Mary could have completely changed her country's orbit making it a province of the Habsburg Empire and obedient again to Rome. These extraordinary possibilities are fully dramatized in John Edward's superb short biography *The real Mary I* has almost disappeared under the great mass of Protestant propaganda that buried her reputation during her younger sister Elizabeth I's reign. But what if she had succeeded? ***Early Tudor Parliaments 1485-1558*** Michael A.R. Graves, 2014-01-14 This excellent survey looks at the workings of parliament under the first four Tudor monarchs. After an introductory first section which looks at parliament's medieval origins, the author then considers all aspects of early parliamentary history including the historiography of the early Tudor parliaments, membership and attendance, the legislative roles of the Lords and Commons and the specific parliaments themselves. ***The English Parliaments of Henry VII 1485-1504*** P.R. Cavill, 2009-08-13 For a ruler in Henry's vulnerable position, parliament helped to restore royal authority by securing the good governance that legitimated his regime. For his subjects, parliament served as a medium through which to communicate with the government, to shape on occasion, criticize its policies. ***Law-Making and Society in Late Elizabethan England*** David Dean, 2002-08-22 The years leading up to this book's publication had seen a re-assessment by historians of the Elizabethan parliament. David Dean's book contributed to this development by offering the first detailed account and analysis of the legislative impulses of the men attending the last six parliaments of Elizabeth's reign. Examining a wide range of social and economic issues, law reform, religious and political concerns and affairs both national and local, *Law Making and Society in Late Elizabethan England* addresses the importance of parliament both as a political event and as a legislative institution. David Dean draws on an array of local, corporate and personal archives as well as parliamentary records to reinterpret the legislative history of the period. ***High and Mighty Queens of Early Modern England*** Carole Levin, D. Barrett-Graves, J. Carney, 2016-09-23 *High and Mighty Queens of Early Modern England* is a truly interdisciplinary anthology of essays including articles on such actual queen regnants as Mary I and Elizabeth I and queen consorts such as Anne Boleyn, Anna of Denmark and Henrietta Maria. The collection also deals with a number of literary representations of earlier historical queens such as Cleopatra and semi-historical ones such as Gertrude Tamora and Lady Macbeth and such fictional ones as Hermione and the queen of Cymbeline, all of them Shakespeare characters. This fascinating look at Renaissance queens also examines myth and folklore, Romantic or Victorian representations and the depictions of queens like Catherine de Medici of France in twentieth-century film. ***Mary I and the Art of Book Dedications*** Valerie Schutte, 2016-04-29 In this revisionist approach to book history and Marian studies, Valerie Schutte argues that manuscript and printed book dedications reveal contemporary perceptions of statecraft, religion and gender. She offers the first comprehensive catalogue of all book and manuscript dedications to Mary and all books known to have been in Mary's possession. ***The Mid-Tudor Crisis, 1545-1565*** Geoffrey Meen, 1992-09-23 Historians like politicians thrive in crises. Was there really a crisis in England between 1545 and 1565, or is this just a way of describing a period in history when a lot of interesting things were happening? In reality, the

twenty years from 1545 to 1565 contained no more elements of crisis than other comparable periods There were crises a brief but serious collapse of the overseas cloth trade in 1551 52 and a confused royal succession in 1553 Inflation began to be a problem in about 1545 and remained so for the remainder of the century The Church had already undergone a major revolution in the 1530s and the mid century period could be described as the search for a stable settlement a search had succeeded by 1565 Indeed the machinery of central and local government worked throughout this period with only minor fluctuations in its efficiency and effectiveness Although therefore there were crises within in the mid Tudor period there was no fundamental threat to the state or society Mary and Northumberland s achievements in particular have been much underrated as governors in order originally to magnify those of Elizabeth propaganda DAVID LOADES rights the record and argues for the surprising stability of government during this period

Catholic Renewal and Protestant Resistance in Marian England Vivienne Westbrook, Elizabeth Evenden, 2016-03-03 Mary Tudor s reign is regarded as a period where within a short space of time an early modern European state attempted to reverse the religious policy of preceding governments This required the use of persuasion and coercion of propaganda and censorship as well as the controversial decision to revive an old statute against heresy The efforts to renew Catholic worship and to revive Catholic education and spirituality were fiercely opposed by a small but determined group of Protestants who sought ways of thwarting the return of Catholicism The battle between those seeking to renew Catholicism and those determined to resist it raged for the full five years of Mary s reign This volume brings together eleven authors from different disciplines English Literature History Divinity and the History of the Book who explore the different policies undertaken to ensure that Catholicism could flourish once more in England The safety of the clergy and of the public at the Mass was of paramount importance since sporadic unrest took place early on Steps were taken to ensure that reformist worship was stopped and that the country re embraced Catholic practices This involved a number of short and long term plans to be enacted by the regime These included purging the universities of reformist ideas and ensuring the re education of both the laity and the clergy On a wider scale this was undertaken via the pulpit and the printing press Those who opposed the return to Catholicism did so by various means Some retreated into exile while others chose the press to voice their objections as this volume details The regime s responses to the actions of individuals and to the clandestine texts produced by their opposition come under scrutiny throughout this volume The work presented here also offers new insight into the role of King Philip and his Spanish advisers These essays therefore present a detailed assessment of the role of the Spanish who came with to England as a result of the marriage of Philip and Mary They also move away from the ongoing discussions of persecution seeking rather to present a more nuanced understanding of the regime s attempts to renew and revive a nation of worshippers and to eradicate the disease of heresy They also look at the ways those attempts were opposed by individuals at home and abroad thereby providing a broad ranging but detailed assessment of both Catholic renewal and Protestant resistance during the years 1553 1558

Structures and Assertions Thomas Allan Brady, Heiko Augustinus Oberman, James D. Tracy, 1993-12-31 Vol 1 **England**

Under the Tudors G.R. Elton, 2012-10-12 First published in 1955 and never out of print this wonderfully written text by one of the great historians of the twentieth century has guided generations of students through the turbulent history of Tudor England Now in its third edition *England Under the Tudors* charts a historical period that saw some monumental changes in religion monarchy government and the arts Elton's classic and highly readable introduction to the Tudor period offers an essential source of information from the start of Henry VII's reign to the death of Elizabeth I **Historical Dictionary of the Elizabethan World** John Wagner, 2013-04-03 No period of British history generates such deep interest as the reign of Elizabeth I from 1558 to 1603 The individuals and events of that era continue to be popular topics for contemporary literature and film and Elizabethan drama poetry and music are studied and enjoyed everywhere by students scholars and the general public The *Historical Dictionary of the Elizabethan World* provides clear definitions and descriptions of people events institutions ideas and terminology relating in some significant way to the Elizabethan period The first dictionary of history to focus exclusively on the reign of Elizabeth I the Dictionary is also the first to take a broad trans Atlantic approach to the period by including relevant individuals and terms from Irish Scottish Welsh American and Western European history Editors Choice Reference **Power in Tudor England** David Loades, 1996-11-04 England was the most centralised state in medieval Europe The Tudors built on this situation to reduce still further the provincial power of the nobility and to eliminate the remaining jurisdictional franchises But sixteenth century England was not monolithic nor homogeneous There were still strong local identities both political and culture and the Tudors achieved success by working through the local elites rather than against them
