Nie, Jae-on Kim, 1978-10-31 In this survey of political participation in seven nations Nigeria Austria Japan India the Netherlands Yugoslavia and the United States the authors examine the relationship between social economic and educational factors and political participation The book provides insight into an ongoing debate among political scientists and sociologists why is political participation in some nations distributed evenly across economic social and educational lines whereas other nations foster participation only by their privileged classes The book treats politics not only as a dependent variable influenced by socioeconomic factors but also as an independent variable that affects levels of political participation through variations in party systems and linkages between parties and other organizations

Politics Part 5 Public Policies and Administration Part 6 International Relations Part 7 Major Challenges for Politics and Political Science in the 21st Century Comparative European Politics Rory (Associate Professor of Politics Costello, Associate Professor of Politics University of Limerick), Neil (Professor of Comparative Politics Robinson, Professor of Comparative Politics University of Limerick), 2024-03 Youth Identity, Politics and Change in Contemporary Kurdistan Shivan Fazil, Bahar Baser, 2021-09-01 Today's youth are challenging the older political class around the world and are forming new political generations. Examples from South Africa and elsewhere where peace processes were deemed to be successful show signs of youth disapproval of the current post conflict conditions. Moreover the Arab Spring witnessed numerous youth movements emerge in authoritarian and illiberal contexts. This book was prepared in light of these discussions and aims to contribute to these ongoing debates on youth politics by presenting the situation of youth in the Kurdistan Region of Iraq (KRI) as a case study. It will be the first book that specifically focuses on the Iraqi Kurdish youth and their political, social and economic participation in Kurdistan. The contemporary history of the KRI is marked by conflict, war and ethnic cleansing under Saddam Hussein and the tyranny of the Ba'ath regime significantly affecting the political situation of the Kurds in the Middle East. Most of the recent academic literature has focused on the broader picture or in other words the macro politics of the Kurdish conundrum within Iraq and beyond. There is little scholarship about the Kurdish population and their socio-economic conditions after 2003 and almost none about the younger generation of Kurds who came of age during autonomous Kurdish rule. This is a generation that unlike their forebears has no direct memory of the decades long campaigns of repression. Studying and examining the rise of this generation of Kurdish young millennials, Generation 2000, who came of age in the aftermath of the United States invasion of Iraq, offers a unique approach to understand the dynamics in a region that underwent a substantial socio-political transformation after 2003 as well as the impact of these developments on the youth population. Pursuing different themes and lines of inquiry, the contributors of the book analyze the challenges and opportunities for young men and women to fulfil their needs and desires and contribute to the ongoing quest for nationhood and nation building. In this book, our aim is to bring together a variety of perspectives from local and foreign academics who have been working on pressing issues in Kurdistan and beyond. The chapters focus on an array of themes particularly including political participation, political situation and change, religiosity and extremism. Taken together, the chapters provide us with an introduction to youth politics in Kurdistan. This book is just the first attempt to open academic and non-academic debate on this subject at a time when protests around youth-related issues are becoming a more prevalent method of political engagement in the region. Our hope is that more research follows and supplements what has not been addressed in this book, especially through the introduction of first-hand youth perspectives to the core of this analysis and giving them a voice in non-violent platforms.

Environmental Protest and Citizen Politics in Japan Margaret McKean, 2023-11-15 Environmental Protest and Citizen Politics in Japan examines the development and significance of citizens movements in Japan particularly those centered around environmental activism from the early 1970s The author initially set out to study political behavior and participation believing that citizens movements were similar to other protest groups but the research led to surprising discoveries Contrary to initial expectations these movements proved to be a unique blend of protest and community organization defying conventional political structures and assumptions The book focuses on the political social and environmental changes that these movements initiated highlighting their role in fostering political participation and social transformation By conducting surveys in 1972 the author captures the emergence of these movements at their most vibrant when they were not yet

institutionalized or following established trends Although the movements were largely successful in their immediate goals their broader influence on Japan s political landscape especially regarding electoral change and the nature of political conflict remains more modest The book reflects on the evolution of these movements their impact on political processes and the role of social movements in shaping democratic values while also analyzing the gaps between their goals and their practical achievements It ultimately presents a nuanced understanding of Japanese citizens movements and their political implications This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981

Young People and Long-Term Unemployment Marco Giugni,Jasmine Lorenzini,Manlio Cinalli,Christian Lahusen,Simone Baglioni,2020-12-30 Young People and Long Term Unemployment examines the consequences of long term unemployment for the personal social and political lives of young adults aged 18 34 across four European cities Cologne Germany Geneva Switzerland Lyon France and Turin Italy Adopting a multidimensional theoretical framework aiming to bring together insights based on the contextual macro organizational meso and individual micro levels and combining quantitative and qualitative data and analyses it reaches a number of important conclusions First our study shows that the experience of long term unemployment has a negative impact on different dimensions of young people s lives When compared to employed youth unemployed youth are less satisfied with their lives more isolated and less independent financially Second however there are important variations across the four cities This means that in spite of widespread retrenchments in some places the welfare state still acts as a buffer against unemployment Third although young unemployed people participate in politics equally if not slightly more than employed youth the young unemployed are often disconnected from politics This is so even when they have important grievances to express in the face of high youth unemployment precarious working conditions and grim future perspectives on

the labor market This book will be useful for scholars interested in unemployment politics and youth politics researchers and teachers in political science sociology and social psychology **American Difference** Lori M. Poloni-Staudinger, Michael R.
