Rocabert, Lorian Crasnic, Cristina Gherasimov, Jana Lipps, Densua Mumford, 2020-12-14 International parliaments are on the rise. An increasing number of international organizations establishes international parliamentary institutions or IPIs which bring together members of national parliaments or in rare cases elected representatives of member state citizens. Yet IPIs have generally remained powerless institutions with at best a consultative role in the decision making process of international organizations. Why do the member states of international organizations create IPIs but do not vest them with relevant institutional powers? This study argues that neither the functional benefits of delegation nor the internalization of democratic norms answer this question convincingly. Rather IPIs are best understood as an instrument of strategic legitimation. By establishing institutions that mimic national parliaments governments seek to ensure that audiences at home and in the wider international environment recognize their international organizations as democratically legitimate. At the same time they seek to avoid being effectively constrained by IPIs in international governance.

The Rise of International Parliaments provides a systematic study of the establishment and empowerment of IPIs based on a novel dataset. In a statistical analysis covering the world's most relevant international organizations and a series of case studies from all major world regions we find two varieties of international parliamentarization. International organizations with general purpose and high authority create and empower IPIs to legitimate their region building projects domestically. Alternatively the establishment of IPIs is induced by the international diffusion of democratic norms and prominent templates above all that of the European Parliament.

Transformations in Governance is a major academic book series from Oxford University Press. It is designed to accommodate the impressive growth of research in comparative politics, international relations, public policy, federalism and environmental and urban studies concerned with the dispersion of authority from central states to supranational institutions, subnational governments and public private networks. It brings together work that advances our understanding of the organization, causes and consequences of multilevel and complex governance. The series is selective, containing annually a small number of books of exceptionally high quality by leading and emerging scholars. The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford.

The European Parliament's Committees Richard Whitaker, 2011-04-05 This book analyzes the development of the European Parliament's EP committees and their relationship with national political parties in the light of the EP's increased legislative role over the last three decades. The book argues that national parties have a greater incentive to care about what goes on in the EP given the growth in its legislative power. Because most of the EP's detailed legislative work takes place in its committees, national parties should be concerned about their involvement with the EP's committee system. Based on extensive original research, this book shows how the EP's committees have changed over time in response to legislative empowerment and analyzes how national parties and individual MEPs use the committee system to further their policy goals. The book makes a theoretical contribution by providing an explanation for the variation in powers of committees.

between separated and fused systems of government and by adapting theories of legislative organization developed in the context of the US Congress to the EP The European Parliament's Committees will be of interest to students and scholars studying the European Parliament EU institutions policy making and the development of legislatures and political parties

A National Force Peter Kasurak, 2013-11-01 Canadians consider the period between the Second World War and the unification of the armed services in 1968 as a golden age a time when their army dropped the shackles of its imperial past and emerged as a truly national peacekeeping force In this landmark book Peter Kasurak draws on recently declassified documents to show that this era was in fact clouded by the army's failure to loosen the grasp of British army culture produce its own doctrine and advise political leaders effectively The discrepancy between the army's goals and the Canadian state's aspirations as a peacemaker in the postwar world resulted in a series of civilian military crises that ended only when the scandal of the Somalia Affair in 1993 forced reform Kasurak offers an illuminating account of the organizational growing pains that wracked the Canada's army as it evolved into a force that could reflect the aspirations of both its country and military leadership

Constitutional Preferences and Parliamentary Reform Thomas Winzen, 2017-01-19 This book provides a comprehensive account of national parliaments' adaptation to European integration Advancing an explanation based on political parties' constitutional preferences the volume investigates the nature and variation of parliamentary rights in European Union affairs across countries and levels of governance In some member states parliaments have traditionally been strong and parties hold intergovernmental visions of European integration In these countries strong parliamentary rights emerge in the context of parties' efforts to realise their preferred constitutional design for the European polity Parliamentary rights remain weakly developed where federally oriented parties prevail and where parliaments have long been marginal arenas in domestic politics Moreover divergent constitutional preferences underlie inter-parliamentary disagreement on national parliaments' collective rights at the European level Constitutional preferences are key to understanding why a Senate of national parliaments never enjoyed support and why the alternatives subsequently put into place have stayed clear of committing national parliaments to any common policies This volume calls into question existing explanations that focus on strategic partisan incentives arising from minority and coalition government It furthermore rejects the exclusive attribution of parliamentary deficits to the structural constraints created by European integration and instead restores a sense of accountability for parliamentary rights to political parties and their ideas for the European Union's constitutional design

