Franklin, Parmigianino, 2003-01-01 The beauty and range of the work of the sixteenth century artist Parmigianino as painter draughtsman and printmaker make him one of the most remarkable figures of the Italian Renaissance He was an artist who seemed to discover his style without any effort and his art was universally recognized as being graceful or full of grace In his day grace was understood to be a spiritual endowment conferring qualities that could not be taught It was one of the preconditions of natural genius so highly valued among Renaissance artists But nothing as effortlessly elegant as Parmigianino's drawings and paintings could have been achieved without effort It is through a close study of the drawings in particular that one is able to discern the sources of Parmigianino's style and the creative struggles he endured This illustrated study offers a comprehensive reassessment of his work as a draughtsman More than eighty works on paper selected from collections around the world are discussed in detail Among Renaissance artists Parmigianino was perhaps more conscious than any of the potential of the graphic arts to convey and indeed broadcast complex ideas He explored this potential himself not only by means of his numerous drawings but also through the etchings he produced on his own effectively introducing this print medium into Italian art and through the engravings and chiaroscuro woodcuts that were made after his designs In these media his influence travelled farther and wider than it could have through his paintings alone This book coinciding with the quincentenary of the artist's birth in Parma in 1503 accompanies an exhibition presented at the National Gallery of Canada Ottawa from October 3 2003 to January 4 2004 and at The Frick Collection New York from January 27 to April 18 2004 A Cultural History of Ideas in the Renaissance Jill Kraye, 2025-05-15 PRAISE FOR A CULTURAL HISTORY OF IDEAS VOLUMES 1-6 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE 2023 AAP PROSE AWARDS WINNER BEST HUMANITIES REFERENCE WORK The Renaissance is famous as a period of intellectual and cultural flourishing associated with the rebirth of antiquity It is now recognized however that there was considerable

continuity with the preceding medieval centuries While much that was new about the Renaissance derived from the recovery restoration and revival of ancient ideas and culture the process of renewal took place against the backdrop of intellectual and cultural structures inherited from the Middle Ages This volume of A Cultural History of Ideas explores the ways in which distinctively Renaissance ideas and a distinctively Renaissance culture emerged from the complex interaction of ancient and medieval influences The emphasis is on the interplay between culture and ideas observed at close quarters through studies of scholars physicians botanists and scientists popes cardinals and bishops Catholics Lutherans Calvinists Anabaptists and heretics missionaries and Mughal administrators artists craftsmen merchants and butchers Contributors to the volume look not only at philosophical scientific medical pharmacological astronomical astrological and cosmological treatises but also at gardens botanical collections and drawings woodcuts broadsides frontispieces peace treaties and commercial contracts The 6 volume set A Cultural History of Ideas is part of The Cultural Histories Series Titles are available in print for individuals or for libraries needing just one subject or preferring a tangible reference for their shelves or as part of a fully searchable digital library The digital product is available to institutions by annual subscription or on perpetual access via www.bloomsburyculturalhistory.com Individual volumes for academics and researchers interested in specific historical periods are also available in print or digitally via www.bloomsburycollections.com *Literature and Artistic Practice in*

Redreaming the Renaissance Mary Lindemann, Deanna Shemek, 2024-05-17 Redreaming the Renaissance seeks to remedy the dearth of conversations between scholars of history and literary studies by building on the pathbreaking work of Guido Ruggiero to explore the cross fertilization between these two disciplines using the textual world of the Italian Renaissance as proving ground In this volume these disciplines blur as they did for early moderns who did not always distinguish between the historical and literary significance of the texts they read and produced Literature here is broadly conceived to include not only belles lettres but also other forms of artful writing that flourished in the period including philosophical writings on dreams and prophecy life writing religious debates menu descriptions and other food writing diaries news reports ballads and protest songs and scientific discussions The twelve essays in this collection examine the role that the volume's dedicatee has played in bringing the disciplines of history and literary studies into provocative conversation as well as the methodology needed to sustain and enrich this conversation

