Parliamentary Debates House Of Lords Official Report Volume665:

Reconstituting the Constitution Caroline Morris,Jonathan Boston,Petra Butler,2011-09-01 All nation states whether ancient or newly created must examine their constitutional fundamentals to keep their constitutions relevant and dynamic Constitutional change has greater legitimacy when the questions are debated before the people and accepted by them Who are the peoples in this state What role should they have in relation to the government What rights should they have Who should be Head of State What is our constitutional relationship with other nation states What is the influence of international law on our domestic system What process should constitutional change follow In this volume scholars practitioners politicians public officials and young people explore these questions and others in relation to the New Zealand constitution and provide some thought provoking answers This book is recommended for anyone seeking insight into how a former British colony with bicultural foundations is making the transition to a multicultural society in an increasingly complex and globalised world

Constitutional Conventions Nicholas Barry,Narelle Miragliotta,Zim Nwokora,Haig Patapan,2025-02-18 This book analyses constitutional conventions as a powerful but largely neglected framework for studying the law and politics of constitutions Constitutional conventions are the unwritten rules that inform and circumscribe the political behaviour of individuals organisations and a political system They are as important as the formal legal rules that define written constitutions and shape modern states yet unlike formal written rules conventions have received only limited scholarly attention This book considers conventions as a lens to theorise and to analyse the institutional dynamics of contemporary constitutions Interrogating constitutional conventions in a wide variety of contexts including in Westminster parliamentary systems in presidential systems and in non democratic regimes the book offers new perspectives for understanding diverse aspects of constitutional politics such as the capacity of conventions to constrain populists how conventions influence constitutional transformation how they reflect and reshape core democratic values such as citizenship and constitutional identity and what they reveal about the character of authoritarian regimes The book thus demonstrates how the dynamics of conventions shape the very character of constitutions The book will be of interest to legal theorists constitutional lawyers and political scientists
