Parliamentary Politics In Revolutionary Iran The Institutionalization Of Factional Politics:

Parliamentary Politics in Revolutionary Iran Bahman Baktiari, 1996 In this first major English language study of the Iranian parliament Bahman Baktiari analyzes the intense rivalry between competing factions in the parliament known as the Majles and describes the political battles that have set the tone for many of the key policy developments in Iran He examines how elections are organized how candidacies are approved and how the parliament is structured internally Since the revolution of 1979 the institutionalization of revolutionary politics has led to an assertive parliament as major force in the Islamic Republic but with turnover ratio of 60 percent one of the highest in the world Thus the parliamentary politics described in this book is a microcosm of the wider factional politics in revolutionary Iran today Incorporating personal interviews with more than sixty members of parliament primary sources from various research centers in Iran and first hand observation of parliamentary deliberations Baktiari s study illuminates an important dimension of the political evolution of this radical Islamic state

Factional Politics in Post-Khomeini Iran Mehdi Moslem, 2002-11-01 Insightful and informative Mehdi Moslem s is the first book to provide a detailed account of Iran s post revolutionary politics A profound analysis of the diverse political sociocultural economic and foreign policy issues that have engulfed revolutionary Islamic Iran since its inception this book is not only a must read for those interested in contemporary Iran but also an indispensable book for teachers of contemporary Middle East affairs and scholars of Islamic politics Since the landslide victory of President Mohammed Khatami in May 1997 the official line of the Islamic Republic of Iran has been a study in contradictions On one hand Khatami condemned Iran s past fanaticism declaring his nation eager to embrace global standards based on mutual respect between nations regardless of ideologies on the other hand an opposing faction continues to perpetrate Iran s enmity toward the West America in particular These two main factions also present competing versions of current national policies and consequently the regime appears simultaneously to be practical and ideological and to outsiders unfathomable

Negin Nabavi, 2012-08-30 Recent Iranian history has been full of unexpected turns Whether it was the 1979 revolution which resulted in the establishment of the first ever Islamic Republic in the history of the Muslim world the rise to power of the reformist movement in 1997 or the emergence of the Green Movement an opposition movement that took shape spontaneously in the days immediately following the presidential elections in June 2009 the world has been taken unawares at every juncture This book brings together essays that both speculate on the import of the developments of 2009 and shed light on the complexities and the ever changing dynamics of post revolutionary Iran

The Modern Middle East Mehran Kamrava, 2011 Kamrava provides an in depth analysis of not just political history but also a variety of other issues that have plagued this part of the world for so many years and continue to remain unresolved for years to come Mahmood Monshipouri author of *Islamism Secularism and Human Rights in the Middle East* This is an ambitious stimulating book that synthesizes a broad range of literature on Middle East history and politics The author analyzes many important issues in the region

emphasizing the challenges countries face in overcoming historical legacies developing accountable leadership recovering from conflict and developing productive economies Bradford Dillman author of *State and Private Sector in Algeria The Politics of Rent Seeking and Failed Development* *The Thousand and One Borders of Iran* Fariba Adelkhah, 2015-09-16 A country marked by controversy Iran's social cultural and political dynamics are too often reduced to a few misleading clichés Islamism is widely considered to shape all social relations in Iranian society and while Iranian society is indeed Islamic this term's multiple meanings in everyday life and practices go far beyond the naïve and monolithic idea we are used to *The Thousand and One Borders of Iran* analyses travel as a social practice exploring how diasporas margins and so called peripheries are central in the construction of a national identity and thus revealing the complexities of Iranian history and society Written by a leading anthropologist it draws upon fieldwork carried out in Iran and Iranian migrant communities across Dubai Tokyo and Los Angeles from 1998 to 2015 While casting new perspectives on the place of transnational relations in an increasingly globalized world this work also sheds new light on the evolution of Iranian society countering the explanation furnished by nationalist ideology that has been reproduced by the Islamic Republic itself Its unique approach to the analysis of Iranian society through the theme of travel and borders considers the links and even the quarrels between the centre of Iranian society and the periphery and the foreign elements that have contributed to society's development Travel is key to these interactions and following the travels of merchants and workers students or the faithful elected officials and experts or exiles and refugees this book offers an anthropological study of travel that rethinks Iranian history and national identity This book would be of interest to students and scholars of Iranian Studies Middle Eastern Studies and Anthropology

Creating Local Democracy in Iran Kian Tajbakhsh, 2022-07-21 An innovative study of the political decentralization of Iran and the failure of elected local government to democratize the authoritarian regime ***Bazaar and State in Iran*** Arang Keshavarzian, 2007-04-12 The Tehran Bazaar has always been central to the Iranian economy and indeed to the Iranian urban experience Arang Keshavarzian's fascinating book compares the economics and politics of the marketplace under the Pahlavis who sought to undermine it in the drive for modernisation and under the subsequent revolutionary regime which came to power with a mandate to preserve the bazaar as an Islamic institution The outcomes of their respective policies were completely at odds with their intentions Despite the Shah's hostile approach the bazaar flourished under his rule and maintained its organisational autonomy to such an extent that it played an integral role in the Islamic revolution Conversely the Islamic Republic implemented policies that unwittingly transformed the ways in which the bazaar operated thus undermining its capacity for political mobilisation Arang Keshavarzian's book affords unusual insights into the politics economics and society of Iran across four decades ***The Modern Middle East, Third Edition*** Mehran Kamrava, 2013-10-05 From the fall of the Ottoman Empire through the Arab Spring this title offers a classic treatise on the making of the contemporary Middle East remains essential reading for students and general readers who want to gain a

