## **Part Time Paradox Connecting Gender Work And Family:**

**Part-time Paradox** Ann Duffy, Norene Pupo, 1992 The dramatic expansion of part time employment may revolutionize not only the nature of work but also the connection between work and gender This book is intended as a detailed accessible introduction to the paradox of part time work and to power The authors develop both a macro and micro perspective and explore both theoretical and empirical analyses of the issue Part time work is located in terms of the general history of women s employment and national as well as international profiles are provided The complexities and contradictions of women s employment and national as well as international profiles are provided *Precarious Employment* Leah F.

Vosko, 2006 *Precarious Employment* explores the nature and dynamics of precarious employment in contemporary Canada

*Theorising and Representing Maternal Realities* Julie Kelso, Marie Porter, 2009-05-05 Maternal research is a rapidly expanding multi disciplinary form of scholarship Prior to second wave feminism most motherhood literature was written from a male perspective This literature focused on telling mothers how to practice mothering without acknowledging the expertise of the mothers themselves Research on motherhood as it is experienced in all its facets by mothers has only emerged in recent decades This book is aimed at expanding academic knowledge of motherhood from a feminist perspective looking particularly at how maternal subjectivities can be represented and theorised When mothers themselves academic or not are responsible for theorisation and representation of maternal realities dominant theories and representations of motherhood are radically challenged In *Theorising and Representing Maternal Realities* the contributors argue that it is no longer acceptable to regard mothers as mere objects of knowledge and research They are primarily the subjects of knowledge and research **Challenging the Public/private Divide** Susan B. Boyd, 1997-01-01 Feminist scholars in disciplines ranging from law to geography challenge our traditional notion of a public private divide in legal and public policy in Canada and internationally

*Under Siege* Walter S. DeKeseredy, 2003-01-01 *Under Siege* is one of the first books of its kind It vividly describes the devastating consequences of living in a public housing community damaged by the disappearance of manufacturing jobs government cutbacks and other alarming structural transformations that currently plague the United States and Canada Walter DeKeseredy and his colleagues build on the rich theoretical perspectives developed by feminist scholars as well as those constructed by Jock Young Robert Sampson and William Julius Wilson as they present both the qualitative and quantitative results of a case study of six public housing estates located in an impoverished urban area This groundbreaking book provides an in depth analysis of predatory crime victimization intimate partner victimization public racial and sexual harassment and the relationship of all these harms to the residents perceptions of their neighborhood social disorganization collective efficacy *Under Siege* is uniquely valuable both for its rich theoretical basis and for its transparent presentation of the authors research methodology It is a thought provoking sociological contribution that offers progressive strategies for ameliorating both poverty and crime in North American public housing complexes Women and School

Leadership Cecilia Reynolds, 2002-02-19 International in scope this is an unprecedented compilation of current theories and perspectives on women and leadership issues in schools at all levels      Sociology and the Future of Work Paul

Ransome, 2019-01-04 First published in 1999 this book adopts an explicitly forward looking and dynamic approach in trying to understand not only where the sociology of work has come from but of where it is likely to go next For the first time in a single volume it reviews the continuing usefulness of the classical accounts of Karl Marx Max Webster and Emile Durkheim the post industrial accounts of the 1960s and 1970s and the post Fordist accounts of the 1980s and 1990s It provides specific treatment of key topics such as technological change and flexibility the impact of gender on work the changing nature of the relationship between work and personal identity and the possible emergence of economic globalization all of which are currently receiving much academic and popular attention The treatments of gender identity and globalization are challenging and innovative in that they go beyond simply describing current debates and question the validity of some of the premises on which they are based For example that it is not possible to provide a unifying explanation of gender inequality at work because its causes are multiple rather than singular that it is wrong to imply that work will cease to be an important basis of personal identity and that evidence of economic globalization is far too patchy to justify the claim that we are living in a global economy The text combines theoretical analysis with clear descriptions of the key arguments and tests these against current empirical data      The Canadian Labour Movement Craig Heron, 2020-06-01 In The Canadian Labour Movement

historian Craig Heron and political scientist Charles Smith tell the story of Canada's workers from the midnineteenth century through to today painting a vivid picture of key developments such as the birth of craft unionism the breakthroughs of the fifties and sixties and the setbacks of the early twenty first century The fourth edition of this book has been completely updated with a substantial new chapter that covers the period from the great recession of 2008 through to 2020 In this chapter Smith describes the fallout of the financial crisis how Stephen Harper's government restricted labour rights the rise of the gig economy and precarious work and the continued de industrialization in the private sector These pressures contributed to fracturing the movement as when Unifor the largest private sector union split from the Canadian Labour Congress the established house of labour Through it all rank and file union members have fought for better conditions for all workers including through campaigns like the fight for a 15 minimum wage The Canadian Labour Movement is the definitive book for anyone interested in understanding the origins achievements and challenges of the labour and social justice movements in Canada      A Diversity of Women Joy Parr, 1995-01-01 Our perception of women's roles has changed

