Parliament And Locality 1660 1939:

Parliament and Locality, 1660-1939 David M. Dean, Clyve Jones, 1998 The British and Their Laws in the Eighteenth Century David Lemmings, 2005 New analysis and interpretation of law and legal institutions in the long eighteenth century Law and legal institutions were of huge importance in the governance of Georgian society legislation expanded the province of administrative authority out of all proportion while the reach of the common law and its communal traditions of governance diminished at least outside British North America But what did the rule of law mean to eighteenth century people and how did it connect with changing experiences of law in all their bewildering complexity This question has received much recent critical attention but despite widespread agreement about Law s significance as a key to unlock so much which was central to contemporary life as a whole previous scholarship has only offered a fragmented picture of the Laws in their social meanings and actions Through a broader brush approach The British and their Laws in the Eighteenth Century contributes fresh analyses of law in England and British settler colonies c 1680 1830 its expert contributors consider among other matters the issues of participation central local relations and the maintenance of common law traditions in the context of increasing legislative interventions and grants of statutory administrative powers Contributors SIMON DEVEREAUX MICHAEL LOBBAN DOUGLAS HAY JOANNA INNES WILFRED PREST C W BROOKS RANDALL MCGOWEN DAVID THOMAS KONIG BRUCE KERCHER The Burghs and Parliament in Scotland, c. 1550-1651 Alan R. MacDonald, 2016-03-16 Existing studies of early modern Scotland tend to focus on the crown the nobility and the church Yet from the sixteenth century a unique national representative assembly of the towns the Convention of Burghs provides an insight into the activities of another key group in society Meeting at least once a year the Convention consisted of representatives from every parliamentary burgh and was responsible for apportioning taxation settling disputes between members regulating weights and measures negotiating with the crown on issues of concern to the merchant community The Convention s role in relation to parliament was particularly significant for it regulated urban representation admitted new burghs to parliament and co ordinated and oversaw the conduct of the burghs estate in parliament In this the first full length study of the burghs and parliament in Scotland the influence of this institution is fully analysed over a one hundred year period Drawing extensively on local and national sources this book sheds new light upon the way in which parliament acted as a point of contact a place where legislative business was done relationships formed and status affirmed The interactions between centre and localities and between urban and rural elites are prominent themes as is Edinburgh s position as the leading burgh and the host of parliament The study builds upon existing scholarship to place Scotland within the wider British and European context and argues that the Scottish parliament was a distinctive and effective institution which was responsive to the needs of the burghs both collectively and individually **Law and Government in England during the Long Eighteenth Century** D. Lemmings, 2011-10-28 Over the long eighteenth century English governance was

transformed by large adjustments to the legal instruments and processes of power This book documents and analyzes these shifts and focuses upon the changing relations between legal authority and the English people **English MPs** Michael W. McCahill,2023-01-26 What was the role of elected legislators Was it to represent the opinions of constituents or to vote according to their informed opinions reflecting the needs of the kingdom Most authorities have accepted Edmund Burke s depiction of 18th century MPs insisting it was their right to form their opinions without reference to the instructions of constituents This study provides answers to these important questions and in doing so reveals that Burke s vision does not represent how the House of Commons functioned during the last two decades of the 18th century Rather than focusing on specific issues or demographic groups English MPs brings to the fore the legislative activity of a broad segment of late 18th century English MPs This book shows they were diligent legislators who attended to the needs of constituents in the process developing strong connections with them It demonstrates that these connections did not rest on shared beliefs in reformist ideologies except in and around the metropolis Instead they grew out of the members timely and effective tending session after session to the host of measures brought forward by constituents and neighbours McCahill explores in fascinating detail the consequences of this bond In this book McCahill draws from an impressive array of primary sources and secondary literature to combine a structural analysis with broad surveys and detailed case studies The result is an illuminating and a comprehensive account of the House of Commons between 1760 and 1790 **Georgian Monarchy** Hannah

Davis, Philip Salmon, 2005 These essays deal with aspects of politics in the age of aristocratic oligarchy from the late 17th to the 19th centuries They elucidate a precedent that saved the Reform Bill in 1832 treat Britain s efforts to rule 18th century Ireland and surging British patriotism as real but not extreme and examine several aspects of parliamentary reform through the courts and by carefully managed rioting Municipal reform provided a major impetus to the reform of parliament and when carried enhanced its impact as this collection shows However the book also explores how Corn Law reform in 1846 owed more to the ambitions of some peers and the consciences of others than to a newly empowered public opinion Food also played a part in politics as shown by the evolution of the political dinner examined in the final essay Published as a special issue of the journal *Parliamentary History* 24 3
