

Parliamentary Representation The Case Of The Norwegian Storting

Stuart N. Soroka, Christopher Wlezien

Parliamentary Representation The Case Of The Norwegian Storting:

Parliamentary Representation Donald R. Matthews, Henry Valen, 1999 This is a detailed critical history of Irish drama from the founding of the Irish Literary Theatre to the present day Professor Maxwell pays special attention to the fortunes of the Abbey Theatre home of the best known Irish playwrights but also takes account of the Gate Theatre in Dublin and the Group Arts and Lyric Theatres in Belfast The main focus of the book is on the dramatists At appropriate chronological points Professor Maxwell gives extended critical assessment of the work of the major writers Yeats Synge O'Casey Denis Johnston Samuel Beckett Brian Friel He comments also on other dramatists who have given Irish drama its distinctive voice from George Fitzmaurice and St John Ervine to Thomas Kilroy and Graham Reid While arguing that Irish drama has a deeply indigenous nature the book also evaluates its dealings with the European drama of Ibsen the Symbolists and the Expressionists A useful chronology select bibliography and production photographs complement the text Delegation and Accountability in Parliamentary Democracies Kaare Strøm, Torbjörn Bergman, Wolfgang C. Müller, 2006-01-19 Comparative Politics is a series for students and teachers of political science that deals with contemporary issues in comparative government and politics The General Editors are Max Kaase Professor of Political Science Vice President and Dean School of Humanities and Social Science International University Bremen Germany and Kenneth Newton Professor of Comparative Politics University of Southampton The series is published in association with the European Consortium for Political Research Today parliamentarism is the most common form of democratic government Yet knowledge of this regime type has been incomplete and often unsystematic Delegation and Accountability in Parliamentary Democracies offers new conceptual clarity on the topic This book argues that representative democracies can be understood as chains of delegation and accountability between citizens and politicians Under parliamentary democracy this chain of delegation is simple but also long and indirect Principal agent theory helps us to understand the perils of democratic delegation which include the problems of adverse selection and moral hazard Citizens in democratic states therefore need institutional mechanisms by which they can control their representatives The most important such control mechanisms are on the one hand political parties and on the other external constraints such as courts central banks referendums and supranational institutions such as those of the European Union Traditionally parliamentary democracies have relied heavily on political parties and presidential systems more on external constraints This new empirical investigation includes all seventeen West European parliamentary democracies These countries are compared in a series of cross national tables and figures and seventeen country chapters provide a wealth of information on four discrete stages in the delegation process delegation from voters to parliamentary representatives delegation from parliament to the prime minister and cabinet delegation within the cabinet and delegation from cabinet ministers to civil servants Each chapter illustrates how political parties serve as bonding instruments which align incentives and permit citizen control of the policy process This is complemented by a consideration of external

constraints The concluding chapters go on to consider how well the problems of delegation and accountability are solved in these countries They show that political systems with cohesive and competitive parties and strong mechanisms of external constraint solve their democratic agency problems better than countries with weaker control mechanisms But in many countries political parties are now weakening and parliamentary systems face new democratic challenges Delegation and Accountability in Parliamentary Democracies provides an unprecedented guide to contemporary European parliamentary democracies As democratic governance is transformed at the dawn of the twenty first century it illustrates the important challenges faced by the parliamentary democracies of Western Europe

Representing the People Kris Deschouwer, Sam Depauw, 2014 Based on interviews with members of over 70 parliamentary assemblies Representing the People explores how members of parliament perceive their role as representatives and shows that the way in which they represent depends very much on the party to which they belong