dramatically since 1945 In this collection Joy Parr has brought together ten studies from a variety of disciplines examining changing ideas about women Mariana Valverde writes about teenage girls in the immediate postwar years and finds that stereotypes of a supposedly simple secure politically quiescent and sexually conformist life do not really hold Joy Parr follows women shoppers of the early 1950s in their sometimes comical encounters with male designers manufacturers and retailers

in search of the tools and totems of modernity for their homes Increasingly these homes were in suburban subdivisions whose pleasures and possibilities for women Veronica Strong Boag reconsiders Joan Sangster reminds us that wage earning mothers were numerous in the fifties and sixties and through a juxtaposition of their own stories with contemporary studies tells much about these self denying women s lives Franca Iacovetta discusses the experiences of immigrant and refugee women in northwestern and south central Ontario experiences that were interpreted through their starkly different European wartime memories Based upon her work among the rural women of southwestern Ontario Nora Cebotarev charts the changes that transformed farm families and finances from the sixties to the eighties Ester Reiter compares the recollections of women who had worked together during the 1960s in an auto parts plant in the Niagara Peninsula with contemporary newspaper accounts of a strike and leads us into a complex narrative of gender and militancy Nancy Adamson reconsiders the diversity of feminist organizing within the province over the decades since second wave feminism began she tracks the different needs and paths that brought women to the women s liberation movement and the ways in which their feminist analysis arose from their experience as community activists Linda Cardinal writes about Franco Ontarian women charting the ways in which feminist activists challenged and were challenged as they worked with traditional farm and church based women s groups in northern and eastern Ontario Marlene Brant Castellano and Janice Hill introduce us to four aboriginal women Edna Manitowabi Jeannette Corbiere Lavell Sylvia Maracle and Emily Faries whose work has been to reclaim and build upon the knowledge and responsibilities long entrusted to the women of Ontario s First Nations This Elusive Land Melody Hessing, Rebecca Raglon, Catriona Sandilands, 2005 This Elusive Land provides an introduction to the literature about women and the environment in Canada It looks at the ways in which women integrate the social and biophysical settings of their lives and features a range of contexts in which gender mediates inspires and informs a sense of belonging to and in this land Drawing from geographical historical and cultural perspectives the volume reveals the significance of women s experiences in various landscapes Jacket In the Interval of the Wave Mary McDonald-Rissanen, 2013-12-01 Taking its title from a poem by Prince Edward Island poet Anne Compton In the Interval of the Wave is a close study of diaries written by Prince Edward Island women in the nineteenth and early twentieth centuries Women from both rural and urban regions of the Island recorded their lives in a genre that allowed them to play with the conventions of the language they knew For busy farm wives their quotidian language syntax and choice of topic appear simple whereas for the urban elite like Margaret Gray Lord and Wanda Wyatt the erudition of their diaries suggests a more leisured existence Mary McDonald Rissanen argues that the initial reception of the text its physical appearance handwriting gaps and flood of words provides interesting insights for understanding the circumstances of Prince Edward Island women from times past Intertextual readings of the diaries alongside other cultural artifacts such as paintings histories folk stories and songs embellish the idiosyncratic diary discourse Diaries enabled women to write their voices create a subjective identity and redefine their place in the world In the Interval

of the Wave exposes lives lived and recorded in a special moment and place never far from the rhythm of the sea

**Gendered States** Ann Porter, 2003-01-01 In the period since the Second World War there has been both a massive influx of women into the Canadian job market and substantive changes to the welfare state as early expansion gave way by the 1970s to a prolonged period of retrenchment and restructuring Through a detailed historical account of the Unemployment Insurance UI program from 1945 to 1997 Ann Porter demonstrates how gender was central both to the construction of the post war welfare state as well as to its subsequent crisis and restructuring Drawing on a wide range of sources including archival material UI administrative tribunal decisions and documents from the government labour and women s groups she examines the implications of restructuring for women s equality as well as how women s groups labour and the state interacted in efforts to shape the policy agenda Porter argues that while the post war welfare state model was based on a family with a single male breadwinner the new model is one that assumes multiple family earners and encourages employability for both men and women The result has been greater formal equality for women but at the same time the restructuring and reduction of benefits have undermined these gains and made women s lives increasingly difficult Using concepts from political economy feminism and public policy this study will be of interest across a range of disciplines

