Customary International Humanitarian Law Jean-Marie Henckaerts,Carolyn Alvermann,Comité international de la
Croix-Rouge,2005-03-03 Customary International Humanitarian Law Volume I Rules is a comprehensive analysis of the
customary rules of international humanitarian law applicable in international and non international armed conflicts In the
absence of ratifications of important treaties in this area this is clearly a publication of major importance carried out at the
express request of the international community In so doing this study identifies the common core of international
humanitarian law binding on all parties to all armed conflicts Comment Don RWI **Forthcoming Books** Rose
Army,1996-06 *Australian Government Publications* ,1971 **Women in Parliament** Julie Ballington,Azza M.
Karam,2005 This updated edition of Women in Parliament Beyond Numbers Handbook covers the ground of women s access
to the legislature in three steps It looks into the obstacles women confront when entering Parliament be they political socio
economic or ideological and psychological It presents solutions to overcome these obstacles such as changing electoral
systems and introducing quotas and it details strategies for women to influence politics once they are elected to parliament
an institution which is traditionally male dominated The first Women in Parliament Beyond Numbers handbook was produced
as part of IDEA s work on women and political participation in 1998 Since its release in English in 1998 there has been an
ongoing interest and demand for the handbook and responding to the request for the translation of the handbook IDEA has
produced Spanish French and Indonesian language versions and a Russian overview of the handbook during 2002 2003 Since
the first handbook was published the picture regarding women s political participation has slowly changed Overall the past
decade has seen gradual progress with regard to women s presence in national parliaments This second edition incorporates
relevant global changes in the past years presenting new and updated case studies **Governing the Commons** Elinor
Ostrom,2015-09-23 The governance of natural resources used by many individuals in common is an issue of increasing
concern to policy analysts Both state control and privatization of resources have been advocated but neither the state nor the
market have been uniformly successful in solving common pool resource problems After critiquing the foundations of policy
analysis as applied to natural resources Elinor Ostrom here provides a unique body of empirical data to explore conditions
under which common pool resource problems have been satisfactorily or unsatisfactorily solved Dr Ostrom uses institutional
analysis to explore different ways both successful and unsuccessful of governing the commons In contrast to the proposition

of the tragedy of the commons argument common pool problems sometimes are solved by voluntary organizations rather than by a coercive state Among the cases considered are communal tenure in meadows and forests irrigation communities and other water rights and fisheries House of Commons Procedure and Practice Marc Bosc, André Gagnon, 2017-08