Democratic Representation in Europe Maurizio Cotta, Heinrich Best, 2007-11-08 Democratic Representation in Europe Diversity Change and convergence explores representation as a core element of democracies in the modern era Over the past 150 years parliamentary representation has developed into a main link between polity and society and parliamentary representatives have come to form the nucleus of political elites The twenty authors of the 16 chapters follow a comparative and empirical approach by exploiting the unique longitudinal data base of the EURELITE project which has gathered standardized evidence about the structures of parliamentary representation in 11 European countries and their development over time in many countries over 160 years Following on from an earlier book by the same editors Parliamentary Representatives in Europe 1848 2000 which focused on trends in single European countries Democratic Representation in Europe pursues a trans national approach by comparing the mechanisms and modes of parliamentary recruitment and career formation between the main party families and various categories of the population in European societies Such cross national analyses which include a longitudinal account of female representation throughout modern European parliamentary history have not been attempted before The book concludes with longitudinal in depth analyses of cleavage representation in European parliamentary history and of the impact of the institutional factor on political elites transformations Democratic Representation in Europe contributes to a better understanding of relations between social and political change and of the importance of institutional factors in shaping the political elites of European democracies In so doing it can help substantiate theoretical debates in the social and political sciences on issues such as historical institutionalism and path dependency

Norway in Transition Oyvind Osterud, 2013-10-18 The transformation of Norway is a magnifying glass to processes of political change in European countries generally In this book a group of Norway s most prominent political scientists closely analyzes the forces of change ranging from the political apparatus the mode of partisan mobilization and the development of political trust to the new gender relations and the strains on the established elite consensus This volume shows how Norway is an embodiment of the

Nordic Model Norwegian society and politics have attracted wide spread interest for three interrelated reasons a strikingly egalitarian and cooperative model for public private relations a stable and rich country on the outside of the European Union and a notable engagement in moral policy areas globally Now the model is in flux for domestic as well as external reasons Rule by popular consent is in question with a more fragile chain of governance and a slow erosion of mass parties The model is transformed from below through the changing democratic infrastructure as well as from above with privatization and market reform in the public sector The focus is Norway but the book is a comparative analysis of a paradigm case with relevance far beyond its own borders This book was previously published as a special issue of the leading journal West European Politics

Congress Responds to the Twentieth Century Sunil Ahuja, Robert E. Dewhirst, 2003 Congress occupies a central place in the U S political system Its reach into American society is vast and deep Overtime the issues it has confronted have increased in both quantity and complexity At the beginning Congress dealt with a handful of matters whereas today it has its hands in every imaginable aspect of life It has attempted to meet these challenges and has changed throughout the course of its history prodded by factors both external and internal to the institution The essays in this volume argue therefore that as society changed throughout the twentieth century Congress responded to those changes

Historical Dictionary of Norway Terje Leiren, Jan Sjøvik, 2019-10-08 This second edition of Historical Dictionary of Norway contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture

Comparing Post-Soviet Legislatures Joel M. Ostrow, 2000 One dilemma facing new or newly independent states such as those of the former Soviet Union is how to design effective legislatures when political parties are weak and fragmented or even nonexistent In this book Joel M Ostrow develops a comparative institutional framework to explain marked differences in behavior across three post Soviet legislatures the Russian Supreme Soviet the Russian State Duma and the Estonian legislature He argues that these differences in ability to manage political conflict can be explained in large measure by the design of the legislatures Most significant is the choice of whether and how to include parties or partisan factors Legislatures are an omnipresent component of modern democracy Ostrow s comparative institutional design confirms the presumption of many political scientists that parties are essential for legislative consensus building However it also reveals that parties may have paradoxical effects on a legislature s performance In following the budget process in Russia and Estonia Ostrow explores the consequences that different institutional designs have had on post Soviet legislatures He has found that how parties are included may determine how capable a legislature is at managing political conflict both internally and with the executive branch of the government The author was present at many of the committee hearings and legislative sessions he describes and his firsthand observations and interviews with committee members enhance his analysis

Scandinavian politics today David Arter, 2013-01-18 This fully revised and updated second edition of Scandinavian politics today describes

analyses and compares the contemporary politics and international relations of the five nation states of Denmark Finland Iceland Norway and Sweden and the three Home Rule territories of Greenland Faeroes and land that together make up the Nordic region Thirteen chapters cover Scandinavia past and present parties in developmental perspective the Scandinavian party system model the Nordic model of government the Nordic welfare model legislative executive relations in the region the changing security environment and the transition from Cold War security threats to the security challenges of today and a concluding chapter looks at regional co operation Nordic involvement in the European project and the Nordic states as moral superpowers The book will be of interest not only to students of Scandinavia but to those wishing to view Scandinavian politics and policy making in a wider comparative perspective The Political Class in Advanced Democracies Jens