Ficino and Fantasy Marieke J.E. van den Doel, 2021-12-13 Did the Florentine philosopher Marsilio Ficino 1433-99 influence the art of his time Art historians have been fiercely debating this question for decades This book starts with Ficino's views on the imagination as a faculty of the soul and shows how these ideas were part of a long philosophical tradition and inspired fresh insights This approach combined with little known historical material offers a new understanding of whether how and why Ficino's Platonic conceptions of the imagination may have been received in the art of the Italian Renaissance The discussion explores Ficino's possible influence on the work of Botticelli and Michelangelo and examines the appropriation of Ficino's ideas by early modern art theorists

Binding the Absent Body in Medieval and Modern Art Emily Kelley, 2017-07-05 This collection of essays considers artistic works that deal with the body without a visual representation It explores a range of ways to represent this absence of the figure from abject elements such as bodily fluids and waste to surrogate forms including reliquaries manuscripts and cloth The collection focuses on two eras medieval and modern when images referencing the absent body have been far more prolific in the history of art In medieval times works of art became direct references to the absent corporal essence of a divine being like Christ or were used as devotional aids By contrast in the modern era artists often reject depictions of the physical body in order to distance themselves from the history of the idealized human form Through these essays it becomes apparent even when the body is not visible in a work of art it is often still present tangentially Though the essays in this volume bridge two historical periods they have coherent thematic links dealing with abjection embodiment and phenomenology Whether figurative or abstract sacred or secular medieval or modern the body maintains a presence in these works even when it is not at first apparent

The Moment of

Caravaggio Michael Fried, 2023-10-17 A major reevaluation of Caravaggio from one of today's leading art historians This is a groundbreaking examination of one of the most important artists in the Western tradition by one of the leading art historians and critics of the past half century In his first extended consideration of the Italian Baroque painter Michelangelo Merisi da Caravaggio 1573-1610 Michael Fried offers a transformative account of the artist's revolutionary achievement Based on the A W Mellon Lectures in the Fine Arts delivered at the National Gallery of Art *The Moment of Caravaggio* displays Fried's unique combination of interpretive brilliance historical seriousness and theoretical sophistication providing sustained and unexpected readings of a wide range of major works from the early *Boy Bitten by a Lizard* to the late *Martyrdom of Saint Ursula* The result is an electrifying new perspective on a crucial episode in the history of European painting Focusing on the emergence of the full-blown gallery picture in Rome during the last decade of the sixteenth century and the first decades of the seventeenth Fried draws forth an expansive argument one that leads to a radically revisionist account of Caravaggio's relation to the self-portrait of the role of extreme violence in his art as epitomized by scenes of decapitation and of the deep structure of his epoch-defining realism Fried also gives considerable attention to the art of Caravaggio's great rival Annibale Carracci as well as to the work of Caravaggio's followers including Orazio and Artemisia Gentileschi Bartolomeo Manfredi and Valentin de Boulogne Please note All images in this ebook are presented in black and white and have been reduced in size

Sebastiano del Piombo and the World of Spanish Rome Piers Baker-Bates, 2017-07-05 Sebastiano del Piombo c. 1485-1547 was a close associate and rival of the central artistic figures of the High Renaissance notably Michelangelo and Raphael After the death of Raphael and the departure of Michelangelo from Rome Sebastiano became the dominant artistic personality in the city Despite being one of the most significant artistic figures of the period he remains the last artist of major importance in the western canon about whom no recent work has been published in English In this study Piers Baker-Bates approaches Sebastiano's career through analysis of the patrons he attracted following his arrival at Rome The first half of the book concentrates on Sebastiano's network of patrons predominantly Italian who had strong factional ties to the Imperial camp the second half discusses Sebastiano's relationship with his principal Spanish patrons Sebastiano is a leading example of a transcultural artist in the sixteenth century and his relationship with Spain was fundamental to the development of his career The author investigates the domination of Sebastiano's career by patrons who had geographically different origins but who were all members of a wider network of Imperial loyalties Thus Baker-Bates removes Sebastiano from the shadow

of his contemporaries bringing him to life for the reader as an artistic personality in his own right Baker Bates characterization of the Rome in which Sebastiano made his career differs from previous scholarly accounts and he describes how Sebastiano was ideally suited to flourish in the environment he depicts Sebastiano del Piombo and the World of Spanish Rome thus re appraises not only Sebastiano s place in the canon of Renaissance art but using him as a lens also the cultural worlds of Early Modern Italy and Spain in which he operated *The Court Cities of Northern Italy* Charles M.
