contribution of distinct parliamentary actors including the government opposition backbenchers select committees and pressure groups It considers their behaviour in the legislative process what they seek to achieve and crucially how they influence policy decisions The final chapter reflects on Westminster's influence overall showing this to be far greater than commonly assumed Parliamentary influence is asserted in various different ways ranging from visible amendments to more subtle means of changing government's behaviour The book's findings make an important contribution to understanding both British politics and the dynamics of legislative bodies more broadly Its readability and relevance will appeal to both specialists and general readers with interests in politics and law in the UK and beyond

Laying Down the Law Daniel Greenberg, 2011 In this book Daniel Greenberg draws on his experience as a legislative drafter to present a current account of how legislation is put together In explaining the process of parliamentary drafting Greenberg identifies and examines parts of the legislative process that are not well known and offers thoughts on how the system works or should work The book will appeal to undergraduate and postgraduate students of law policy and politics in fact any reader with an interest in the British Government and will be of interest to those involved in the preparation and practice of legislation