Borchert, Jürgen Zeiss, 2003-12-11 Professional politicians have increasingly come under public attack in democratic countries yet they have received little attention in political science This text shows that there are both similarities between professional politicians in different countries and notable national peculiarities **Comparing Democracies** Lawrence LeDuc, Richard G Niemi, Pippa Norris, 2010-01-20 The benchmark first and second editions of Comparing Democracies represented essential guides to the global study of elections Reflecting recent developments in the field this timely third edition gives an indispensable state of the art review of the whole field from the world's leading international scholars With a completely new thematic introduction which explores how democracy is built and sustained thoroughly updated chapters many of which are also new the third edition provides a theoretical and comparative understanding of the major topics related to elections and introduces important work on key new areas Comparing Democracies third edition will remain a must read for students and lecturers of elections and voting behaviour comparative politics parties and democracy Contents Introduction Building and Sustaining Democracy Lawrence LeDuc Richard G Niemi and Pippa Norris PART I ELECTORAL INSTITUTIONS AND PROCESSES Electoral Systems and Election Management Elisabeth Carter and David M Farrell Political Parties and Party Systems Susan E Scarrow Party and Campaign Finance Ingrid van Biezen Election Campaigns Christopher Wlezien Campaign Communications and Media Claes H de Vreese PART II PUBLIC OPINION AND VOTING Ideology Partisanship and Democratic Development Russell J Dalton Political Participation Andr Blais Elections and the Economy Timothy Hellwig Women and Elections Marian Sawer Conclusion The Consequences of Elections G Bingham Powell

American Political Scientists Glenn H. Utter, Charles Lockhart, 2002-10-30 This dictionary offers the only comprehensive collection of profiles of American political scientists each of whom contributed significantly to the intellectual development of American political science from its beginnings in the late 19th century to the present This second edition includes 22 new and 110 revised entries reflecting new scholarship that emerged during the 1990s Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields Alphabetically arranged entries

focus on the main ideas and major works by each scholar listing list the most important publications by and about the individual There are numerous cross references to show how the work of one scholar has influenced another in the discipline Appendices list the political scientists by degree granting institutions and by major fields A short bibliography points to important general readings about the profession A general index makes this major reference easily accessible for broad interdisciplinary research

101 Chambers Peverill Squire, Keith E. Hamm, 2005 The book compares and contrasts Congress and the state legislatures on histories fundamental structures institutional and organizational characteristics and members By highlighting the vast array of organizational schemes and behavioral patterns evidenced in state legislatures the authors demonstrate that the potential for the study of American legislatures as opposed to the separate efforts of Congressional and state legislative scholars is to great to leave unexplored

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Puzzles of Government Formation Rudy W. Andeweg, Lieven De Winter, Patrick Dumont, 2011-04-05 Understanding the formation of governments has always been central to political science Traditionally this topic has been considered from a rational choice theory perspective and the empirical testing of these theories however neither approach alone is able to explain a large proportion of actual coalition formations This comparative volume brings together a rational choice theory perspective and the empirical testing of these theories to study government formation It provides in depth studies of government formations in Europe that cannot be accounted for by existing coalition theory in order to identify potential explanatory factors that have been neglected so far These coalition puzzles are reconstructed by country experts based on secondary sources newspaper accounts internal party documents and interviews in an effort to understand why particular governments were formed In conclusion this book assesses whether new factors can be integrated into rational choice theories or whether these analyses point to the need for a different paradigm This important volume will be of interest to students and scholars of political science European politics and comparative politics

Parties, Rules, and the Evolution of Congressional Budgeting Lance T. LeLoup, 2005

