Essays on the History of Parliamentary Procedure Paul Evans,2017-12-28 8 February 2015 marked the 200th anniversary of the birth of Thomas Erskine May May is the most famous of the fifty holders of the office of Clerk of the House of Commons His continued renown arises from his Treatise upon the Law Privileges Proceedings and Usage of Parliament first published in 1844 and with its 25th edition currently in preparation It is known throughout those parts of the world that model their constitutional arrangements on Westminster as the Bible of Parliamentary Procedure This volume celebrates both the man and his book Bringing together current and former Clerks in the House of Commons and outside experts the contributors analyse May's profound contribution to the shaping of the modern House of Commons as it made the transition from the pre Reform Act House to the modern core of the UK's constitutional democracy in his lifetime This is perhaps best symbolised by its enforced transition between 1834 and 1851 from a mediaeval slum to the World Heritage Palace of Westminster which is the most iconic building in the UK The book also considers the wider context of parliamentary law and procedure both before and after May's time It constitutes the first sustained analysis of the development of parliamentary procedure in over half a century attempting to situate the reforms in the way the central institution of our democracy conducts itself in the political contexts which drove those changes

Manual ,1924 **Common Law and Modern Society** Mary Arden,2015-12-17 Law is a lasting social institution but it must also be open to change How is law made and what prompts change How can society influence the law and how does the law respond to societal change The first volume of *Shaping Tomorrow's Law* examined human rights and European law In this second volume Mary Arden turns her attention to domestic law providing a judge's viewpoint on the roles of society government and the judiciary in the transformation and reform of the law The first section of *Common Law and Modern Society* explains what we mean by judge made law and shows how the law responds to the needs of a changing society Adaptation may be in response to shifting values or in response to constitutional change This is demonstrated in chapters on assisted reproduction and assisted dying both modern concerns and a far older example that of the law on water which has been evolving over the centuries in response to society's changing demands The law also needs to reflect constitutional change as in the case of Welsh devolution The second section of the book looks at the necessary simplification of the law and systematic legal reform These tasks lie at the heart of the work of the Law Commission which celebrated its 50th anniversary in 2015 Drawing on her own experience as former Chairman of the Law Commission Mary Arden argues that statute law can be made simpler by codification and that the success of codification may vary depending on the field of law The final section looks ahead to tomorrow's judiciary The accountability of judges is a continuing area of discussion and this includes ensuring that the reasoning behind their decisions is understood by the relevant people Mary Arden goes on to argue that the vision for the judiciary today and tomorrow should be one of greater diversity in the widest sense This will help to ensure not only greater fairness and wider opportunity but also better decision making The book concludes with advice and encouragement for future legal professionals

The Politics of Parliamentary Procedure Kari Palonen,2016-10-24 Currently parliament as a political institution does not enjoy the best reputation This book aims to recover less known political resources of the parliamentary mode of proceeding The parliamentary procedure relies on regulating debates in a fair way and on constructing opposed perspectives on the agenda items The British House of Commons provides the closest historical approximation for the parliamentary ideal type of politics This book deals with the formation and conceptual change in the Westminster procedure based on the way they are interpreted in the tracts on procedure The tracts illustrate the changing parliamentary self understanding from the 1570s to the present and the growing political role of procedural disputes The parliamentary style of politics as discussed in the tracts can be divided into two genres the politics of agenda setting and the politics of debate The book analyses their formation and overall conceptual change as well as the procedural responses to the increasingly scarce parliamentary time from the period after the 1832 parliamentary reform It insists that in spite of claims on urgency and on government's leadership the procedural resources of the House of Commons contribute to maintaining the debate centred parliamentary style of politics
