Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of classics adapting to grandmotherly standards of behavior attempting to reshape masculinized conceptions of aged wisdom or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

The Law of Security and Title-Based Financing 4e  
 Louise Gullifer, Michael Bridge, Eva Lomnicka, 2024-11-07  
 Personal property security is an important subject in commercial practice as it is the key to much of the law of banking and sale. This book examines traditional methods of securing debts such as mortgages, charges and pledges as well as so-called quasi security on property other than land, describing how these are created, how they must be registered or otherwise perfected if they are to be valid, the rights and duties of the parties and how the security is enforced if the debt is not paid. This fourth edition has been updated to incorporate recent political and legal developments including Brexit, The Edinburgh Reforms which have followed the United Kingdom's exit from the European Union, promise a thorough overhaul of the consumer credit regime, The Retained EU Law Revocation and Reform Act 2023 potentially affects the interpretation of EU assimilated law including the Financial Collateral Arrangements No2 Regulations (FCARs). This edition further assesses the implications of the Business Contract Terms Assignment of Receivables Regulations 2018 taking pledges over electronic documents of title in the light of the Electronic Trade Documents Act 2023, the outlawing of ipso facto clauses by the Corporate Insolvency and Governance Act 2020 and the reduced scope of the EU Insolvency Regulation. The treatment of insolvency matters within the framework of the Cape Town Convention is also considered, as are recent cases on pledges of bills of lading when the carrier no longer has possession of the goods, the distinction between fixed and floating charges, equitable liens and the right of appropriation of financial collateral. There is a full discussion of the taking of security over digital assets and the relevance of the FCARs. The only full-length treatment covering both traditional security over personal property and also devices that fulfil a similar economic function such as retention of title and sales of receivables. **The Law of Security and Title Based Financing** is a frequently cited and indispensable reference work both for practitioners and academics.

**Basic Knowledge and Conditions on Knowledge**  
 Mark McBride, 2017-11-01  
 How do we know what we know? In this stimulating and rigorous book, Mark McBride explores two sets of issues in contemporary epistemology: the problems that warrant transmission poses for the category of basic knowledge and the status of conclusive reasons; sensitivity and safety as conditions that are necessary for knowledge. To have basic knowledge is to know, have justification for some proposition immediately, i.e. knowledge justification that doesn't

depend on justification for any other proposition This book considers several puzzles that arise when you take seriously the possibility that we can have basic knowledge McBride s analysis draws together two vital strands in contemporary epistemology that are usually treated in isolation from each other Additionally its innovative arguments include a new application of the safety condition to the law This book will be of interest to epistemologists both professionals and students

**Ethics for the Information Age** Michael Jay Quinn,2005 Ethics for the Information Age offers students a timely balanced and impartial treatment of computer ethics By including an introduction to ethical theories and material on the history of computing the text addresses all the topics of the Social and Professional Issues in the 2001 Model Curricula for Computing developed by the ACM and IEEE Computer Society By introducing ethical theories early and using them throughout the book to evaluate moral problems related to information technology the book helps students develop the ability to reach conclusions and defend them in front of an audience Every issue is studied from the point of view of multiple ethical theories in order to provide a balanced analysis of relevant issues Earlier chapters focus on issues concerned with the individual computer user including email spam intellectual property open source movement and free speech and Web censorship Later chapters focus on issues with greater impact on society as a whole such as privacy computer and network security and computer error The final chapter discusses professionalism and the Software Engineering Code of Ethics It invites students to contemplate the ethical dimensions of decisions computer professionals must frequently make

**Culture and Imperialism** Edward W. Said,2012-10-24 A landmark work from the author of Orientalism that explores the long overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it Grandly conceived urgently written and urgently needed No one studying the relations between the metropolitan West and the decolonizing world can ignore Mr Said s work The New York Times Book Review In the nineteenth and early twentieth centuries as the Western powers built empires that stretched from Australia to the West Indies Western artists created masterpieces ranging from Mansfield Park to Heart of Darkness and Aida Yet most cultural critics continue to see these phenomena as separate Edward Said looks at these works alongside those of such writers as W B Yeats Chinua Achebe and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance Vast in scope and stunning in its erudition Culture and Imperialism reopens the dialogue between literature and the life of its time

**Being and Time** Martin Heidegger,2008-07-22 What is the meaning of being This is the central question of Martin Heidegger s profoundly important work in which the great philosopher seeks to explain the basic problems of existence A central influence on later philosophy literature art and criticism as well as existentialism and much of postmodern thought Being and Time forever changed the intellectual map of the modern world As Richard Rorty wrote in the New York Times Book Review You cannot read most of the important thinkers of recent times without taking Heidegger s thought into account This first paperback edition of John Macquarrie and Edward Robinson s definitive translation also features a new foreword by

Heidegger scholar Taylor Carman      **The Science of Effective Mentorship in STEMM** National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Board on Higher Education and Workforce, Committee on Effective Mentoring in STEMM, 2020-01-24 Mentorship is a catalyst capable of unleashing one's potential for discovery, curiosity, and participation in STEMM and subsequently improving the training environment in which that STEMM potential is fostered. Mentoring relationships provide developmental spaces in which students' STEMM skills are honed and pathways into STEMM fields can be discovered. Because mentorship can be so influential in shaping the future STEMM workforce, its occurrence should not be left to chance or idiosyncratic implementation. There is a gap between what we know about effective mentoring and how it is practiced in higher education. The Science of Effective Mentorship in STEMM studies mentoring programs and practices at the undergraduate and graduate levels. It explores the importance of mentorship, the science of mentoring relationships, mentorship of underrepresented students in STEMM, mentorship structures and behaviors, and institutional cultures that support mentorship. This report and its complementary interactive guide present insights on effective programs and practices that can be adopted and adapted by institutions, departments, and individual faculty members.      **Treaty Interpretation** Richard K. Gardiner, 2015 Treaty Interpretation now in its second edition explores and analyzes the rules for interpretation of treaties and their application in national and international jurisdictions.