The Evolution of Political Knowledge American Political Science Association. Annual Meeting, Edward D. Mansfield, Richard Sisson, 2004 Over the course of the last century political scientists have been moved by two principal purposes First they have sought to understand and explain political phenomena in a way that is both theoretically and empirically grounded Second they have analyzed matters of enduring public interest whether in terms of public policy and political action fidelity between principle and practice in the organization and conduct of government or the conditions of freedom whether of citizens or of states Many of the central advances made in the field have been prompted by a desire to improve both the quality and our understanding of political life Nowhere is this tendency more apparent than in research on comparative politics and international relations fields in which concerns for the public interest have stimulated various important insights This volume systematically analyzes the major developments within the fields of comparative politics and international relations over the

past three decades Each chapter is composed of a core paper that addresses the major puzzles conversations and debates that have attended major areas of concern and inquiry within the discipline These papers examine and evaluate the intellectual evolution and natural history of major areas of political inquiry and chart particularly promising trajectories puzzles and concerns for future work Each core paper is accompanied by a set of shorter commentaries that engage the issues it takes up thus contributing to an ongoing and lively dialogue among key figures in the field **Political**

Consultants in U.S. Congressional Elections Stephen K. Medvic,2001 Campaign consultants are arguably now as famous in the United States as the politicians themselves During the past decade those who know the names Bill Clinton George Bush Newt Gingrich and Christine Todd Whitman also recognize the names James Carville Mary Matalin Frank Luntz and Ed Rollins Professional consultants once part of the privileged inner circle of presidential and gubernatorial candidates are increasingly found at all levels of politics Indeed more than half of congressional candidates hire campaign consultants These professional have become as important to a candidate s success as money In this innovative study Stephen K Medvic explores all aspects of political consultancy and develops an empirically based theory that ensures the impact consultants have on elections Political Consultants in U S Congressional Elections answers two simple questions What do professional political consultants do and How successful are they Medvic analyzes the way consultants shape political dialogue and uses empirical data to show the benefits and limits of a consultant s involvement in a campaign He focuses on issues as diverse as vote shares outcomes and fundraising Finally the author demonstrates how the adversarial nature of campaigns fosters the kind of electioneering advocated by most political consultants and argues that this process may not be as harmful for the country as is often suggested **The Nordic Model**

Mary Hilson,2008-06-24 The political structures of the Scandinavian nations have long stood as models for government and public policy This comprehensive study examines how that Nordic model of government developed as well as its far reaching influence Respected Scandinavian historian Mary Hilson surveys the political bureaucracies of the five Nordic countries Denmark Finland Iceland Norway and Sweden and traces their historical influences and the ways they have changed individually and as a group over time The book investigates issues such as economic development foreign policy politics government and the welfare state and it also explores prevailing cultural perceptions of Scandinavia in the twentieth century Hilson then turns to the future of the Nordic region as a unified whole within Europe as well as in the world and considers the re emergence of the Baltic Sea as a pivotal region on the global stage The Nordic Model offers an incisive assessment of Scandinavia yesterday and today making this an essential text for students and scholars of political science European history and Scandinavian studies The Contentious Senate

Colton C. Campbell,Nicol C. Rae,2001 The Senate is becoming more like the House of Representatives in its increasing levels of partisanship and ideology A transformation of the institution appears to be underfoot posing questions about the Senate s role as the chamber in which cool judgement prevails This book discusses and analyzes the changes in Senate life including

rules and procedures leadership and party organization executive and Senate relations debate and deliberation and media spotlight Then there is a re examination of Senate efficacy legitimacy and appropriateness as an aristocratic chamber in an increasingly democratic system of government *Degrees of Democracy* Stuart N. Soroka, Christopher Wlezien, 2010 This book develops and tests a thermostatic model of public opinion and policy and examines both responsiveness and representation across a range of policy domains in the United States the United Kingdom and Canada concluding that representative democratic government functions surprisingly well

Parliamentary Representation The Case Of The Norwegian Storting Introduction

In the digital age, access to information has become easier than ever before. The ability to download Parliamentary Representation The Case Of The Norwegian Storting has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Parliamentary Representation The Case Of The Norwegian Storting has opened up a world of possibilities. Downloading Parliamentary Representation The Case Of The Norwegian Storting provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Parliamentary Representation The Case Of The Norwegian Storting has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Parliamentary Representation The Case Of The Norwegian Storting. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Parliamentary Representation The Case Of The Norwegian Storting. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Parliamentary Representation The Case Of The Norwegian Storting, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal

information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Parliamentary Representation The Case Of The Norwegian Storting has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Parliamentary Representation The Case Of The Norwegian Storting Books

1. Where can I buy Parliamentary Representation The Case Of The Norwegian Storting books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