**Economic Evaluation of Interventions for Occupational Health and Safety** Emile Tompa, Anthony J Culyer, Roman Dolinski, 2008-08-21 Undertaking economic evaluations of workplace based occupational health and safety interventions can be difficult reflected by the significant lack of literature evidence and guidance on the subject Particular difficulties include complex labour legislation differences in the perception of health risks associated with work experiences amongst workplace parties and policy makers the burden of costs and consequences being borne by different stakeholders in the system conflicting incentives and priorities between the multiple stakeholders lack of consensus about what ought to count as a benefit or cost of intervening or not intervening multiple providers of indemnity and medical care coverage and industry specific human resources practices making it difficult to identify all work related illnesses and injuries In addition most health economics methods books are designed for use in a clinical setting which cannot be adapted for the workplace setting In the face of such barriers it is not surprising that few studies of occupational health and safety interventions contain an economic evaluation This book aims to lay the foundations for a systematic methodology of economic evaluation of workplace interventions by identifying the main barriers to research of high quality and practical relevance and proposing a research strategy to remedy these weaknesses Context chapters provide a wealth of background material ranging from a presentation of the broad conceptualization of work and health to suggestions for strategies in confronting the dearth of data often experienced by occupational health and safety researchers They take into account the varying institutional and regulatory approaches in different international jurisdictions Specific topic chapters delve into the principles and application of economic evaluation methods relevant to this setting study design type of analysis costs consequences uncertainty and equity

are all covered providing guidance on analytical and decision making challenges The concluding chapter synthesizes the summaries conclusions challenges and recommendations from across the book presenting these in a reference case **In**

**Search of a Safe Place** Vijay Agnew,1998-01-01 Marginalized in the larger society and the mainstream women s movement immigrant women are also outsiders in women s shelters where racially sensitive and linguistically appropriate counselling is generally unavailable In this book Vijay Agnew documents the struggles of Canadian women s centres to provide better services to victims of wife abuse from Asia Africa and the Caribbean The study looks at every aspect of community based women s organizations including their funding operation and services The result is a detailed picture of the problems and challenges they encounter on a daily basis Agnew uses case studies reports and interviews to document the work of these groups and to show how race class and gender intersect in the everyday lives of the women who depend on them Although the women s movement initiated public discussion of wife abuse the fight against abuse is now conducted primarily by the state through its allocation of resources Agnew underscores the tension that often arises between the patriarchal state and feminist inspired organizations and the resulting difficulties in bringing about social change **Changing Work**

**Relationships in Industrialized Economies** Isik U. Zeytinoglu,1999-01-01 This book examines changing work relationships in industrialized economies within the context of economic restructuring and demographic variables The goal of this book is to examine experiences of industrialized economies in dealing with changing work relationships and discuss policy implications of creating such work relationships The thesis of the book is that non standard employment forms in restructuring economies affected all workers but particularly females and the youth Other demographic variables of education level race ethnicity immigrant status ability and economic class were also underlying forces in the construction and arrangements of non standard work Research shows both positive and negative effects of changing work relationships on workers though there is no conclusive result whether one or the other affect is stronger The discussion in this book pays attention to this debate and sheds light on it This book differs from others in its comprehensiveness of the coverage of work relationships referring to part time temporary casual telework and self employment without employees in its examination of a variety of variables including gender age race ethnicity immigrant status ability education level and economic class in the analysis of the topic in relation with the economic restructuring and in its initiative in collaboration of researchers from a variety of backgrounds and regions of the world that have expertise on changing work relationships **Women and the**

**and Love** Maureen Baker,2020-07-29 We think of our family life as very personal but in fact it is shaped by influences well beyond our control Families Labour and Love identifies the ways in which family and personal life in three settler societies Australia New Zealand and Canada has been shaped by colonisation immigration globalisation demographic changes law and

policy Baker shows that these three countries each a former colony developed similar family trends and similar family policies Strongly gendered patterns of paid and unpaid work played a major role in family life The family practices of indigenous people were largely overlooked as were those of recent immigrant groups However local conditions also produced significant differences in family experiences among the three countries Richly illustrated with examples comparative data and textual sources Families Labour and Love provides a broad ranging analysis of the family which will appeal to students researchers and policy makers Maureen Baker outlines with great clarity the diversity of families and the way in which they are shaped by historical and cultural forces The focus on Australia New Zealand and Canada is not only refreshing but throws into sharp relief the impact on contemporary families of the colonial experience industrialisation large scale immigration and globalisation David de Vaus La Trobe University Changing Women, Changing History Diana Lynn Pedersen,1996 Changing Women Changing History is a bibliographic guide to the scholarship both English and French on Canadian s women s history Organized under broad subject headings and accompanied by author and subject indices it is accessible and comprehensive *Working in a Global Era* Vivian Shalla,2011-10-03 Now in its second edition this reader presents a critical examination of the changing structure of work in Canada and abroad Its focus is on the role of Canadian labour in the globalized world Contributors include David Livingstone Pat Armstrong Meg Luxton Dave Broad and other prominent Canadian scholars Each of the seven themed sections begins with a contextual introduction by Vivian Shalla and concludes with critical thinking questions and suggestions for further reading New to this edition All new content 14 up to date chapters reflecting the current state of research on work in Canada New section on informal care work More workplace based chapters that provide a view from the shop floor **Work in Canada** Graham S.
