Part Time Jobs For Full Time Mothers:

The Mother of All Jobs Christine Armstrong, 2018-09-06 The Mother of All Jobs is about the battle to make modern working parenting actually work If not for our own sanity then perhaps for our children s Have you ever looked at the lengthy school holiday dates and silently screamed in desperation Have you gone part time yet are still doing a full time workload Have you ever been too afraid to ask about maternity benefits or flexible working Do you constantly feel guilty about missing school events and secretly envious of other mums at the school gates who seem to be doing it all better than you If any or all of the above rings true for you you are NOT alone While the demands of work are increasing with longer working hours and more pressure to remain switched on to our phones and computers the needs of our children and the world of school and childcare have stayed the same Something has got to change before we all reach breaking point The Mother of All Jobs brings together the wisdom of women who opened up about their experiences into a manifesto to help working parents thrive

Working Mother ,1987-02 The magazine that helps career moms balance their personal and professional lives **The Well-Fed Writer (Third Edition)** Peter Bowerman, 2021-04 Third edition of a detailed how to guide to starting and growing your own lucrative commercial writing practice writing for corporations and creative agencies and for hourly rates of 50 125

Working Mother ,2008-10 The magazine that helps career moms balance their personal and professional lives **Managing Mothers** Julia Brannen, Peter Moss, 2024-11-18 First published in 1991

Managing Mothers now with a new preface by the authors provides a detailed authoritative inside story of the lives of parents and particularly mothers who return to work after the birth of a first child It is based on a study of couples who have combined the transition to parenthood with two full time jobs in the labour market The authors provide extensive personal accounts from interviews and statistical data that shed light on the experience and significance of this growing social group They reveal that mothers are the main managers of the dual earner lifestyle hence they are the principal characters in this

story as the authors explore women's occupational mobility, their social networks, social and emotional support, and psychological health. The book exposes a variety of constraints upon women: the continuing power of unsupportive ideologies concerning breadwinning, marriage, and family life; the failure of government to organize good quality childcare; the failure of employers to make provisions that would enable parents to fulfil their employment and domestic responsibilities; and the failure of husbands to take an equal share in household work. An understanding of these constraints is essential if the increased need for women in the labour market is to lead to better and more equal employment for women and the removal of the double burden that weighs so heavily on many working mothers. This volume will be a beneficial read for students and researchers of sociology and psychology.

The New Corner Office Laura Vanderkam, 2020-07-21 Drawing on her 18 years of experience working remotely, plus original interviews with managers, employees, and free agents who've perfected their remote routines, Laura Vanderkam shares strategies for productivity, creativity, and health in the new corner office. How do you do great work while sitting near the same spot where you watch Netflix? How can you be responsive without losing the focus necessary for getting things done? How can you maintain and grow your network when you spend less time face to face? The key is to detach yourself from old ways of working and adopt new habits to match your new environment. Long before public health concerns pushed many of us indoors, some of the most successful people fueled their careers with carefully perfected work-from-home routines. Drawing on those profiles and her own insights, productivity expert and mother of five Laura Vanderkam reveals how to turn being cooped up into the ultimate career advantage. Her hacks include: Manage by task, not time. Going to an office for 8 hours makes you feel like you've done something, even if you haven't. Remote workers should set 3-5 ambitious goals for each day and consider the work day done when these are crossed off. Get the rhythm right. A well-planned day features time for focused work, interactive work, and rejuvenating breaks. In place of a commute, a consciously chosen shut-down ritual keeps work from continuing all night. Nurture connections. Wise remote workers can build broader and more effective networks than people sitting in the same cubicle five days a week. Whether you're an introvert or an extrovert, a self-starter or someone who prefers detailed directions, you can do your clearest thinking and deepest work at home and have more energy left over to achieve personal goals or fuel bigger professional ambitions. In fact, soon you might find it hard to imagine working any other way.

Mothers in the Labor Market José Alberto Molina, 2022-05-24 This book describes the social and economic issues that emerge from mothers in labor markets. It provides insight into what the quantitative effect of motherhood on the decline in mothers' earnings is, and how things differ for mothers with lower income and lower levels of education. It also sheds light on how this effect varies for different countries and/or cultural areas, and what the impact of socio-economic policies on mothers' labor supply is, and how it changes in different family contexts. The book covers topics such as labor participation, hours of work, paid work and home production, flexibility, and work from home, self-employment, and entrepreneurship, fertility, and maternity leave, wage penalty, and career interruption, labor supply.

and childcare gender norms and cultural issues intra household wage inequality and much more This book provides an interesting read to economists social scientists policy makers and HR managers and all those interested in the subject