Representing Women in Parliament Marian Sawer, Manon Tremblay, Linda Trimble, 2006-09-27 Written by a major international team of authors this new study features twelve chapters on both new and established parliaments including Australia Canada New Zealand and the United Kingdom It tests the latest theories about women's political representation within Westminster style assemblies and is clearly organized into three key sections

Sweden and National Liberation in Southern Africa Tor Sellström, 1999 In 1969 the Swedish parliament endorsed a policy of direct assistance to the

liberation movements in Southern Africa Sweden thus became the first Western country to enter into a relationship with organizations that elsewhere in the West were shunned as Communist or terrorist This book the first in a two volume study on Sweden the regional struggles for majority rule national independence traces the background to the relationship Presenting the actors factors behind the support to MPLA of Angola FRELIMO of Mozambique SWAPO of Namibia ZANU ZAPU of Zimbabwe ANC of South Africa it addresses the question why Sweden established close relations with the very movements that eventually would assume state power in their respective countries The second volume later this year will discuss how the support was expressed covering the period from 1970 until the democratic elections in South Africa in 1994

Fifty Years of Bangladesh Parliament M. Jashim Ali Chowdhury, 2025-01-20 This book critically examines the constitutional position and contribution of the Bangladesh Parliament during the fifty years of its existence Examining the institution through a Westminster lens the book unearths how and why it behaves in an un Westminster rather say the Eastminster way This book is the first of its kind attempting a separation of powers and checks and balances inspired analysis of the Parliament vis vis Bangladesh's government judiciary and the people It explains how its internal democracy deficit arising from the country's undemocratic political parties deny the Bangladesh Parliament its rightful place within the country's constitutional design Parliamentary Debates New Zealand. The Politicisation of the European Commission's Presidency Matilde Ceron, Thomas Christiansen, Dionyssis G. Dimitrakopoulos, 2024-04-04 This book is the first systematic effort to investigate the ramifications of the introduction of the Spitzenkandidaten process for the appointment of the President of the European Commission It does so by examining the first two applications of the Spitzenkandidaten process from an historical legal and political perspective Although this process has spurred vibrant debate regarding its impact on EU elections and the EU political system it has yet to be comprehensively analysed by scholars Addressing this important gap the book provides a conceptual framework for analysing the impact of the Spitzenkandidaten process takes stock of its internal inter institutional and constitutional repercussions and assesses its future prospects Interdisciplinary in nature the book touches on several important themes including European elections EU policy making leadership legitimacy supranationalism and European integration Published to coincide with the 2024 European Parliament election it will appeal to scholars and students of the politics of European integration public administration governance European politics and EU constitutional law Parliamentary Bills of Rights Janet L. Hiebert, James B. Kelly, 2015-01-29

Both New Zealand and the United Kingdom challenge assumptions about how a bill of rights functions Their parliamentary bills of rights constrain judicial review and also look to parliament to play a rights protecting role This arises from the requirement to inform parliament if legislative bills are not compatible with rights But are these bills of rights operating in this proactive manner Are governments encountering significantly stronger pressures to ensure legislation complies with rights Are these bills of rights resulting in more reasoned deliberations in parliament about the justification of legislation

from a rights perspective Through extensive interviews with public officials and analysis of parliamentary debates where questions of compliance with rights arise prisoner voting parole and sentencing policy counter terrorism legislation and same sex marriage this book argues that a serious gap exists between the promise of these bills of rights and the institutional variables that influence how these parliaments function