Islam, Gender, and Democracy in Comparative Perspective Jocelyne Cesari, José Casanova, 2017-04-14 The relationship between secularism democracy religion and gender equality has been a complex one across Western democracies and still remains contested When we turn to Muslim countries the situation is even more multifaceted In the views of many western commentators the question of Women Rights is the litmus test for Muslim societies in the age of democracy and liberalism Especially since the Arab Awakening the issue is usually framed as the opposition between liberal advocates of secular democracy and religious opponents of women s full equality Islam Gender and Democracy in Comparative Perspective critically re engages this too simple binary opposition by reframing the debate around Islam and women s rights within a broader comparative literature Bringing together leading scholars from a range of disciplines it examines the complex and contingent historical relationships between religion secularism democracy law and gender equality Part One addresses the nexus of religion law gender and democracy through different disciplinary perspectives sociology anthropology political science law Part Two localizes the implementation of this nexus between law gender and democracy and provides contextualized responses to questions raised in Part One The contributors explore the situation of Muslim women s rights in minority conditions to shed light on the gender politics in the modernization of the nation and to ponder on the role of Islam in gender inequality across different Muslim countries

Shi'i Theology in Iran Ori Goldberg, 2011-09-12 Taking a theologically oriented method for engaging with historical and cultural phenomena this book explores the challenge offered by revolutionary Shi i theology in Iran to Western conventions on theology revolution and religion s role in the creation of identity Offering a stringent critique of current literature on political Islam and on Iran s 1979 Islamic Revolution the author suggests that current literature fails to perceive and engage with the revolution and its thought as religious phenomena Grounded in the experience of unconditional faith in God Shi i thinkers recognize a distinction between the human and the divine Concerned with the challenge of constructing a virtuous society these thinkers pose a model of authority and morality based on mediation interpretation and participation in the experience of faith Ori Goldberg considers this interpretative model utilizing a broad array of theoretical tools most notably critical theologies drawn from Jewish and Christian thought He draws on a close reading of several texts written by prominent Iranian Shi i thinkers between 1940 and 2000 most of which are translated into English for the first time to reveal a vibrant complex discourse Presenting a new interfaith perspective on a subject usually considered beyond the scope of such research this book will be an important reference for scholars of Iranian studies political Islam theology and cultural studies

The Fall of the Turkish Model Cihan Tugal, 2016-02-23 The brief rise and precipitous fall of Islamic liberalism Just a few short years ago the Turkish Model was being hailed across the world The New York Times gushed that prime minister Recep Tayyip Erdogan and his Justice and Development Party AKP had effectively integrated Islam democracy and vibrant economics making Turkey according to the International Crisis Group the envy of the Arab world And yet a more recent CNN headline

wondered if Erdogan had become a dictator In this incisive analysis Cihan Tugal argues that the problem with this model of Islamic liberalism is much broader and deeper than Erdogan s increasing authoritarianism The problems are inherent in the very model of Islamic liberalism that formed the basis of the AKP s ascendancy and rule since 2002 an intended marriage of neoliberalism and democracy And this model can also only be understood as a response to regional politics especially as a response to the Iranian Model a marriage of corporatism and Islamic revolution The Turkish model was a failure in its home country and the dynamics of the Arab world made it a tough commodity to export Tugal s masterful explication of the demise of Islamic liberalism brings in Egypt and Tunisia once seen as the most likely followers of the Turkish model and provides a path breaking examination of their regimes and Islamist movements as well as paradigm shifting accounts of Turkey and Iran

The Rise and Fall of the Shah Amin Saikal,2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler s regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran s troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime s dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah s early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States *The Rise and Fall of the Shah* critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran s past to its political present and future

[Iran Revisited](#) Ali Pirzadeh,2016-04-20 This book examines Modern Iran through an interdisciplinary analysis of its cultural norms history and institutional environment The goal is to underline strengths and weaknesses of Iranian society as a whole and to illustrate less prescriptive explanations for the way Iran is

seen through a lens of persistent collective conduct rather than erratic historical occurrences Throughout its history Iran has been subject to many studies all of which have diagnosed the country's problem and prescribed solutions based on certain theoretical grounds This book intends to look inward seeking cultural explanations for Iran's perpetual inability to improve its society The theme in this book is based on the eloquent words of Nasir Khusrau a great Iranian poet *az mast ki bar mast* The words are from a poem describing a self-adoring eagle that sees its life abruptly ended by an arrow winged with its own feathers the bird is doomed by its own vanity The closest interpretation of this idiom in Western Christian culture is you reap what you sow which conveys a similar message that underlines one's responsibility in the sense that sooner or later we must face the choices we make This would enable us to confront and live up to what Iran's history and culture have taught us