Women and Employment Jacqueline L. Scott, Shirley Dex, Heather Joshi, 2009-01-01 An informative and important volume Johanna Kumlin *European Sociological Review* This collection further contributes to our awareness of the complicated intersection of work and family life for women and men and to a few of the socio economic factors which serve as impediments to its synchronization It is well written carefully researched and rather detailed in its analysis Susan Cody Sex Roles This excellent collection deserves to be read and from cover to cover all the contributions focus on the UK situation over the past 25 years although some offer comparative exemplars and analysis This national focus makes this collection an essential resource for those working in the UK and Europe But the general empirical excellence of the collection as well as the theoretical insights generated in some of the chapters make this an essential collection for anyone interested in gender and work Lesley Patterson *Gender in Management An International Journal* There cannot be a richer collection than this on the topic of women their employment conditions and how they balance home and work life a valuable resource that can be returned to for hard statistics and proven solutions you can use in your own policy creation Equality and Diversity This collection will be an invaluable resource for anyone concerned with changes in women s employment over the last twenty five years Authoritative and up to date it is simultaneously wide ranging and focused analytical and policy oriented The editors have brought together the knowledge of many renowned experts to reflect on labour market developments and gendered employment Attention to transitions across the life course is a particularly welcome feature of the book as is the linking of employment studies with family research Miriam Glucksmann *University of Essex UK* How is women s employment shaped by family and domestic responsibilities This book written by leading experts in the field examines twenty five years of change in women s employment and addresses the challenges facing women today The authors offer an innovative analysis of how global changes including new migration processes educational expansion transnational labour markets technological advances and the global economy affect women s labour market experiences They tackle issues relevant for future change including gender inequalities and ethnic diversities and confront contentious questions such as what is meant by work life balance The book provides new empirical research that both advances our understanding of the challenges posed by women s employment in our changing society and draws out the policy lessons that could improve economic and social wellbeing Providing dynamic analysis of employment family inter relationships *Women and Employment* will be of great relevance to social scientists and academics interested in employment and family as well as policymakers concerned with changing women s employment

Working Mother ,1987-02 The magazine that helps career moms balance their personal and professional lives

Families in Today's World David Cheal, 2008-06-03 An international textbook designed as a quick introduction for students from around the world studying sociology of family this text provides comprehensive coverage of

the major topics in the sociology of family life Written in an easy access style it opens with a chapter on defining family and family structures It then moves on to discuss over a dozen major topics from interaction and meaning in families to sexuality David Cheal provides coverage of these topics by drawing on a variety of international material Most of the studies focus on contemporary family life but Cheal also presents information on historical changes which have shaped family life as it is known today This book an incredibly valuable teaching tool as it presents diversity in family patterns through thinking about family life from a global perspective

Fertility of American Women , 2000-06

Single Mothers In International Context Simon Duncan, Rosalind Edwards, 2013-11-05 Single mothers caring for dependent children are an important and increasing population in industrialized countries In some single mothers are seen primarily as mothers and few have paid work in others they are regarded as workers and most have paid work and sometimes they are seen as an uneasy combination of the two with varying proportions taking up paid work This edited collection explores these variations focusing on the interaction between dominant discourses around single motherhood state policies towards single mothers the structure of the labour market at national and local levels and neighbourhood supports and constraints

Modern motherhood Angela Davis, 2013-07-19 This book examines women s experiences of motherhood in England in the years between 1945 and 2000 Based on a new body of 160 oral history interviews the book offers the first comprehensive historical study of the experience of motherhood in the second half of the twentieth century Motherhood is an area where a number of discourses and practices meet The book therefore forms a thematic study looking at aspects of mothers lives such as education health care psychology

labour market trends and state intervention Looking through the prism of motherhood provides a way of understanding the complex social changes that have taken place in the post war world This book will be essential reading for students and researchers in the field of twentieth century British social history However it will also be of interest to scholars in related fields and a general readership with an interest in British social history and the history of family and community in modern Britain A fascinating survey of women s experience of motherhood eminently readable a solid and thoughtful study an outstanding piece of oral history and ambitiously wide ranging The judging panel for the Women s History Network Book Prize 2013 *Unequal Pay for Women and Men* Heather Joshi,Pierella Paci,2001 The book is the result of an extensive study of the relative wages of British men and women between 1978 and 1991 Using two large and extremely detailed longitudinal data sets one of women and men born in 1946 and the other of women and men born in 1958 the authors examine the evolution of the pay gap over time and evaluate the success of policies designed to establish equal pay **Reconciling Family and Work** Giovanna Rossi,2006
